**ISSUE**

2. On September 20, 2013, the Medical Review Team denied Claimant's request.

He also worked as an automotive parts sales person in an auto parts store which required him to lift 40 pounds, stand/walk the majority of the shift and limited sitting.
8. Claimant's limitations have lasted for 12 months or more.
9. Claimant suffers from chronic obstructive pulmonary disease.
10. Claimant has significant limitations on physical activities involving sitting, standing, walking, bending, lifting, and stooping.
11. Claimant has significant limitations on understanding, carrying out, and remembering simple instructions; use of judgment; responding appropriately to supervision, co-workers and usual work situations; and dealing with changes in a routine work setting.

#### **CONCLUSIONS OF LAW**

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Family Independence Agency) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under MA-P. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Claimant testified to the following symptoms and abilities: panic attacks occurring frequently when around people, isolates himself in his home, avoids family gatherings and going out in public, feelings of worthlessness, no suicidal thoughts, some issues with hearing things such as the TV being on when it is not, numbness from knees down, very difficult to walk, previously used a walker, now uses a cane, he can walk 60 feet before needing to stop due to shortness of breath, pain issues and poor balance, can stand 5 minutes, can sit about 15 minutes, no medical restriction on lifting, lifting a gallon of milk at best, not able to lift and carry any weight, not able to bend or stoop without problems with balance and dizzy issues, able to manage light household chores, able to manage personal care now but needed assistance before in the last four months and gets help with grocery shopping.

Claimant's treating psychiatrist indicated a GAF of 41. Further, this treating source indicated that Claimant suffered major depression recurrent severe with psychiatric features. Claimant was reporting to the treating source racing thoughts, feelings of worthlessness and hopelessness.

In this case, this Administrative Law Judge finds that Claimant may be considered presently disabled at the third step. Claimant appears to meet listing 12.04 or its equivalent. This Administrative Law Judge will not continue through the remaining steps of the assessment. Claimant's testimony and the medical documentation support the finding that Claimant meets the requirements of a listing.

Therefore, Claimant is found to be disabled.

**DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of March 2013.

Accordingly, the Department's decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated June 14, 2013, if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for September 2015.
