

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 14-008209
Issue No.: 2009
Case No.: [REDACTED]
Hearing Date: September 25, 2014
County: Genesee-District 2

ADMINISTRATIVE LAW JUDGE: Vicki Armstrong

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on September 25, 2014, from Lansing, Michigan. Claimant, represented by [REDACTED] of [REDACTED] and accompanied by her niece [REDACTED], personally appeared and testified. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialist [REDACTED].

ISSUE

Whether the Department properly determined that Claimant was not disabled for purposes of the Medical Assistance (MA) and Retro-MA benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On February 25, 2014, Claimant filed an application for MA/Retro-MA benefits alleging disability.
2. On May 6, 2014, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating Claimant was capable of performing other work.
3. On May 16, 2014, the Department sent Claimant notice that her application for MA/Retro-MA had been denied.
4. On August 1, 2014, Claimant's Authorized Representative filed a request for a hearing to contest the Department's negative action.
5. Claimant was scheduled for a Social Security disability benefits hearing for October 24, 2014.
6. Claimant is a 53 year old woman whose birthday is [REDACTED].

7. Claimant is 5'0" tall and weighs 150 lbs.
8. Claimant does not have an alcohol or drug history. She smokes a few cigarettes a day.
9. Claimant has a driver's license but is unable to drive due to her neuropathy.
10. Claimant did not graduate from high school.
11. Claimant last worked in 2008.
12. Claimant alleges disability on the basis of coronary artery disease, depression, anxiety, type II diabetes, asthma, obstructive sleep apnea, severe degenerative disc disease, osteoarthritis, osteoporosis, carpal tunnel syndrome, rheumatoid arthritis, neuropathy, two heart attacks, and chronic obstructive pulmonary disease.
13. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
14. Claimant's complaints and allegations concerning her impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Family Independence Agency) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?

5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

In the third step of the sequential analysis of a disability claim, the trier of fact must determine if the individual's impairment, or combination of impairments, is listed in Appendix 1 of Subpart P of 20 CFR, Part 404. Claimant alleges disability on the basis of coronary artery disease, depression, anxiety, type II diabetes, asthma, obstructive sleep apnea, severe degenerative disc disease, osteoarthritis, osteoporosis, carpal tunnel syndrome, rheumatoid arthritis, neuropathy, two heart attacks, and chronic obstructive pulmonary disease.

Claimant has been taking insulin for the past 6 or 7 years. She had a previous myocardial infarction in 2005, and her most recent in December, 2013. In January, 2014, Claimant underwent triple bypass surgery and suffered acute respiratory failure. She has in-home nebulizers and a CPAP mask. She received a 1 unit transfusion in the 1990's. There has been no diagnosis of hepatitis but she has chronically elevated hepatic enzymes. Claimant's medical records also document Claimant suffered trauma at 5 months old when she was thrown against a wall and apparently sustained a closed head trauma with some ongoing memory impairment.

Listing 1.00 (musculoskeletal system), Listing 3.00 (respiratory system), Listing 4.00 (cardiovascular system), Listing 12.00 (mental disorders), and Listing 14.00 (immune system disorders) were considered in light of the objective evidence. Based on Listing 1.04, Claimant's impairments are severe, in combination, if not singly, (20 CFR 404.15.20 (c), 416.920(c)), in that Claimant is significantly affected in her ability to perform basic work activities (20 CFR 404.1521(b) and 416.921(b)(1)).

Listing 1.04 requires a disorder of the spine such as a herniated nucleus pulposus, spinal arachnoiditis, spinal stenosis, osteoarthritis, degenerative disc disease, facet arthritis, vertebral fracture), resulting in compromise of a nerve root (including the cauda equine) or the spinal cord. With evidence of nerve root compression characterized by neural-anatomic distribution of pain, limitation of motion of the spine, motor loss

(atrophy with associated muscle weakness or muscle spasm) accompanied by sensory or reflex loss and, if there is involvement of the lower back, positive straight-leg raising tests (sitting and supine) and lumbar spinal stenosis resulting in pseudoclaudication, established by findings on appropriate medically acceptable imaging, manifested by chronic nonradicular pain and weakness, and resulting in inability to ambulate effectively, as defined in 1.00B2b.

