

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HUMAN SERVICES**

IN THE MATTER OF:

Reg. No.: 2014-20710
Issue No(s): 2009; 4009
Case No.: [REDACTED]
Hearing Date: April 16, 2014
County: Lake

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

AMENDED HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on April 16, 2014, from Lansing, Michigan. Claimant, represented by her [REDACTED] case manager, appeared and testified. Participants on behalf of the Department of Human Services (Department) included Eligibility Specialist [REDACTED].

ISSUE

Did the Department properly deny Claimant's Medical Assistance (MA), Retro-MA and State Disability Assistance (SDA) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On September 24, 2013, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On November 1, 2013, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA indicating she was capable of performing other work. SDA was denied for lack of duration. (Depart Ex. A, pp 9-10).
3. On September 17, 2013, the Department sent Claimant notice that her application for MA/Retro-MA and SDA had been denied.
4. On December 30, 2013, Claimant filed a request for a hearing to contest the Department's negative action.

5. On March 13, 2014, the State Hearing Review Team (SHRT) found Claimant was not disabled and retained the capacity to perform unskilled work. (Depart Ex. B, pp 1-2).
6. Claimant had applied for Social Security disability benefits at the time of the hearing.
7. Claimant is a 24 year old woman whose birthday is [REDACTED].
8. Claimant is 5'3" tall and weighs 270 lbs.
9. Claimant does not have an alcohol, drug or nicotine problem.
10. Claimant has never had a driver's license and has a phobia of driving.
11. Claimant has a high school education.
12. Claimant is not currently working. Claimant has never worked.
13. Claimant alleges disability on the basis of obesity, low vitamin B12 levels, gastroesophageal reflux disease, migraines, hypertension, paranoid schizophrenia, posttraumatic stress disorder and borderline personality disorder.
14. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
15. Claimant's complaints and allegations concerning her impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

Statutory authority for the SDA program states in part:

- (b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.

2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);

- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Ruling any ambiguities in Claimant's favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). Claimant has no history of gainful employment. As such, there is no past work for Claimant to perform, nor are there past work skills to transfer to other work occupations. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

The medical information indicates that Claimant suffers from obesity, low vitamin B12 levels, gastroesophageal reflux disease, migraines, hypertension, paranoid schizophrenia, posttraumatic stress disorder and borderline personality disorder.

Claimant credibly testified that even on her current medications, she has moments where she hears voices and occasionally sees things. Claimant admits she does not see things as often as she did when she was off her medications. However, she still hears voices on and off during the day and sees things approximately four times a week.

Claimant was psychiatrically hospitalized a third time in March, 2013. She was admitted with an increase in paranoia and hallucinations. She stated she stated to become extremely fearful of “zombies attacking.” She also stated that she is not thinking right and that she hates herself. Her last hospitalization was in November, 2012, for much the same situation. She also reported vague dissociative processes such as staring at objects and the objects beginning to move. She had vague suicidal ideations and thoughts of stabbing herself. There is history of a head trauma from a car accident in the 1990s and she is subject to migraines. She showed mild generalized anxiety. Her mood was dysphoric but reactive. Judgment and insight were impaired. Diagnosis: Axis I: Mood disorder; Dissociate disorder; Axis II: Personality disorder; Axis III: Medical problems; Axis IV: Moderate to severe stressors; Axis V: GAF=35. She admitted for further evaluation and stabilization.

In September, 2013, during a medication review, Claimant stated she had taken an overdose of Ativan because she thought there was nothing for her to live for. In the hospital, her parents told her she had things to live for. Since her discharge she reported paranoid thoughts from time to time. Claimant reported persistent symptoms of visual and auditory hallucinations as well as feeling of self-harm despite her medical participation. Diagnosis: Axis I: Schizophrenia, paranoid type; Posttraumatic stress disorder; Axis II: Borderline Personality Disorder; Axis III: Acid reflux, high blood pressure; Axis IV: Occupational problems; Problems related to the social environment; other psychosocial and environmental problems; Axis V: GAF=54.

