

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
FOR THE DEPARTMENT OF COMMUNITY HEALTH**  
P.O. Box 30763, Lansing, MI 48909  
(877) 833-0870; Fax: (517) 373-4147

**IN THE MATTER OF:**

██████████

Appellant

\_\_\_\_\_ /

Docket No. 14-013885 PHR

██████████

██████████

**DECISION AND ORDER**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, following Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. Appellant appeared on his own behalf. ██████████, Clinical Pharmacist for ██████████, represented the Michigan Department of Community Health (MDCH).

**ISSUE**

Did the Department properly deny the Appellant's request for prior authorization of Adderall?

**FINDINGS OF FACT**

The Administrative Law Judge based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Appellant is a ██████ year old Medicaid beneficiary, born ██████████. (Exhibit A, pp. 10, 4 and testimony)
2. On ██████████, Appellant's physician ██████████, MD, ██████████, submitted a PA for Adderall for a diagnosis of Adult ADD. (Exhibit A, p. 10 and testimony)
3. Medicaid guidelines provide that prior authorization is required for Adderall for individuals over ██████ years of age. Adderall may be approved for a diagnosis of ADD/ADHD if continuation of uninterrupted therapy has been confirmed by POS history or documentation of uninterrupted is provided. If individual was treated as a child for ADD/ADHD and now presents for an extension of that treatment, this should not be considered a case of new, adult onset ADD/ADHD. MDCH review will be required unless the diagnosis

of ADD/ADHD has been made by a psychiatrist, clinical (neuro)psychologist, or licensed/certified counselor after turning █████ years old. (Exhibit A, pp. 30-34).

4. On ██████████, after clinical review of Appellant's PA request for Adderall was denied for not meeting criteria for authorization, Appellant had not had a psychological evaluation and documentation of continuation of therapy was not provided. Appellant's request was then forwarded to MDCH and was reviewed by ██████████, a physician reviewer. On ██████████ ██████████ denied the request stating "Concur with denial, Does not meet criteria. To reconsider, please submit the results of the diagnostic tool the prescriber used to confirm the diagnosis of ADHD." (Exhibit A, pp. 1, 5-7, 27, 28 and testimony).
5. An Adequate Action Notice of denial was sent to the Appellant on ██████████. (Exhibit A, pp. 3, 29).
6. Appellant requested a formal, administrative hearing on ██████████ (Exhibit A, p. 2).

### **CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

The Social Security Act § 1927(d), *42 USC 1396r-8(d)*, provides as follows:

#### **LIMITATIONS ON COVERAGE OF DRUGS –**

##### **(1) PERMISSIBLE RESTRICTIONS –**

- (A) A state may subject to prior authorization any covered outpatient drug. Any such prior authorization program shall comply with the requirements of paragraph (5). A state may exclude or otherwise restrict coverage of a covered outpatient drug if –
  - (i) the prescribed use is not for a medically accepted indication (as defined in subsection (k)(6));
  - (ii) the drug is contained in the list referred to in paragraph (2);

- (iii) the drug is subject to such restriction pursuant to an agreement between a manufacturer and a State authorized by the Secretary under subsection (a)(1) or in effect pursuant to subsection (a)(4); or
- (iv) the State has excluded coverage of the drug from its formulary in accordance with paragraph 4.

(2) LIST OF DRUGS SUBJECT TO RESTRICTION –The following drugs or classes of drugs, or their medical uses, may be excluded from coverage or otherwise restricted:

- (A) Agents when used for anorexia, weight loss, or weight gain.
- (B) Agents when used to promote fertility.
- (C) Agents when used for cosmetic purposes or hair growth.
- (D) Agents when used for the symptomatic relief of cough and colds.
- (E) Agents when used to promote smoking cessation.
- (F) Prescription vitamins and mineral products, except prenatal vitamins and fluoride preparations.
- (G) Nonprescription drugs.
- (H) Covered outpatient drugs, which the manufacturer seeks to require as a condition of sale that associated tests or monitoring services be purchased exclusively from the manufacturer or its designee.
- (I) Barbiturates.
- (J) Benzodiazepines.
- (K) Agents when used for the treatment of sexual or erectile dysfunction, unless such agents are used to treat a condition, other than sexual or erectile dysfunction, for which the agents have been approved by the Food and Drug Administration.

\* \* \*

- (4) REQUIREMENTS FOR FORMULARIES — A State may establish a formulary if the formulary meets the following requirements:
- (A) The formulary is developed by a committee consisting of physicians, pharmacists, and other appropriate individuals appointed by the Governor of the State (or, at the option of the State, the State's drug use review board established under subsection (g)(3)).
  - (B) Except as provided in subparagraph (C), the formulary includes the covered outpatient drugs of any manufacturer, which has entered into and complies with an agreement under subsection (a) (other than any drug excluded from coverage or otherwise restricted under paragraph (2)).
  - (C) A covered outpatient drug may be excluded with respect to the treatment of a specific disease or condition for an identified population (if any) only if, based on the drug's labeling (or, in the case of a drug the prescribed use of which is not approved under the Federal Food, Drug, and Cosmetic Act but is a medically accepted indication, based on information from appropriate compendia described in subsection (k)(6)), the excluded drug does not have a significant, clinically meaningful therapeutic advantage in terms of safety, effectiveness, or clinical outcome of such treatment for such population over other drugs included in the formulary and there is a written explanation (available to the public) of the basis for the exclusion.
  - (D) The state plan permits coverage of a drug excluded from the formulary (other than any drug excluded from coverage or otherwise restricted under paragraph (2)) pursuant to a prior authorization program that is consistent with paragraph (5).
  - (E) The formulary meets such other requirements as the Secretary may impose in order to achieve program savings consistent with protecting the health of program beneficiaries.

