CONCLUSIONS OF LAW

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

Pursuant to Federal Rule 42 CFR 435.540, the Department of Human Services uses the federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the Medical Assistance program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience is reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

If an individual is working and the work is substantial gainful activity, the individual is not disabled regardless of the medical condition, education and work experience. 20 CFR 416.920(c).

If the impairment or combination of impairments do not significantly limit physical or mental ability to do basic work activities, it is not a severe impairment(s) and disability does not exist. Age, education and work experience will not be considered. 20 CFR 416.920.

Statements about pain or other symptoms do not alone establish disability. There must be medical signs and laboratory findings which demonstrate a medical impairment... 20 CFR 416.929(a).

...Medical reports should include –

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as blood pressure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms).... 20 CFR 416.913(b).

In determining disability under the law, the ability to work is measured. An individual's functional capacity for doing basic work activities is evaluated. If an individual has the ability to perform basic work activities without significant limitations, he or she is not considered disabled. 20 CFR 416.994(b)(1)(iv).

Basic work activities are the abilities and aptitudes necessary to do most jobs. Examples of these include --

- (1) Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
- (2) Capacities for seeing, hearing, and speaking;
- (3) Understanding, carrying out, and remembering simple instructions;
- (4) Use of judgment;
- (5) Responding appropriately to supervision, co-workers and usual work situations; and
- (6) Dealing with changes in a routine work setting. 20 CFR 416.921(b).

Medical findings must allow a determination of (1) the nature and limiting effects of your impairment(s) for any period in question; (2) the probable duration of the impairment; and (3) the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including your symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

All of the evidence relevant to the claim, including medical opinions, is reviewed and findings are made. 20 CFR 416.927(c).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability.... 20 CFR 416.927(e).

A statement by a medical source finding that an individual is "disabled" or "unable to work" does not mean that disability exists for the purposes of the program. 20 CFR 416.927(e).

When determining disability, the federal regulations require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the Claimant perform Substantial Gainful Activity (SGA)? If yes, the Claimant is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the Claimant have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the Claimant is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the Claimant's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).

4. Can the Claimant do the former work that he/she performed within the last 15 years? If yes, the Claimant is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the Claimant have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the Claimant is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

At Step 1, Claimant is not engaged in substantial gainful activity and has not worked since [REDACTED]. Claimant is not disqualified from receiving disability at Step 1.

At Step 2, Claimant has the burden of proof of establishing that she has a severely restrictive physical or mental impairment that has lasted or is expected to last for the duration of at least 12 months. There is sufficient objective clinical medical evidence in the record that Claimant suffers a severely restrictive physical or mental impairment. Claimant has reports of seizures. The clinical impression from the Claimant's last MRI is that there is no signal abnormality within the temporal lobes or hippocampus which would be suspicious. When [REDACTED] 4 the Claimant experienced psychogenic nonepileptic seizures. At that time she had a normal electroencephalogram. This Administrative Law Judge finds that the medical record is sufficient to establish that Claimant has a severely restrictive physical impairment. The Claimant is not disqualified from disability at step 2.

At Step 3, the Administrative Law Judge must determine if the medical evidence of the Claimant's condition gives rise to a finding that she would meet a statutory listing in the code of federal regulations. The Claimant's impairment does not meet or equal any listing.

At Step 4, the Administrative Law Judge determines whether the Claimant has the ability to perform her past relevant work. The Claimant has previously worked as a school [REDACTED]. The Claimant has credibly testified that she is limited from driving, as well as lifting, bending and standing. There is no evidence upon which this Administrative Law Judge could base a finding that Claimant is able to perform work in which she has engaged in, in the past. Therefore, the Claimant is not disqualified from disability at Step 4.

The Administrative Law Judge will continue to proceed through the sequential evaluation process to determine whether or not Claimant has the residual functional capacity to perform some other less strenuous tasks than in her prior jobs.

At Step 5, the burden of proof shifts to the Department to establish that Claimant does not have residual functional capacity.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium and heavy. These terms have the same meaning as they have in the *Dictionary of Occupational Titles*, published by the Department of Labor... 20 CFR 416.967.

Sedentary work. Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting or carrying articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work. Light work involves lifting no more than 20 pounds at a time with frequent lifting or carrying of objects weighing up to 10 pounds. Even though the weight lifted may be very little, a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Claimant has submitted insufficient objective medical evidence that she lacks the residual functional capacity to perform some other less strenuous tasks than in her prior employment or that she is physically unable to do medium tasks if demanded of her. Claimant should be able to perform medium work even with her impairments. This is particularly so because the Claimant's most recent event captured was not epileptic and cannot therefore be controlled with seizure or anti-epileptic medication. Rather, it was concluded that the event was likely related to stress or a potentially untreated psychiatric disorder. Though the record contains evidence of the Claimant's reports of having had seizures, there is no evidence in the record of a potentially untreated psychiatric disorder or stress of such a severe nature that it would cause seizure like symptoms.

In light of the foregoing, it is found that Claimant maintains the residual functional capacity for work activities on a regular and continuing basis which includes the ability to meet the physical and mental demands required to perform medium work as defined in 20 CFR 416.967(a). After review of the entire record using the Medical-Vocational Guidelines [20 CFR 404, Subpart P, Appendix II] as a guide, specifically Rule 203.25, it is found that Claimant is not disabled for purposes of the SDA program at Step 5.

The Department's Bridges Policy Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the Claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that Claimant is unable to work for a period exceeding 90 days, the Claimant does not meet the disability criteria for State Disability Assistance benefits either.

The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with Department policy when it determined that Claimant was not eligible to receive State Disability Assistance.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds Claimant not disabled for purpose of the SDA benefit program.

Accordingly, it is ORDERED:
