After due notice, a telephone hearing was held on August 14, 2014, from Saginaw, Michigan. Claimant, accompanied by [REDACTED], personally appeared and testified. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialist [REDACTED].

During the hearing, Claimant submitted additional medical evidence. This matter is now before the undersigned for a final decision.

**ISSUE**

Whether the Department properly determined that Claimant was not disabled for purposes of the Medical Assistance (MA) and State Disability Assistance (SDA) benefit programs?

**FINDINGS OF FACT**

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On January 6, 2014, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On April 11, 2014, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating Claimant was capable of performing other work. SDA was denied for lack of duration. (Depart Ex. A, pp 1-2).
3. On April 15, 2014, the Department sent Claimant notice that his application for MA/Retro-MA and SDA had been denied.

4. On May 9, 2014, Claimant filed a request for a hearing to contest the Department's negative action.
5. On July 23, 2014, the State Hearing Review Team (SHRT) found Claimant was not disabled and that he retained the capacity to perform simple and repetitive tasks. (Depart Ex. B, pp 1-2).
6. Claimant was appealing the denial of Social Security benefits at the time of the hearing.
7. Claimant is a 52 year old man whose birthday is [REDACTED].
8. Claimant has not had a driver's license since [REDACTED], due to a DUI conviction.
9. Claimant has a high school education.
10. Claimant does not have a history of substantial gainful employment.
11. Claimant alleges disability on the basis of chronic obstructive pulmonary disease, hepatic encephalopathy, cirrhosis of liver, hyponatremia, upper gastrointestinal bleed secondary to variceal bleeding, asthma, concussion, deviated nasal septum, acute venous embolism and thrombosis, morbid obesity, rheumatoid arthritis, posttraumatic stress disorder, bipolar disorder and anxiety.
12. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
13. Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

### **CONCLUSIONS OF LAW**

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*,

and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and

laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. The medical information indicates that Claimant suffers from chronic obstructive pulmonary disease, hepatic encephalopathy, cirrhosis of liver, hypernatremia, upper gastrointestinal bleed secondary to variceal bleeding, asthma, concussion, deviated nasal septum, acute venous embolism and thrombosis, morbid obesity, rheumatoid arthritis, posttraumatic stress disorder, bipolar disorder and anxiety. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets duration and severity. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). Claimant has a history of less than gainful employment. As such, there is no past work for Claimant to perform, nor are there past work skills to transfer to other work occupations. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the sequential consideration of a disability claim, the trier of fact must determine if the claimant's impairment(s) prevents claimant from doing other work. 20 CFR 416.920(f). This determination is based upon Claimant's:

- (1) residual functional capacity defined simply as "what can you still do despite you limitations?" 20 CFR 416.945;
- (2) age, education, and work experience, 20 CFR 416.963-.965; and

- (3) the kinds of work which exist in significant numbers in the national economy which the claimant could perform despite his/her limitations. 20 CFR 416.966.

See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6<sup>th</sup> Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

Claimant credibly testified that he has end stage liver disease. He currently has two blood clots, one in each leg and requires a visiting nurse in his home twice a day. He uses a walker. His treating physician has opined that Claimant is unable to care for his personal needs in the home.

After careful review of Claimant's medical records and the Administrative Law Judge's personal interaction with Claimant at the hearing, this Administrative Law Judge finds that Claimant's non-exertional impairments render Claimant unable to engage in a full range of even sedentary work activities on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986). Based on Claimant's vocational profile (approaching advanced age, Claimant is 53, with a high school equivalent education and an unskilled work history), this Administrative Law Judge finds Claimant's MA/Retro-MA and SDA benefits are approved using Vocational Rule 201.12 as a guide. Consequently, the Department's denial of his January 6, 2014, MA/Retro-MA and SDA application cannot be upheld.

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant's January 6, 2014, MA/Retro-MA and SDA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Claimant's medical condition for improvement in August, 2015, unless his Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

**It is SO ORDERED.**