12.04 Affective disorders: Characterized by a disturbance of mood, accompanied by a full or partial manic or depressive syndrome. Mood refers to a prolonged emotion that colors the whole psychic life; it generally involves either depression or elation. The required level of severity for

these disorders is met when the requirements in both A and B are satisfied, or when the requirements in C are satisfied.

A. Medically documented persistence, either continuous or intermittent, of one of the following:

1. Depressive syndrome characterized by at least four of the following:

- a. Anhedonia or pervasive loss of interest in almost all activities; or
- b. Appetite disturbance with change in weight; or
- c. Sleep disturbance; or
- d. Psychomotor agitation or retardation; or
- e. Decreased energy; or
- f. Feelings of guilt or worthlessness; or
- g. Difficulty concentrating or thinking; or
- h. Thoughts of suicide; or
- i. Hallucinations, delusions, or paranoid thinking; or

2. Manic syndrome characterized by at least three of the following:

- a. Hyperactivity; or
- b. Pressure of speech; or
- c. Flight of ideas; or
- d. Inflated self-esteem; or
- e. Decreased need for sleep; or
- f. Easy distractibility; or
- g. Involvement in activities that have a high probability of painful consequences which are not recognized; or
- h. Hallucinations, delusions or paranoid thinking; or

3. Bipolar syndrome with a history of episodic periods manifested by the full symptomatic picture of both manic and

depressive syndromes (and currently characterized by either or both syndromes);

AND

B. Resulting in at least two of the following:

1. Marked restriction of activities of daily living; or
2. Marked difficulties in maintaining social functioning; or
- 3..Marked difficulties in maintaining concentration, persistence, or pace; or
4. Repeated episodes of decompensation, each of extended duration;

With regards to the Claimant's mental impairments, this Administrative Law Judge has carefully considered all the evidence of record in light of the requirements of sections 12.04 (affective disorders). Based on the medical records, Claimant has experienced three episodes of decompensation between November, 2012, and March, 2013. As a result, the severity of Claimant's mental impairments, considered singly and in combination, meet or medically equal the criteria of Listing 12.00.

Accordingly, this Administrative Law Judge concludes that Claimant is disabled for purposes of the MA/Retro-MA and SDA programs. Consequently, the Department's denial of her September 24, 2013, MA/Retro-MA and SDA application cannot be upheld.

A person is considered disabled for purposes of SDA if the person has a physical or mental impairment which meets federal SSI disability standards for at least 90 days. Receipt of SSI or RSDI benefits based upon disability or blindness or the receipt of MA benefits based upon disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in BEM 261. Inasmuch as Claimant has been found "disabled" for purposes of MA, she must also be found "disabled" for purposes of SDA benefits.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant's September 24, 2013, MA/Retro-MA and SDA application, and shall award her all the benefits

she may be entitled to receive, as long as she meets the remaining financial and non-financial eligibility factors.

2. The Department shall review Claimant's medical condition for improvement in May, 2015, unless her Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding her continued treatment, progress and prognosis at review.

It is SO ORDERED.

Vicki L. Armstrong
Administrative Law Judge
for Maura D. Corrigan, Director
Department of Human Services

Date Signed: May 13, 2014

Date Mailed: May 13, 2014

NOTICE OF APPEAL: The Claimant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely Request for Rehearing or Reconsideration was made, within 30 days of the receipt date of the Decision and Order of Reconsideration or Rehearing Decision.

Michigan Administrative Hearing System (MAHS) may order a rehearing or reconsideration on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. MAHS will not order a rehearing or reconsideration on the Department's motion where the final decision cannot be implemented within 90 days of the filing of the original request (60 days for FAP cases).

A Request for Rehearing or Reconsideration may be granted when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;

- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The Department, AHR or the claimant must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date the hearing decision is mailed.

The written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings
Reconsideration/Rehearing Request
P.O. Box 30639
Lansing, Michigan 48909-07322
