

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HUMAN SERVICES**

**IN THE MATTER OF:**

[REDACTED]

Reg. No.: 14-005896  
Issue No.: 2009;4009  
Case No.: [REDACTED]  
Hearing Date: September 9, 2014  
County: Saginaw

**ADMINISTRATIVE LAW JUDGE:** William A Sundquist

**HEARING DECISION**

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on September 09,2014, from Lansing Michigan. Participants on behalf of Claimant included [REDACTED] and [REDACTED]. Participants on behalf of the Department of Human Services (Department) included [REDACTED].

**ISSUE**

Whether the Department properly determined that Claimant was not disabled for purposes of the Medical Assistance (MA) and/or State Disability Assistance (SDA) benefit programs?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On April 17, 2000 Claimant had his/her most recent favorable medical decision by MRT.
2. On June 25, 2014 the DHS terminated the Claimant's MA-P/SDA based on medical recovery per BEM 260/261 with a hearing request on July 3, 2014.
3. Vocational Factors: age 22, two years of college grade education, and unskilled work experience.
4. Alleged continuing disabling medical disorders: multiple mental disorders (DHS Exhibit A , Pg 10).
5. Medical evidence of record does not establish Claimant's impairment(s) meets/equals a social security listing (DHS Ex A, Pg 10 ).

6. Medical evidence of record established claimant's recovery for basic work activities.

### **CONCLUSIONS OF LAW**

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (BRM).

"Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

...Ability to engage in substantial gainful activity. In most instances, we must show that you are able to engage in substantial gainful activity before your benefits are stopped. When doing this, we will consider all your current impairments not just that impairment(s) present at the time of the most recent favorable determination.... 20 CFR 416.994(b)(1)(v).

...To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the most expeditious and administratively efficient way, and that any decision to stop disability benefits are made objectively, neutrally and are fully documented, we will follow specific steps and use the federal guidelines in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The steps are:

Step 1. Do you have an impairment or combination of impairments which meets or equals the severity of an impairment listed in Appendix 1 of Subpart P of Part 404 of this chapter? If you do, your disability will be found to continue. 20 CFR 416.994(b)(5)(i).

Step 2. If you do not, has there been a medical improvement as defined in paragraph (b)(1)(i) of this section? If there has been medical improvement as shown by a decrease in medical severity, see Step 3 in paragraph (b)(5)(iii) of this section. If there has been no decrease in medical severity, there has been no medical improvement. (see Step 4 in paragraph (b)(5)(iv) of this section.) 20 CFR 416.994(b)(5)(ii).

Step 3. If there has been medical improvement, we must determine whether it is related to your ability to do work in accordance with paragraphs (b)(1)(i) through (b)(1)(iv) of this section; i.e., whether or not there has been an increase in the residual functional capacity based on the impairment(s) that was present at the time of the most recent favorable medical determination. If medical improvement is not related to your ability to do work, see Step 5 in paragraph (b)(5)(v) of this section. 20 CFR 416.994(b)(5)(iii).

Step 4. If we found in Step 2 in paragraph (b)(5)(ii) of this section that there has been no medical improvement or if we found at Step 3 in paragraph (b)(5)(iii) of this section that the medical improvement is not related to your ability to work, we consider whether any of the exceptions in paragraphs (b)(3) and (b)(4) of this section apply. If none of them apply, your disability will be found to continue. If any of the first group of exceptions to medical improvement applies, see Step 5 in paragraph (b)(5)(v) of this section. If an exception from the second group of exceptions to medical improvement applies, your disability will be found to have ended. The second group of exceptions to medical improvement may be considered at any point in this process. 20 CFR 416.994(b)(5)(iv).

Step 5. If medical improvement is shown to be related to your ability to do work or if any of the first group of exceptions to medical improvement applies, we will determine whether all your current impairments in combination are severe (see Sec. 416.921). This determination will consider all your current impairments and the impact of the combination of these impairments on your

ability to function. If the residual functional capacity assessment in Step 3 in paragraph (b)(5)(iii) of this section shows significant limitation to your ability to do basic work activities, see Step 6 in paragraph (b)(5)(iv) of this section. When the evidence shows that all your current impairments in combination do not significantly limit your physical or mental abilities to do basic work activities, these impairments will not be considered severe in nature. If so, you will no longer be considered disabled. 20 CFR 416.994(b)(5)(v).

Step 6. If your impairment(s) is severe, we will assess your current ability to engage in substantial gainful activity in accordance with 416.961. That is, we will assess your residual functional capacity based on all your current impairments and consider whether you can still do work that you have done in the past. If you can do such work, disability will be found to have ended. 20 CFR 416.994(b)(5)(vi).

Step 7. If you are not able to do work you have done in the past, we will consider one final step. Given the residual functional capacity assessment and considering your age, education, and past work experience, can you do other work? If you can, disability will be found to have ended. If you cannot, disability will be found to continue. 20 CFR 416.994(b)(5)(vii).

The medical assessments should describe—

Your ability to do work-related activities such as sitting, standing, moving about, lifting, carrying, handling objects, hearing, speaking, and traveling; and

- (1) In cases of mental impairments, your ability to reason or make occupational, personal, or social adjustments...20 CFR 416.913(c).

## **Step 1**

### **LISTING OF IMPAIRMENTS**

Where claimant proves an impairment(s) satisfying duration criteria that is so severe as to either meet or equal a set of criteria in the Social Security Regulations, Listing of Impairment, Appendix 1, a favorable disability determination is required without considering age, education and work experience. (20 CFR 416.920(d)).

