CONCLUSIONS OF LAW

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Family Independence Agency) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

The Department conforms to State statute in administering the SDA program.

2000 PA 294, Sec. 604, of the statute states:

Sec. 604. (1) The Department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempted from the supplemental security income citizenship requirement who are at least 18 years of age or emancipated minors meeting 1 or more of the following requirements:

- (a) A recipient of supplemental security income, social security, or medical assistance due to disability or 65 years of age or older.
- (b) A person with a physical or mental impairment which meets federal supplemental security income disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under MA-P. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

In this case, the Claimant suffers from diabetes, hypertension, severe diabetic peripheral neuropathy, amputation of the left leg above the knee with accompanying Phantom pain, right leg pain and lower back pain. The Claimant's treating physician reports that the Claimant is to never lift any weight and cannot use his hands and arms for reaching or pushing and pulling. The Claimant can stand or walk less than two hours in an eight hour workday. The Claimant can only sit six hours in an eight hour workday. The Claimant needs a wheelchair or cane to ambulate. The Claimant needs assistance with cooking and showering.

The Claimant's treating psychiatrist reports that the Claimant has a current GAF score of 55. The Claimant's treating psychiatrist did also complete a [REDACTED] Mental Residual Functional Capacity Assessment. It indicates that the Claimant is a markedly limited in the following areas:

1. The ability to maintain attention and concentration for extended periods.
2. The ability to perform activities within a schedule, maintain regular attendance and be punctual within customary tolerance.
3. The ability to work in coordination with or close proximity to others without being distracted by them.
4. The ability to complete a normal workday and workweek without interruptions from psychologically-based symptoms and to perform at a consistent pace without an unreasonable number and length of rest periods.
5. The ability to interact appropriately with the general public.
6. The ability to get along with coworkers or peers without distracting them or exhibiting behavioral extremes.
7. The ability to respond appropriately to change in the work setting.
8. The ability to set realistic goals or make plans independently of others.

The [REDACTED] Mental Residual Functional Capacity Assessment also indicates that the Claimant is moderately limited in the following categories:

1. The ability to remember locations and work like procedures.
2. The ability to understand and remember detailed instructions.
3. The ability to carry out detailed instructions.
4. The ability to sustain an ordinary routine without supervision.
5. The ability to make simple work-related decisions.
6. The ability to accept instructions and respond appropriately to criticism from supervisors.
7. The ability to maintain socially appropriate behavior and to adhere to basic standards of neatness and cleanliness.
8. The ability to be aware of normal hazards and take appropriate precautions.
9. The ability to travel in unfamiliar places or use public transportation.

In this case, this Administrative Law Judge finds that Claimant may be considered presently disabled at the third step. Claimant appears to meet listing 12.04 or its equivalent. This Administrative Law Judge will not continue through the remaining steps of the assessment. Claimant's testimony and the medical documentation support the finding that Claimant meets the requirements of a listing.

Therefore, Claimant is found to be disabled.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of [REDACTED].

Accordingly, the Department's decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated [REDACTED], if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for [REDACTED]
