

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 201412713
Issue No(s): 2009, 4009
Case No.: [REDACTED]
Hearing Date: March 20, 2014
County: Midland County DHS

ADMINISTRATIVE LAW JUDGE: Gary F. Heisler

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on March 20, 2014, from Lansing, Michigan. Participants on behalf of Claimant included herself. Participants on behalf of the Department of Human Services (Department) included ES [REDACTED]

ISSUES

Did the Department of Human Services properly determine that Claimant is not disabled and deny Claimant's August 21, 2013 application for Medical Assistance (MA) based on disability and State Disability Assistance (SDA)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Claimant was born on [REDACTED] and was 52 years old on the date of application. In accordance with the Medical-Social Questionnaire (DHS-49-F) submitted by Claimant she is 5' 5" tall and weighs approximately 187 pounds. Claimant's formal education consists of 12 years of school.
2. In accordance with the Medical-Social Questionnaire (DHS-49-F) submitted by Claimant she has past relevant work history in a car wash, as a produce cashier and in fast food service. Claimant reports she last worked about 5 years ago.
3. In accordance with the Medical-Social Questionnaire (DHS-49-F) (Pages) submitted by Claimant she cannot work due to lower back pain, neck pain, depression, anxiety and bipolar disorder.

4. On August 21, 2013, Claimant applied for Medical Assistance (MA) based on disability and State Disability Assistance (SDA).
5. On October 23, 2013, the Department of Human Services Medical Review Team determined that Claimant was not disabled in accordance with the standards for Medical Assistance (MA) or State Disability Assistance (SDA).
6. On November 1, 2013, Claimant was sent notice of the Department's determination.
7. On November 12, 2013, Claimant submitted a request for hearing.
8. On February 5, 2014, the State Hearing Review Team determined that Claimant was not disabled in accordance with the standards for Medical Assistance (MA) or State Disability Assistance (SDA).

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

Disability determinations done by the State of Michigan for Medical Assistance (MA) based on disability use the Social Security Administration standards found in United States Code of Federal Regulations (CFR) at Title 20, Part 416. The law defines disability as the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of at least 12 months. To meet this definition, you must have severe impairments that make you unable to do your past relevant work or any other substantial gainful work that exists in the national economy.

Disability determinations done by the State of Michigan, for State Disability Assistance (SDA), use the same standards with one minor difference. For State Disability Assistance (SDA) the medically determinable physical or mental impairments that prevent substantial gainful activity must result in death or last at least 90 days.

In accordance with the Federal Regulations an initial disability determination is a sequential evaluation process. The evaluation consists of five steps that are followed in a set order.

STEP 1

At this step a determination is made on whether Claimant is engaging in substantial gainful activity (20 CFR 416.920(b)). If you are performing activities for pay or profit, we will use 20 CFR 416.971 through 416.975 to evaluate the activities to determine if they are substantial gainful activity. Substantial gainful activity is defined as work activity: that is both substantial and gainful; and involves doing significant physical or mental activities. Gainful work activity is work activity that you do for pay or profit (20 CFR 416.972). If you are engaged in substantial gainful activity, you are not disabled regardless of how severe your physical or mental impairments are and regardless of your age, education, and work experience.

Based on the evidence in the record and Claimant's testimony, Claimant has not received earnings as an employee since the date of application. Therefore, Claimant is not engaged in substantial gainful activity. Claimant is not found ineligible and the analysis proceeds to step two.

STEP 2

At the second step it is determined whether you have a severe physical or mental impairment that meets the duration requirement or a combination of impairments that is severe and meets the duration requirement (20CFR 416.920). An impairment or combination of impairments is severe within the meaning of the regulations if it significantly limits an individual's ability to perform basic work activities. When we talk about basic work activities, we mean the abilities and aptitudes necessary to do most jobs. Examples of these include:

Physical functions such as walking, standing, sitting, lifting, pushing, pulling, reaching, carrying or handling;

Capacities for seeing, hearing, and speaking;

Understanding, carrying out, and remembering simple instructions;

Use of judgment;

Responding appropriately to supervision, co-workers and usual work situations;
and

Dealing with changes in a routine work setting.

An impairment or combination of impairments is not severe if it does not significantly limit your physical or mental ability to do basic work activities (20 CFR 416.921).

In addition to the limiting effect of the impairments they must also meet durational requirements, 90 days for State Disability Assistance (SDA) and 12 months for Medical Assistance (MA) based on disability. If we determine that your impairments are not severe, you are not disabled.

In accordance with the Medical-Social Questionnaire (DHS-49-F) submitted by Claimant asserts disability based on lower back pain, neck pain, depression, anxiety and bipolar disorder. What follows is a synopsis of all relevant evidence in the record from medical sources presented in chronological order.

There is a Medical Examination Report (DHS-49) signed by Dr. Mulder on September 13, 2013. In part, the Doctor based his assessments on a September 6, 2013 X-ray study of Claimant's lumbar spine. The Doctor found Claimant was stable and limited to frequently lifting 20 pounds, frequently lifting 25 pounds, standing or walking at least 2 hours in an 8 hour day.

