

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 14-007882
Issue No.: 4009
Case No.: [REDACTED]
Hearing Date: September 25, 2014
County: St. Joseph

ADMINISTRATIVE LAW JUDGE: Bill Sundquist

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on September 25, 2014, from Lansing, Michigan. Participants on behalf of Claimant included [REDACTED]. Participants on behalf of the Department of Human Services (Department) included [REDACTED] and [REDACTED].

ISSUE

Whether the Department properly determined that Claimant was not disabled for purposes of the State Disability Assistance (SDA) benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant applied for SDA on December 16, 2013, was denied on July 2, 2014 per BEM 261 and requested a hearing on July 25, 2014.
2. Claimant's vocational factors: Age 40, 12th grade or more education, and unskilled work experience.
3. Claimant's last employment ended in 2012.
4. Alleged disabling medical disorder(s): multiple mental/physical impairments in combination.
5. Medical evidence of record established severe mental impairment in combination, but not for the required 90 day continuous duration.

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

Facts above are undisputed.

DISABILITY

A person is disabled for SDA purposes if he:

receives other specified disability-related benefits or services, or

resides in a qualified Special Living Arrangement facility, or

is certified as unable to work due to mental or physical disability for at least 90 days from the onset of the disability.

is diagnosed as having Acquired Immunodeficiency Syndrome (AIDS).

If the client's circumstances change so that the basis of his/her disability is no longer valid, determine if he/she meets any of the other disability criteria. Do NOT simply initiate case closure. BEM, Item 261, p. 1.

...We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

When determining disability, the federal regulations are used as a guideline and require that several considerations be analyzed in sequential order. If disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. Does the client perform Substantial Gainful Activity (SGA)? If yes, the client is ineligible for MA. If no, the analysis continues to Step 2. 20 CFR 416.920(b).
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.920(c).
3. Does the impairment appear on a special listing of impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.290(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. 20 CFR 416.920(e).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(f).

The claimant had the burden of proof to establish disability in accordance with steps 1-4 above... 20CFR 416.912 (a). The burden of proof shifts to the DHS at Step 5... 20CFR 416.960 (c)(2).

[In reviewing your impairment]...We need reports about your impairments from acceptable medical sources.... 20 CFR 416.913(a).

Acceptable medical verification sources are licensed physicians, osteopaths, or certified psychologists ...20CFR 416.913(a)

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;

- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Step 1

...If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b).

The evidence of record established that the claimant has not engaged in substantial gainful activity since 2012. Therefore, the sequential evaluation is required to continue to the next step.

Step 2

... [The record must show a severe impairment] which significantly limits your physical or mental ability to do basic work activities.... 20 CFR 416.920(c).

Basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

1. Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling;
2. Capacities for seeing, hearing, and speaking;
3. Understanding, carrying out, and remembering simple instructions;
4. Use of judgment;
5. Responding appropriately to supervision, co-workers and usual work situations; and
6. Dealing with changes in a routine work setting.
20 CFR 416.921(b).

Non-severe impairment(s). An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities. 20 CFR 416.921(a).

...If you do not have any impairment or combination of impairments which significantly limits your physical or mental ability to do basic work activities, we will find that you do not have a severe impairment and are, therefore, not disabled. We will not consider your age, education, and work experience. 20 CFR 416.920(c).

The de minimis standard is applied to determine whether the medical evidence establishes impairments having more than a minimal effect on a person's mental or physical ability to do basic work activities.

The medical assessments should describe—

- (1) Your ability to do work-related activities such as sitting, standing, moving about, lifting, carrying, handling objects, hearing, speaking, and traveling; and
- (2) In cases of mental impairments, your ability to reason or make occupational, personal, or social adjustments...20 CFR 416.913(c).

The medical reports of record are examination, diagnostic, treatment and progress reports. They do not provide medical assessments of Claimant's basic work limitations for the required duration. Stated differently, the medical reports do not establish whether the Claimant is impaired more than minimally for the required 90 day continuous duration.

Mental exam on [REDACTED] states the claimant's GAF score of [REDACTED] (DHS exhibit A, page 90).

Physical exam on [REDACTED] states the claimant has no evidence of joint laxity, crepitation, or effusion; that grip strength is diminished bilaterally; that dexterity is unimpaired; that she could pick up a coin, button clothing and open a door; that she had no difficulty getting on and off the examination table, no difficulty heel and toe walking, no difficulties squatting, and no difficulty hopping; that range of motion was normal for the cervical spine, dorsal lumbar spine, shoulders, elbows, hips, knees, ankles, and wrists; that cranial nerves were intact; that motor strength is intact; that muscle tone is normal; that sensory is intact to light touch and pin prick; that she walks with a normal gait without the use of an assist device; that Romberg testing is negative; (DHS exhibit A, pages 36-38).

Mental exam on [REDACTED] states the claimant's GAF score of 30-40 (DHS exhibit A, page 49).

The claimant's GAF scores are considered a person who has a severe mental impairment with occupational-functioning. DS M-IV (fourth edition-revised)

The medical evidence of record has not established the claimant's abnormal mental/physical findings have persisted on a regular and continuing basis on repeated examinations for a reasonable presumption to be made that a severe mental/physical impairment has lasted or is expected to last for at least a 90 day continuous duration.

The claimants disabling symptoms are inconsistent with the objective medical evidence of record.

...Your symptoms, including pain, will be determined to diminish your capacity for basic work activities...to the extent that your alleged functional limitations and restrictions due to symptoms, such as pain, can reasonably be accepted as consistent with the objective medical evidence and other evidence. 20 CFR 416.929(c)(4).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...A statement by a medical source that you are "disabled" or "unable to work" does not mean that we will determine that you are disabled. 20 CFR 416.927(e).

The Claimant has not sustained his/her burden of proof to establish a severe mental/physical impairment in combination, instead of a non-severe impairment, for the required 90 day continuous duration.

Therefore, the sequential evaluation is required to stop at Step 2.

Therefore, medical disability has not been established at Step 2 by the competent, material and substantial evidence on the whole record.

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, and for the reasons stated on the record, if any, finds Claimant not disabled for purposes of the SDA benefit program.
