

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES**

**IN THE MATTER OF:**

[REDACTED]

Reg. No.: 2014-12714  
Issue No(s): 2009, 4009  
Case No.: [REDACTED]  
Hearing Date: April 9, 2014  
County: Newaygo

**ADMINISTRATIVE LAW JUDGE:** Colleen Lack

**HEARING DECISION**

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, an in-person hearing was held on April 9, 2014, from White Cloud, Michigan. Participants on behalf of Claimant included [REDACTED] the Claimant, and [REDACTED], friend. Participants on behalf of the Department of Human Services (Department) included [REDACTED], Eligibility Specialist.

During the hearing, Claimant waived the time period for the issuance of this decision, in order to allow for the submission of additional medical evidence. The evidence was received, reviewed, and forwarded to the State Hearing Review Team ("SHRT") for consideration. The SHRT found Claimant not disabled. This matter is now before the undersigned for a final determination.

**ISSUE**

Whether the Department properly determined that Claimant was no longer disabled for purposes of the Medical Assistance (MA) and State Disability Assistance (SDA) benefit programs?

**FINDINGS OF FACT**

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Claimant had been found disabled and was eligible for Medicaid (MA-P) and SDA based on an August 5, 2010, application for MA-P and SDA.
2. In November 2013, the Department was to review Claimant's ongoing eligibility for MA-P and SDA.
3. On October 7, 2013, the Medical Review Team (MRT) found Claimant not disabled.
4. On October 14, 2013, the Department notified Claimant of the MRT determination.

5. On November 8, 2013, the Department received Claimant's timely written request for hearing.
6. On January 30, 2014, and June 18, 2014, the State Hearing Review Team (SHRT) found Claimant not disabled.
7. Claimant alleged disabling impairments including chronic pain, neuropathy, and anxiety.
8. At the time of hearing, Claimant was 47 years old with an [REDACTED], birth date; was 5'6" in height; and weighed 195 pounds.
9. Claimant completed the 8<sup>th</sup> grade, obtained a GED, and has a work history including custodial/maintenance, short order cook, powder coating, and courier.
10. Claimant's impairments have lasted, or are expected to last, continuously for a period of 12 months or longer.

### **CONCLUSIONS OF LAW**

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Family Independence Agency) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

When determining disability, the federal regulations require several factors to be considered including: (1) the location/duration/frequency/intensity of an applicant's pain; (2) the type/dosage/effectiveness/side effects of any medication the applicants takes to relieve pain; (3) any treatment other than pain medication that the applicant has received to relieve pain; and (4) the effect of the applicant's pain on his or her ability to do basic work activities. 20 CFR 416.929(c)(3). The applicant's pain must be

assessed to determine the extent of his or her functional limitation(s) in light of the objective medical evidence presented. 20 CFR 416.929(c)(2).

Once an individual has been found disabled for purposes of MA benefits, continued entitlement is periodically reviewed in order to make a current determination or decision as to whether disability remains in accordance with the medical improvement review standard. 20 CFR 416.993(a); 20 CFR 416.994. In evaluating a claim for ongoing MA benefits, federal regulation require a sequential evaluation process be utilized. 20 CFR 416.994(b)(5). The review may cease and benefits continued if sufficient evidence supports a finding that an individual is still unable to engage in substantial gainful activity. *Id.* Prior to deciding an individual's disability has ended, the department will develop, along with the Claimant's cooperation, a complete medical history covering at least the 12 months preceding the date the individual signed a request seeking continuing disability benefits. 20 CFR 416.993(b). The department may order a consultative examination to determine whether or not the disability continues. 20 CFR 416.993(c).

The first step in the analysis in determining whether an individual's disability has ended requires the trier of fact to consider the severity of the impairment(s) and whether it meets or equals a listed impairment in Appendix 1 of subpart P of part 404 of Chapter 20. 20 CFR 416.994(b)(5)(i). If a Listing is met, an individual's disability is found to continue with no further analysis required.

If the impairment(s) does not meet or equal a Listing, then Step 2 requires a determination of whether there has been medical improvement as defined in 20 CFR 416.994(b)(1); 20 CFR 416.994(b)(5)(ii). Medical improvement is defined as any decrease in the medical severity of the impairment(s) which was present at the time of the most favorable medical decision that the individual was disabled or continues to be disabled. 20 CFR 416.994(b)(1)(i). If no medical improvement found, and no exception applies (see listed exceptions below), then an individual's disability is found to continue. Conversely, if medical improvement is found, Step 3 calls for a determination of whether there has been an increase in the residual functional capacity ("RFC") based on the impairment(s) that were present at the time of the most favorable medical determination. 20 CFR 416.994(b)(5)(iii).