The objective medical evidence of record does not establish a continuing disability at Step 1. Therefore, the sequential evaluation is required to continue to the next step.

## Step 2

...If you are entitled to disability benefits as a disabled person age 18 or over (adult) there are a number of factors we consider in deciding whether your disability continues. We must determine if there has been any medical improvement in your impairment(s) and, if so, whether this medical improvement is related to your ability to work. If your impairment(s) has not so medically improved, we must consider whether one or more of the exceptions to medical improvement applies. If medical improvement related to your ability to work has not occurred and no exception applies, your benefits will continue. Even where medical improvement related to your ability to work has occurred or an exception applies, in most cases, we must also show that you are currently able to engage in substantial gainful activity before we can find that you are no longer disabled. 20 CFR 416.994(b).

**Medical improvement.** Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you were disabled or continued to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s).... 20 CFR 416.994(b)(1)(i).

The objective medical evidence of record establishes Claimant's medical impairments have decreased in medical severity. Therefore, the sequential evaluation is required to continue to the next step.

## Step 3

**Medical improvement not related to ability to do work.** Medical improvement is not related to your ability to work if there has been a decrease in the severity of the impairment(s) as defined in paragraph (b)(1)(i) of this section, present at the time of the most recent favorable medical decision, but no increase in your functional capacity to do basic work activities as defined in paragraph (b)(1)(iv) of this section. If there has been any medical improvement in your impairment(s), but it is not related to your ability to do work and none of the exceptions applies, your benefits will be continued.... 20 CFR 416.994(b)(1)(ii).

**Medical improvement that is related to ability to do work.** Medical improvement is related to your ability to work if there has been a decrease in the severity, as defined in paragraph (b)(1)(i) of this section, of the impairment(s) present at the time of the most recent favorable medical decision **and** an increase in your functional capacity to do basic work activities as discussed in paragraph (b)(1)(iv) of this section. A determination that medical improvement related to your ability to do work has occurred does not, necessarily, mean that your disability will be found to have ended unless it is also shown that you are currently able to engage in substantial gainful activity as discussed in paragraph (b)(1)(v) of this section.... 20 CFR 416.994(b)(1)(iii).

In determining whether you are disabled under the law, we must measure, therefore, how and to what extent your impairment(s) has affected your ability to do work. We do this by looking at how your functional capacity for doing basic work activities has been affected.... 20 CFR 416.994(b)(1)(iv).

Basic work activities means the abilities and aptitudes necessary to do most jobs. Included are exertional abilities such as walking, standing, pushing, pulling, reaching and carrying, and non-exertional abilities and aptitudes such as seeing, hearing, speaking, remembering, using judgment, dealing with changes and dealing with both supervisors and fellow workers.... 20 CFR 416.994(b)(1)(iv).

The objective medical evidence of record does establish Claimant's related ability to perform basic work acts.

Medical exam on [REDACTED] states the claimant's GAF scores of 20 and 50, and past yr. 30. 50 and under are considered a severe mental impairment with occupational functioning. DSM-IV (fourth edition revised).

**Psychiatric/psychological report of exam on [REDACTED] states the claimant was throughout the evaluation: cooperative and attentive ; that results of the examination revealed no abnormalities; that her ability to relate and interact with others, included, coworkers and supervisors, is impaired; that her ability to understand, recall and complete task and expectations does not appear to be significantly impaired; she is able to perform simple and complex tasks with no major limitations; that she should not struggle with familiar routine tasks, even those that have multiple steps and increased complexity; that her ability to maintain concentration does seem somewhat impaired; that her ability to withstand the normal stressors associated with a workplace setting is somewhat impaired; and that she appears able to deal with normal workplace stressors appropriately (DHS exhibit A, page 9) Step 4.**

**Also, the claimant testified that she has two years of college, and is currently attending an online university full-time.**

**This ALJ finds the claimant's medical condition has significantly improved and has established a residual functional capacity to perform basic work activities based on the recent medical evidence and the claimant's residual functional capacity for full-time college ability.**

Must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1. Because the claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does establish that claimant is able to work, the claimant does not meet the disability criteria for State Disability Assistance benefits either.

The objective medical evidence of record establishes that Claimant's current impairments in combination do not significantly limit mental abilities to do basic work acts. Therefore, the impairments are not considered severe and that Claimant is no longer considered disabled.

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, and for the reasons stated on the record, if any, finds Claimant not disabled for purposes of the MA and/or SDA benefit program.

### **DECISION AND ORDER**

Accordingly, the Department's determination is **AFFIRMED**.

**William A Sundquist**  
Administrative Law Judge  
for Maura Corrigan, Director  
Department of Human Services

**NOTICE OF APPEAL:** A party may appeal this Hearing Decision in the circuit court in the county in which he/she resides, or the circuit court in Ingham County, within 30 days of the receipt date.

A party may request a rehearing or reconsideration of this Hearing Decision from the Michigan Administrative Hearing System (MAHS) within 30 days of the mailing date of this Hearing Decision, or MAHS may order a rehearing or reconsideration on its own motion.

MAHS may grant a party's Request for Rehearing or Reconsideration when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The party requesting a rehearing or reconsideration must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date this Hearing Decision is mailed.

A written request may be faxed or mailed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
