

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 2014-29765
Issue No.: 2009
Case No.: [REDACTED]
Hearing Date: June 25, 2014
County: Lapeer

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held from Lansing, Michigan. Claimant, represented by a family friend [REDACTED], appeared and provided testimony. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialists' [REDACTED] and [REDACTED]

During the hearing, Claimant waived the time period for the issuance of this decision in order to allow for the submission of additional medical evidence. This matter is now before the undersigned for a final decision.

ISSUE

Whether the Department properly denied Claimant's Medical Assistance (MA) and Retro-MA application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On October 28, 2013, Claimant filed an application for MA/Retro-MA benefits alleging disability.
2. On February 6, 2014, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA for lack of duration. However, MRT approved Claimant's application for SDA. (Depart Ex. A, pp 2-3).
3. On February 12, 2014, the Department sent Claimant notice that his application for MA/Retro-MA had been denied.
4. On February 28, 2014, Claimant filed a request for a hearing to contest the Department's negative action.

5. On May 7, 2014, the State Hearing Review Team (SHRT) denied MA/Retro-MA indicating Claimant's condition is improving or is expected to improve within 12 months from the date of onset or from the date of surgery. (Depart Ex. B).
6. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.
7. Claimant is a 44 year old man whose birthday is [REDACTED]. Claimant is 6'0" tall and weighs 390 lbs.
8. Claimant does not have an alcohol, drug or nicotine problem.
9. Claimant has a driver's license and is able to drive short distances.
10. Claimant has a high school equivalent education.
11. Claimant is not currently working. Claimant last worked in September, 2013.
12. Claimant alleges disability on the basis of morbid obesity, diabetes, neuropathy, septic shock, respiratory failure, acute kidney injury-current dialysis, hypertension, anemia, adjustment disorder, depression and posttraumatic stress disorder (PTSD).
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance

claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).

4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months.

See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

Claimant has been medically described as morbidly obese at 390 pounds, which condition likely exacerbates his impairments.

Obesity is a medically determinable impairment that is often associated with disturbance of the respiratory system, and disturbance of this system can be a major cause of disability in individuals with obesity. The combined effects of obesity with respiratory impairments can be greater than the effects of each of the impairments considered separately. Therefore, when determining whether an individual with obesity has a listing-level impairment or combination of impairments, and when assessing a claim at other steps of the sequential evaluation process, including when assessing an individual's residual functional capacity, adjudicators must consider any additional and cumulative effects of obesity. Listing 3.00(I).

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). Claimant's past work history is that of a

general maintenance man and as such, Claimant would be unable to perform the duties associated with his past work. Likewise, Claimant's past work skills will not transfer to other occupations. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

Claimant testified credibly that he has a limited tolerance for physical activities and is unable to stand or sit for lengthy periods of time. Claimant reported his right side is still not functioning properly since being released from physical rehabilitation in November, 2013, after relearning how to walk. He stated he is unable to walk long distances or stand very long and has a pronounced limp. He reported that his right foot, leg and arm are numb and his left side is not as strong as it was prior to the October, 2013, hospitalization.

Claimant was admitted to the hospital on [REDACTED], for septic shock, kidney failure requiring dialysis, newly diagnosed diabetes, elevated blood pressure, and hypoxic respiratory failure. He had been recently admitted for 5 days for severe back pain thought to be due to a pulled muscle. The pain continued to worsen after discharge so he returned to the emergency department. In the ED, he was found to be tachycardic, tachypneic and hypoxic. He had leukocytosis and elevated lactate. He was evaluated by trauma surgery. A CT showed bilateral basilar lesions consistent with multifocal pneumonia. He was admitted to [REDACTED]. His respiratory status decompensated requiring BiPAP and then intubation on [REDACTED]. He was also persistently hypotensive despite fluid resuscitation, requiring Levophed and eventually stress dose steroids were given and then pressors were weaned off. Blood, respiratory and urine cultures grew MSSA. He also developed acute kidney injury necessitating initiation of SLED on [REDACTED], switched to dialysis on [REDACTED] and removed on [REDACTED]. His sepsis improved and he was eventually extubated on 10/19/13. Claimant was discharged on [REDACTED], to a rehabilitation facility for physical and occupational therapy and strengthening, in addition to dialysis as needed.

Claimant saw his treating psychiatrist in January, 2014, for a medication review. Diagnosis: Axis I: Posttraumatic stress disorder; Axis IV: Problems accessing healthcare; Occupational problems; Axis V: GAF=50. The psychiatrist noted Claimant almost died in October, 2013, from pneumonia. Claimant was in a coma for two weeks. Afterwards he was in rehabilitation learning how to walk. He was not released home until the middle of November. He used to love reading. He no longer reads. He is not interacting with others. He does not want to be around his friends. He did not follow up with his doctor. He has health issues. He is not sleeping. He has no previous mental health treatment. The psychiatrist opined Claimant has depression, a flat affect, poor eye contact, and a poor appetite due to being sick or depressed.

In April, 2014, Claimant followed up with his psychiatrist and was diagnosed with PTSD as well as an adjustment order with depressed mood. The psychiatrist indicated Claimant's attention, concentration and memory are impaired. He had difficulty with his gait. Claimant's GAF decreased to 45.

According to the DSM-IV, 4th Ed., a GAF of 45 indicates some impairment in reality testing or communication (e.g., speech is at times illogical, obscure, or irrelevant) or major impairment in several areas, such as work or school, family relations, judgment, thinking, or mood (e.g., depressed adult avoids friends, neglects family, and is unable to work; child frequently beats up younger children, is defiant at home, and is failing at school).

Claimant is 44 years old, with a high school equivalent education. Claimant's medical records are consistent with his testimony that he is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986).

The Department has failed to provide vocational evidence which establishes that Claimant has the residual functional capacity for substantial gainful activity and that given Claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which Claimant could perform despite Claimant's limitations. Accordingly, this Administrative Law Judge concludes Claimant is disabled for purposes of the MA program.

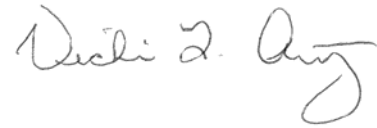

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant's October 28, 2013, MA/Retro-MA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Claimant's medical condition for improvement in August, 2015, unless his Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

It is SO ORDERED.

Vicki L. Armstrong
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: August 8, 2014

Date Mailed: August 11, 2014

NOTICE OF APPEAL: The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.