A prior authorization program established by a State under paragraph (5) is not a formulary subject to the requirements of this paragraph.

- (5) **REQUIREMENTS OF PRIOR AUTHORIZATION PROGRAMS** — A State plan under this title may require, as a condition of coverage or payment for a covered outpatient drug for which Federal financial participation is available in accordance with this section, with respect to drugs dispensed on or after July 1, 1991, the approval of the drug before its dispensing for any medically accepted indication (as defined in subsection (k)(6)) only if the system providing for such approval –
- (A) Provides response by telephone or other telecommunication device within 24 hours of a request for prior authorization; and
  - (B) Except with respect to the drugs referred to in paragraph (2) provides for the dispensing of at least 72-hour supply of a covered outpatient prescription drug in an emergency situation (as defined by the Secretary).

**42 USC 1396r-8(k)(6) MEDICALLY ACCEPTED INDICATION -**

The term “medically accepted indication” means any use for a covered outpatient drug which is approved under the Federal Food, Drug, and Cosmetic Act [21 U.S.C. 301 et seq.] or the use of which is supported by one or more citations included or approved for inclusion in any of the compendia described in subsection (g)(1)(B)(i).

The Medicaid Provider Manual addresses prior-authorization requirements as follows:

**8.2 PRIOR AUTHORIZATION REQUIREMENTS**

PA is required for:

- Products as specified in the MPPL. Pharmacies should review the information in the Remarks as certain drugs may have PA only for selected age groups, gender, etc. (e.g., over 17 years).
- Payment above the Maximum Allowable Cost (MAC) rate.

- Prescriptions that exceed MDCH quantity or dosage limits.
- Medical exception for drugs not listed in the MPPL.
- Medical exception for noncovered drug categories.
- Acute dosage prescriptions beyond MDCH coverage limits for H2 Antagonists and Proton Pump Inhibitor medications.
- Dispensing a 100-day supply of maintenance medications that are beneficiary-specific and not on the maintenance list.
- Pharmaceutical products included in selected therapeutic classes. These classes include those with products that have minimal clinical differences, the same or similar therapeutic actions, the same or similar outcomes, or have multiple effective generics available.

\* \* \*

#### **8.4 DOCUMENTATION REQUIREMENTS**

For all requests for PA, the following documentation is required:

- Pharmacy name and phone number;
- Beneficiary diagnosis and medical reason(s) why another covered drug cannot be used;
- Drug name, strength, and form;
- Other pharmaceutical products prescribed;
- Results of therapeutic alternative medications tried; and
- MedWatch Form or other clinical information may be required.

\* \* \*

## 8.6 PRIOR AUTHORIZATION DENIALS

PA denials are conveyed to the requester. PA is denied if:

- The medical necessity is not established.
- Alternative medications are not ruled out.
- Evidence-based research and compendia do not support it.
- It is contraindicated, inappropriate standard of care.
- It does not fall within MDCH clinical review criteria.
- Documentation required was not provided. [*MDCH Medicaid Provider Manual; Pharmacy Section, July 1, 2014, pp 14-16*].

The Michigan Medicaid Clinical and PDL Criteria for Adderall provides in part that Adderall may be approved for a diagnosis of ADD/ADHD if continuation of uninterrupted therapy has been confirmed by POS history or documentation of uninterrupted is provided. If individual was treated as a child for ADD/ADHD and now presents for an extension of that treatment, this should not be considered a case of new, adult onset ADD/ADHD. MDCH review will be required unless the diagnosis of ADD/ADHD has been made by a psychiatrist, clinical (neuro)psychologist, or licensed/certified counselor after turning █████ years old. (Exhibit A, pp. 30- 34).

The Department's clinical pharmacist █████ testified on █████, Appellant's physician █████, MD, █████, submitted a PA for Adderall for a diagnosis of Adult ADD. █████ stated Medicaid guidelines provide that that Adderall may be approved for a diagnosis of ADD/ADHD if continuation of uninterrupted therapy has been confirmed by POS history or documentation of uninterrupted therapy is provided. If individual was treated as a child for ADD/ADHD and now presents for an extension of that treatment, this should not be considered a case of new, adult onset ADD/ADHD. MDCH review will be required unless the diagnosis of ADD/ADHD has been made by a psychiatrist, clinical (neuro)psychologist, or licensed/certified counselor after turning █████ years old.

█████ testified on █████, after clinical review of Appellant's PA request for Adderall was denied for not meeting criteria for authorization, Appellant had not had a psychological evaluation and documentation of continuation of therapy was not provided. Appellant's request was then forwarded to MDCH and was reviewed by █████, a physician reviewer. On █████ denied the request stating "Concur with denial, Does not meet criteria. To reconsider, please submit the results of the diagnostic tool the prescriber used to confirm the diagnosis of ADHD." Thereafter, an Adequate Action Notice of denial was sent to the Appellant on █████. The Appellant declined to testify during the hearing.

This Administrative Law Judge has reviewed the evidence of record. Here, Appellant's request was denied after a clinical review and was forwarded to MDCH and reviewed by [REDACTED], a physician reviewer, per Department policy. [REDACTED] upheld the previous denial for Adderall. The undersigned has no authority to override the decision of the physician reviewer since that decision was made within policy. Policy requires that requests for Adderall must be reviewed by the Department and that was done in this case. The approval criteria requires Appellant to submit documentation showing the Appellant had the required psychological evaluation and that there had been of continuation of therapy, or the Adderall cannot be approved. The documentation submitted with the Appellant's PA request did not satisfy the approval criteria. Accordingly, the Department's denial is proper based on the submitted information.

**DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law, must find that the Department was within its legal authority to deny coverage for the medication sought.

**IT IS THEREFORE ORDERED** that:

The Department's decision is **AFFIRMED**.
