

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 14-001253
Issue No.: 2009, 4009
Case No.: [REDACTED]
Hearing Date: August 6, 2014
County: MIDLAND

ADMINISTRATIVE LAW JUDGE: Aaron McClintic

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on August 06, 2014, from Midland, Michigan. Participants on behalf of Claimant included Claimant. Participants on behalf of the Department of Human Services (Department) included [REDACTED].

ISSUE

Whether the Department properly determined that Claimant was not disabled for purposes of the Medical Assistance (MA) and/or State Disability Assistance (SDA) benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for MA-P and SDA on November 14, 2013.
2. The Medical Review Team denied the application on April 8, 2014.
3. Claimant filed a request for hearing on April 21, 2014, regarding the MA and SDA denials.
4. A telephone hearing was held on August 6, 2014.
5. On June 5, 2014, the State Hearing Review Team denied the application because the medical evidence of record indicates that the Claimant retains the capacity to perform light exertional tasks.

6. Claimant is 5' 11" tall and weighs 253 pounds.
7. Claimant is 46 years of age.
8. Claimant's impairments have been medically diagnosed as arthritis, degenerative disc disease and headaches.
9. Claimant has the following symptoms: pain, fatigue and joint swelling.
10. Claimant completed high school and 2 years of college.
11. Claimant is able to read, write, and perform basic math skills.
12. Claimant is not working. Claimant last worked in 2012 as a construction worker.
13. Claimant lives alone.
14. Claimant testified that he cannot perform some household chores.
15. Claimant takes the following prescribed medications:
 - a. Hydrocodone
 - b. Celebrex
16. Claimant testified to the following physical limitations:
 - i. Sitting: 5 minutes
 - ii. Standing: 10-15 minutes
 - iii. Walking: ½ mile
 - iv. Bend/stoop: some difficulty
 - v. Lifting: 15 lbs.
 - vi. Grip/grasp: no limitations
17. An MRI report from [REDACTED], stated the following under IMPRESSION:
"Status post right-sided L5 level hemilaminectomy, with nonspecific peripherally enhancing centrally homogeneous T2 hyperintense/T1 hypointense fluid collection in the laminectomy sit measuring 2.2 x 2.1 x 2.5cm in AP by transverse by craniocaudal dimension. This most likely represents a postoperative seroma. The differential diagnosis includes less likely etiologies such as postoperative hematoma, dural leak/pseudomenigocele, or abscess. The exact etiology would depend on clinical symptoms. Right subarticular zone focal disk extrusion with caudal migration shown on previous MRI from [REDACTED] has been resected, and there is relief of previously shown impression upon the transversing right S1 nerve root in the lateral recess. Enhancement in the right dorsolateral epidural space and right lateral recess probably is due to granulation tissue from recent

operative intervention and/or discectomy. Residual central zone broad based disk protrusion/ disk bulge at the L5-S1 level resulting in mild effacement of the ventral epidural fat and subtle impression upon the ventral dural sac. Stable central zone focal disk extrusion at the L4-L5 level resulting in mild stenosis of the spinal canal/impression upon the ventral dural sac. Degenerative disk disease and facet joint arthropathy at L4-5 level results in mild narrowing of the inferior aspect of the bilateral neural foramina.”

18. Claimant testified to experiencing pain at a high level of 8 on an everyday basis.
19. An MRI of Claimant’s brain from [REDACTED] was unremarkable.
20. An MRI of the cervical spine from [REDACTED] showed the following under impression: “Mild bilateral facet joint arthropathy at the C3-C4, C4-C5, C5-C6 and C6-7 levels. No substantial appearing spinal canal or neural foraminal stenosis.”

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The Medical Assistance (MA-P) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department administers the MA-P program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program is established by the Social Welfare Act, MCL 400.1-.119b. The Department of Human Services (formerly known as the Family Independence Agency) administers the SDA program pursuant to MCL 400.10 and Mich Admin Code, R 400.3151-.3180.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under the MA-P program. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical, or mental, impairment which can be expected to result in death,

or which has lasted, or can be expected to last, for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that the Department use the same operative definition for “disabled” as used for Supplemental Security Income (SSI) under Title XVI of the Social Security Act. 42 CFR 435.540(a).

“Disability” is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical, or mental, impairment which can be expected to result in death, or which has lasted, or can be expected to last, for a continuous period of not less than 12 months ... 20 CFR 416.905.

In determining whether an individual is disabled, 20 CFR 416.920 requires the trier of fact to follow a sequential evaluation process by which current work activity, the severity of the impairment(s), residual functional capacity, and vocational factors (i.e., age, education, and work experience) are assessed in that order. When a determination that an individual is, or is not, disabled can be made at any step in the sequential evaluation, evaluation under a subsequent step is not necessary.

First, the trier of fact must determine if the individual is working and if the work is substantial gainful activity. 20 CFR 416.920(b). In this case, the Claimant is not working. Therefore, the Claimant is not disqualified at this step in the evaluation.

The second step to be determined in considering whether the Claimant is considered disabled is the severity of the impairment. In order to qualify the impairment must be considered severe, which is defined as an impairment which significantly limits an individual's physical or mental ability to perform basic work activities. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering, simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers, and usual work situations; and
6. Dealing with changes in a routine work setting. 20 CFR 416.921(b).