There is an Outpatient Occupational Therapy Evaluation dated September 10, 2013. The ErgoScience software used for the evaluation showed Claimant was able to perform tasks included in the light work category.

There is a Psychiatric/Psychological Examination Report (DHS-49D) and Mental Residual Functional Capacity Assessment (DHS-49E) completed by Dr. Cherukori on May 24, 2013. (Pages 525-529) The Doctor reports a treating relationship with Claimant since September 2010. The Doctor diagnosed Claimant with Psychotic Disorder and Major Depressive Disorder. The Doctor wrote that she has treated Claimant for almost 3 years and her depression has remained chronic despite medication treatment. The Doctor assessed Claimant as: markedly limited in 2 of 3 understanding and memory categories; markedly limited in 7 of 8 sustained concentration and persistence categories; markedly limited in 4 of 5 social interaction categories; and markedly limited in 2 of 4 adaptation categories.

20 CFR 416.927

How we weigh medical opinions. Regardless of its source, we will evaluate every medical opinion we receive. Unless we give a treating source's opinion controlling weight under paragraph (d)(2) of this section, we consider all of the following factors in deciding the weight we give to any medical opinion.

Examining relationship. Generally, we give more weight to the opinion of a source who has examined you than to the opinion of a source who has not examined you.

Treatment relationship. Generally, we give more weight to opinions from your treating sources, since these sources are likely to be the medical professionals

most able to provide a detailed, longitudinal picture of your medical impairment(s) and may bring a unique perspective to the medical evidence that cannot be obtained from the objective medical findings alone or from reports of individual examinations, such as consultative examinations or brief hospitalizations.

Supportability. The more a medical source presents relevant evidence to support an opinion, particularly medical signs and laboratory findings, the more weight we will give that opinion. The better an explanation a source provides for an opinion, the more weight we will give that opinion. Furthermore, because nonexamining sources have no examining or treating relationship with you, the weight we will give their opinions will depend on the degree to which they provide supporting explanations for their opinions.

Consistency. Generally, the more consistent an opinion is with the record as a whole, the more weight we will give to that opinion.

Specialization. We generally give more weight to the opinion of a specialist about medical issues related to his or her area of specialty than to the opinion of a source who is not a specialist.

The objective medical evidence has established that Claimant has an impairment, or combination thereof, that has more than a *de minimus* effect on Claimant's basic work activities. Further, the impairments have lasted continuously for twelve months; therefore, Claimant is not disqualified from receipt of Medical Assistance (MA) based on disability and the analysis continues.

STEP 3

At the third step, it is determined whether your impairments meet or equal the criteria of an impairment listed in a Social Security Administration impairment listing 20 CFR Part 404, Subpart P, Appendix 1. If your impairment meets or equals the criteria of a listing and meets the duration requirement, you are disabled.

Claimant's mental impairments were compared with the Social Security Administration impairment listing 12.04 Affective Disorders. That listing is:

The required level of severity for these disorders is met when the requirements in both A and B are satisfied, or when the requirements in C are satisfied.

A. Medically documented persistence, either continuous or intermittent, of one of the following:

1. Depressive syndrome characterized by at least four of the following:

a. Anhedonia or pervasive loss of interest in almost all activities; or

- b. Appetite disturbance with change in weight; or
 - c. Sleep disturbance; or
 - d. Psychomotor agitation or retardation; or
 - e. Decreased energy; or
 - f. Feelings of guilt or worthlessness; or
 - g. Difficulty concentrating or thinking; or
 - h. Thoughts of suicide; or
 - i. Hallucinations, delusions, or paranoid thinking; or
2. Manic syndrome characterized by at least three of the following:
- a. Hyperactivity; or
 - b. Pressure of speech; or
 - c. Flight of ideas; or
 - d. Inflated self-esteem; or
 - e. Decreased need for sleep; or
 - f. Easy distractability; or
 - g. Involvement in activities that have a high probability of painful consequences which are not recognized; or
 - h. Hallucinations, delusions or paranoid thinking;

or

3. Bipolar syndrome with a history of episodic periods manifested by the full symptomatic picture of both manic and depressive syndromes (and currently characterized by either or both syndromes);

AND

B. Resulting in at least two of the following:

- 1. Marked restriction of activities of daily living; or
- 2. Marked difficulties in maintaining social functioning; or

3. Marked difficulties in maintaining concentration, persistence, or pace; or
4. Repeated episodes of decompensation, each of extended duration;

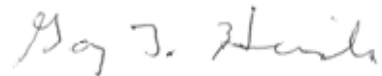

Dr. Cherukori's Psychiatric/Psychological Examination Report (DHS-49D) and Mental Residual Functional Capacity Assessment (DHS-49E) (Pages 525-529) show that Claimant meets or equals this listing.

Claimant is found disabled at this step with no need to continue the analysis.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department of Human Services DID NOT properly determine that Claimant is not disabled and deny Claimant's August 21, 2013 application for Medical Assistance (MA) based on disability and State Disability Assistance (SDA).

This Departmental action is **REVERSED**.

Gary F. Heisler
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: May 6, 2014

Date Mailed: May 6, 2014

NOTICE OF APPEAL: The claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;

201412713/GFH

- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