If medical improvement is not related to the ability to work, Step 4 evaluates whether any listed exception applies. 20 CFR 416.994(b)(5)(iv). If no exception is applicable, disability is found to continue. *Id.* If the medical improvement *is* related to an individual's ability to do work, then a determination of whether an individual's impairment(s) are severe is made. 20 CFR 416.994(b)(5)(iii), (v). If severe, an assessment of an individual's residual functional capacity to perform past work is made. 20 CFR 416.994(b)(5)(vi). If an individual can perform past relevant work, disability does not continue. *Id.* Similarly, when evidence establishes that the impairment(s) do (does) not significantly limit an individual's physical or mental abilities to do basic work activities, continuing disability will not be found. 20 CFR 416.994(b)(5)(v). Finally, if an individual is unable to perform past relevant work, vocational factors such as the individual's age, education, and past work experience are considered in determining

whether despite the limitations an individual is able to perform other work. 20 CFR 416.994(b)(5)(vii). Disability ends if an individual is able to perform other work. *Id.*

The first group of exceptions (as mentioned above) to medical improvement (i.e., when disability can be found to have ended even though medical improvement has not occurred) found in 20 CFR 416.994(b)(3) are as follows:

- (i) Substantial evidence shows that the individual is the beneficiary of advances in medical or vocational therapy or technology (related to the ability to work);
- (ii) Substantial evidence shows that the individual has undergone vocational therapy related to the ability to work;
- (iii) Substantial evidence shows that based on new or improved diagnostic or evaluative techniques the impairment(s) is not as disabling as previously determined at the time of the most recent favorable decision;
- (iv) Substantial evidence demonstrates that any prior disability decision was in error.

The second group of exceptions [20 CFR 416.994(b)(4)] to medical improvement are as follows:

- (i) A prior determination was fraudulently obtained;
- (ii) The individual failed to cooperate;
- (iii) The individual cannot be located;
- (iv) The prescribed treatment that was expected to restore the individual's ability to engage in substantial gainful activity was not followed.

If an exception from the second group listed above is applicable, a determination that the individual's disability has ended is made. 20 CFR 416.994(b)(5)(iv). The second group of exceptions to medical improvement may be considered at any point in the process. *Id.*

As discussed above, the first step in the sequential evaluation process to determine whether the Claimant's disability continues looks at the severity of the impairment(s) and whether it meets or equals a listed impairment in Appendix 1.

In the present case, Claimant alleged disabling impairments including chronic pain, neuropathy, and anxiety.

March 2013 to March 2014, office visit records document diagnosis and treatment of multiple conditions, including: chest wall pain, GERD, anxiety, hepatitis C, COPD, depression, coronary artery disease, chronic musculoskeletal pain and tinnitus. An April 2013, record indicates the chronic pain is related to a past motor vehicle accident that continues to severely limit activities of daily living, does not appear to be improving and most likely will continue to deteriorate. A September 16, 2013, record in part, indicates ongoing constant severe chronic pain requiring fairly high dose narcotics that has not improved and interferes significantly with activities of daily living. January and March 2014 records also document the ongoing severe chronic pain limiting activities of daily

living. A January 9, 2014, letter from the primary care doctor notes severe chronic chest wall pain due to a motor vehicle accident in 2006. The pain was noted to be debilitating and unresponsive to all forms of treatment. Claimant was noted to have progressively worsened since the accident and now requires daily narcotic medication and has quite limited function.

A September and October 2013, gastroenterology records document hepatitis C. The provider recommended waiting for better therapies to become available to treat this in the next year or two.

The medical evidence was not sufficient to meet the intent and severity requirements of any listing, or its equivalent. Accordingly, the Claimant cannot be found disabled, or not disabled at this step.

Step 2 requires a determination of whether there has been medical improvement. Claimant was previously found disabled based on not being able to perform other work, though no medial-vocational rule was cited.

The recent medical records from the primary care provider document that there has been no medical improvement. Ongoing chronic severe pain requiring daily narcotic medication that limits activities of daily living has been consistently noted.

In consideration of all medical evidence, it is found that, overall, there has been no medical improvement. The exceptions contained in 20 CFR 416.994(b)(3) and 20 CFR 416.994(b)(4) are not applicable.

Accordingly, Claimant is found disabled for purposes of continued MA-P entitlement; therefore the Claimant is also found disabled for purposes of continued SDA benefits.

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, and for the reasons stated on the record, if any, finds Claimant disabled for purposes of the MA and/or SDA benefit program.

### **DECISION AND ORDER**

Accordingly, the Department's determination is **REVERSED**.

THE DEPARTMENT IS ORDERED TO INITIATE THE FOLLOWING, IN ACCORDANCE WITH DEPARTMENT POLICY AND CONSISTENT WITH THIS HEARING DECISION, WITHIN 10 DAYS OF THE DATE OF MAILING OF THIS DECISION AND ORDER:

1. Reinstate Claimant's MA and/or SDA case(s) retroactive to the effective date of the closure, if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for January 2016.

2. The Department shall supplement for lost benefits (if any) that Claimant was entitled to receive, if otherwise eligible and qualified in accordance with Department policy.

Colleen Lack  
Administrative Law Judge  
for Maura Corrigan, Director  
Department of Human Services

Date Signed: December 23, 2014

Date Mailed: December 23, 2014

**NOTICE OF APPEAL:** A party may appeal this Hearing Decision in the circuit court in the county in which he/she resides or has its principal place of business in the State, or the circuit court in Ingham County, within 30 days of the receipt date.

A party may request a rehearing or reconsideration of this Hearing Decision from the Michigan Administrative Hearing System (MAHS) within 30 days of the mailing date of this Hearing Decision, or MAHS may order a rehearing or reconsideration on its own motion.

MAHS may grant a party's Request for Rehearing or Reconsideration when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The party requesting a rehearing or reconsideration must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date this Hearing Decision is mailed.

A written request may be faxed or mailed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