In this case, the Claimant's medical evidence of record supports a finding that Claimant has significant physical and mental limitations upon Claimant's ability to perform basic work activities such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling. Medical evidence has clearly established that the Claimant has an impairment (or combination of impairments) that has more than a minimal effect on the Claimant's work activities. See Social Security Rulings: 85-28, 88-13, and 82-63. In the third step of the analysis, the trier of fact must determine if the Claimant's impairment (or combination of impairments) is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. This Administrative Law Judge finds that the Claimant's medical record does not support a finding that the Claimant's impairment(s) is a "listed impairment" or equal to a listed impairment. See Appendix 1 of Subpart P of 20 CFR Part 404, Part A. Listing 1.04 was considered.

The person claiming a physical, or mental, disability has the burden to establish it through the use of competent medical evidence from qualified medical sources such as clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for a recovery and/or medical assessment of ability to do work-related activities, or ability to reason and to make appropriate mental adjustments, if a mental disability is being alleged. 20 CFR 416.913. A conclusory statement by a physician, or mental health professional, that an individual is disabled, or blind, is not sufficient without supporting medical evidence to establish disability. 20 CFR 416.927.

The fourth step of the analysis to be considered is whether the Claimant has the ability to perform work previously performed by the Claimant within the past 15 years. The trier of fact must determine whether the impairment(s) presented prevent the Claimant from doing past relevant work. In the present case, the Claimant's past employment was as a construction worker. Working as a construction worker, as described by Claimant at hearing, would be considered medium work. The Claimant's impairments would prevent Claimant from doing past relevant work. This Administrative Law Judge will continue through step 5.

In the final step of the analysis, the trier of fact must determine: if the Claimant's impairment(s) prevent the Claimant from doing other work. 20 CFR 416.920(f). This determination is based upon the Claimant's:

1. residual functional capacity defined simply as "what can you still do despite your limitations? 20 CFR 416.945;
2. age, education, and work experience, 20 CFR 416.963-965; and
3. the kinds of work which exist in significant numbers in the national economy which the Claimant could perform despite her limitations. 20 CFR 416.966.

The residual functional capacity is what an individual can do despite limitations. All impairments will be considered in addition to ability to meet certain demands of jobs in the national economy. Physical demands, mental demands, sensory requirements and other functions will be evaluated.... 20 CFR 416.945(a).

To determine the physical demands (exertional requirements) of work in the national economy, we classify jobs as sedentary, light, medium, and heavy. These terms have the same meaning as they have in the Dictionary of Occupational Titles, published by the Department of Labor.... 20 CFR 416.967.

Sedentary work: Sedentary work involves lifting no more than 10 pounds at a time and occasionally lifting, or carrying, articles like docket files, ledgers, and small tools. Although a sedentary job is defined as one which involves sitting, a certain amount of walking and standing is often necessary in carrying out job duties. Jobs are sedentary if walking and standing are required occasionally and other sedentary criteria are met. 20 CFR 416.967(a).

Light work: Light work involves lifting no more than 20 pounds at a time with frequent lifting, or carrying, of objects weighing up to 10 pounds. Even though the weight lifted may be very little; a job is in this category when it requires a good deal of walking or standing, or when it involves sitting most of the time with some pushing and pulling of arm or leg controls.... 20 CFR 416.967(b).

Medium work: Medium work involves lifting no more than 50 pounds at a time with frequent lifting, or carrying, of objects weighing up to 25 pounds. If someone can do medium work, we determine that he or she can also do sedentary and light work. 20 CFR 416.967(c).

Heavy work: Heavy work involves lifting no more than 100 pounds at a time with frequent lifting or carrying of objects weighing up to 50 pounds. If someone can do heavy work, we determine that he or she can also do medium, light, and sedentary work. 20 CFR 416.967(d).

See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once the Claimant makes it to the final step of the analysis, the Claimant has already established a prima facie case of disability. *Richardson v Secretary of Health and Human Services*, 732 Fd2 962 (6th Cir, 1984). Moving forward the burden of proof rests with the state to prove by substantial evidence that the Claimant has the residual function capacity for substantial gainful activity.

After careful review of the medical evidence presented and Claimant's statements, and considering the Claimant in the most restrictive circumstances this Administrative Law Judge finds that Claimant would be able to perform at least work on the sedentary exertional level.

This Administrative Law Judge finds that Claimant is capable of the requisite sitting, standing and walking for a sedentary job. The Claimant is a younger individual at age 46. 20 CFR 416.963. Claimant's previous work has been unskilled. Federal Rule 20 CFR 404, Subpart P, Appendix 2 contains specific profiles for determining disability based on residual functional capacity and vocational profiles. Under Table 1, Rule 201.18 the Claimant is not disabled for the purposes of MA-P and SDA. Claimant's testimony regarding his limitations and ability to sit, stand, walk, lift and carry is not supported by substantial evidence.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is not medically disabled for the purposes of MA-P and SDA eligibility.

Accordingly, the Department's decision is hereby **AFFIRMED**.

Aaron McClintic
Administrative Law Judge
for Maura Corrigan, Director
Department of Human Services

NOTICE OF APPEAL: A party may appeal this Hearing Decision in the circuit court in the county in which he/she resides, or the circuit court in Ingham County, within 30 days of the receipt date.

A party may request a rehearing or reconsideration of this Hearing Decision from the Michigan Administrative Hearing System (MAHS) within 30 days of the mailing date of this Hearing Decision, or MAHS may order a rehearing or reconsideration on its own motion.

MAHS may grant a party's Request for Rehearing or Reconsideration when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The party requesting a rehearing or reconsideration must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date this Hearing Decision is mailed.

A written request may be faxed or mailed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