Claimant testified credibly that she has a limited tolerance for physical activities and is unable to stand or sit for lengthy periods of time. She reported she has utilized a cane since 2003, due to her antalgic gait. She has been on home oxygen and will continue to be on home oxygen, since January, 2014. She also reported multiple falls since August, 2013, due to muscle spasms in her back and her diabetic neuropathy. She has shortness of breath and multiple hospitalizations for repeated respiratory infections.

Claimant's MRI of [REDACTED] demonstrates desiccation at every level of the lumbar spine. There was left-sided foraminal stenosis at left L4-L5 and left-sided disc herniation at L4-L5 and L5-S1. In addition, Claimant has degenerative disc disease at every level of the cervical spine. There was central disc herniation at C3-C4, C4-C5, and C5-C6; cord abutment at C3-C4 and C4-C5; bilateral foraminal stenosis at C5-C6; right posterolateral disc herniation at C6-C7; and right-sided foraminal stenosis at C6-C7. According to Claimant's neurosurgeon, Claimant has failed conservative treatment and can no longer tolerate her symptomology. Claimant's neurologist has recommended surgical intervention in the form of an anterior cervical decompression and fusion from C3 to C6.

Therefore, this Administrative Law Judge concludes that Claimant meets Listing 1.04 or its equivalent and is disabled for purposes of the MA program. Had Claimant not been found disabled, Step 4 of the analysis would be required.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, Claimant's past work history is that of cleaning homes and as such, Claimant would be unable to perform the duties associated with her past work. Likewise, Claimant's past work skills will not transfer to other occupations. Accordingly, Step 5 of the sequential analysis would be required, had Claimant not been found disabled at Step 3.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

The medical information indicates that Claimant suffers from coronary artery disease, depression, anxiety, type II diabetes, asthma, obstructive sleep apnea, severe degenerative disc disease, osteoarthritis, osteoporosis, carpal tunnel syndrome,

rheumatoid arthritis, neuropathy, two heart attacks, and chronic obstructive pulmonary disease.

Claimant is 53 years old, with less than a high school education. Claimant's medical records are consistent with her testimony that she is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P, Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986).

The Department has failed to provide vocational evidence which establishes that Claimant has the residual functional capacity for substantial gainful activity and that given Claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which Claimant could perform despite Claimant's limitations. Accordingly, had this Administrative Law Judge not found Claimant disabled at Step 3, Claimant would also be found disabled for purposes of the MA program at Step 5.

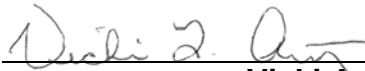

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is Ordered that:

1. The Department shall process Claimant's February 25, 2014, MA/Retro-MA application, and shall award her all the benefits she may be entitled to receive, as long as she meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Claimant's medical condition for improvement in October, 2015, unless her Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding her continued treatment, progress and prognosis at review.

It is **SO ORDERED**.

Vicki Armstrong
Administrative Law Judge
for Maura Corrigan, Director
Department of Human Services

VLA/las

NOTICE OF APPEAL: A party may appeal this Hearing Decision in the circuit court in the county in which he/she resides, or the circuit court in Ingham County, within 30 days of the receipt date.

A party may request a rehearing or reconsideration of this Hearing Decision from the Michigan Administrative Hearing System (MAHS) within 30 days of the mailing date of this Hearing Decision, or MAHS may order a rehearing or reconsideration on its own motion.

MAHS may grant a party's Request for Rehearing or Reconsideration when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The party requesting a rehearing or reconsideration must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date this Hearing Decision is mailed.

A written request may be faxed or mailed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
