HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. ISSUE

Did the Department of Human Services (the Department) properly determine that Claimant was no longer disabled and deny his review application for Medical Assistance (MA-P) and State Disability Assistance (SDA) based upon medical improvement?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Claimant was a Medical Assistance benefit recipient and his Medical Assistance case was scheduled for review in June 2013.
2. On June 1, 2013, Claimant filed a review application for Medical Assistance and State Disability Assistance benefits alleging continued disability.
3. On December 12, 2013, the Medical Review Team denied Claimant's application stating that Claimant had medical improvement.

4. On December 17, 2013, the Department caseworker sent Claimant notice that his Medical Assistance case would be cancelled based upon medical improvement.
5. On December 30, 2013, Claimant filed a request for a hearing to contest the Department's negative action.
6. On March 21, 2014, the State Hearing Reveal Team again denied Claimant's application.
7. On April 17, 2014, the hearing was held. At the hearing Claimant waived the time and requested to submit additional medical information.
8. On April 17, 2014, the record was left open for 30 days or until May 17, 2014 to allow the submission of the additional medical information.
9. On May 17, 2014, no additional medical information was received by the Michigan Administrative Hearings System. This Administrative Law Judge proceeded to decision based upon the information contained in the record.

12. Claimant alleges as disabling impairments: seizures, Crohn's disease, bipolar disorder, depression, hepatitis C and esophagus surgery.

CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Claimants have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or Department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or Department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Program Administrative Manual (PAM), the Program Eligibility Manual (PEM) and the Program Reference Manual (PRM).

In general, Claimant has the responsibility to prove that he/she is disabled. Claimant's impairment must result from anatomical, physiological, or psychological abnormalities which can be shown by medically acceptable clinical and laboratory diagnostic techniques. A physical or mental impairment must be established by medical evidence consisting of signs, symptoms, and laboratory findings, not only Claimant's statement of symptoms. 20 CFR 416.908; 20 CFR 416.927. Proof must be in the form of medical evidence showing that the Claimant has an impairment and the nature and extent of its severity. 20 CFR 416.912. Information must be sufficient to enable a determination as to the nature and limiting effects of the impairment for the period in question, the probable duration of the impairment and the residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913.

Once an individual has been determined to be "disabled" for purposes of disability benefits, continued entitlement to benefits must be periodically reviewed. In evaluating whether an individual's disability continues, 20 CFR 416.994 requires the trier of fact to follow a sequential evaluation process by which current work activities, severity of impairment(s), and the possibility of medical improvement and its relationship to the individual's ability to work are assessed. Review may cease and benefits may be continued at any point if there is substantial evidence to find that the individual is unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

First, the trier of fact must determine if the individual is working and if work is substantial gainful activity. 20 CFR 416.994(b)(5)(i). In this case, the Claimant is not engaged in substantial gainful activity and has not worked since approximately [REDACTED]

Secondly, if the individual has an impairment or combination of impairments which meet or equal the severity of an impairment listed in Appendix 1 to Subpart P of Part 404 of Chapter 20, disability is found to continue. 20 CFR 416.994(b)(5)(ii).

The objective medical evidence in the record indicates since the approval of Medical Assistance and State Disability Assistance Claimant has had a final and binding Social Security Administration denial. The Social Security Administration Administrative Law Judge denied the [REDACTED], which was affirmed by an [REDACTED]. [REDACTED] BEM 270 directs that the SSA decision is binding on the MA claim. Therefore the standards of medical review claims do not apply. Given the current medical information in the file that Claimant has a severe but not disabling impairment. He should avoid working around dangerous heights and machinery.

At Step 2, Claimant's impairments do not equal or meet the severity of an impairment listed in Appendix 1.

In the third step of the sequential evaluation, the trier of fact must determine whether there has been medical improvement as defined in 20 CFR 416.994(b)(1)(i). 20 CFR 416.994 (b)(5)(iii). Medical improvement is defined as any decrease in the medical severity of the impairment(s) which was present at the time of the most recent favorable medical decision that the Claimant was disabled or continues to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs, and/or laboratory findings associated with Claimant's impairment(s). If there has been medical improvement as shown by a decrease in medical severity, the trier of fact must proceed to Step 4 (which examines whether the medical improvement is related to the Claimant's ability to do work). If there has been no decrease in medical severity and thus no medical improvement, the trier of fact moves to Step 5 in the sequential evaluation process.

In the instant case, this Administrative Law Judge finds that Claimant does have medical improvement and his medical improvement is related to the Claimant's ability to perform substantial gainful activity.

Thus, this Administrative Law Judge finds that Claimant has medical improvement. If there is a finding of medical improvement related to Claimant's ability to perform work, the trier of fact is to move to Step 6 in the sequential evaluation process.

In the sixth step of the sequential evaluation, the trier of fact is to determine whether the Claimant's current impairment(s) is severe per 20 CFR 416.921. 20 CFR 416.994(b)(5)(vi). If the residual functional capacity assessment reveals significant limitations upon a Claimant's ability to engage in basic work activities, the trier of fact moves to Step 7 in the sequential evaluation process. In this case, this Administrative Law Judge finds Claimant can perform at least sedentary work even with his impairments.

In the seventh step of the sequential evaluation, the trier of fact is to assess a Claimant's current ability to engage in substantial gainful activities in accordance with 20 CFR 416.960 through 416.969. 20 CFR 416.994(b)(5)(vii). The trier of fact is to assess the Claimant's current residual functional capacity based on all current impairments and consider whether the Claimant can still do work he/she has done in the past. In this case, this Administrative Law Judge finds that Claimant could probably not perform his past work.

In the final step, Step 8, of the sequential evaluation, the trier of fact is to consider whether the Claimant can do any other work, given the Claimant's residual function capacity and Claimant's age, education, and past work experience. 20 CFR 416.994(b)(5)(viii). In this case, based upon the Claimant's vocational profile of a [REDACTED] **history of skilled work**, MA-P is denied using Vocational Rule **204.00** as a guide. Claimant can perform other work in the form of light work per 20 CFR 416.967(b). This Administrative Law Judge finds that Claimant does have medical improvement in this case and the Department has established by the necessary, competent, material and substantial evidence on the record that it was acting in compliance with Department policy when it proposed to cancel Claimant's Medical Assistance and State Disability Assistance benefits based

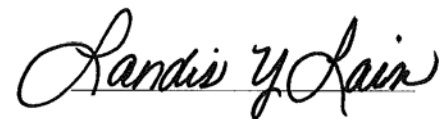

upon medical improvement. In addition, based upon the Social Security Administration determination of [REDACTED] affirmed by the appeals Council the SSA decision is binding on the MA claim. Therefore, Claimant's review application must be denied.

The Department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. PEM, Item 261, page 1. Because the Claimant does not meet the definition of disabled under the MA-P program and because the evidence of record does not establish that Claimant is unable to work for a period exceeding 90 days, the Claimant does not meet the disability criteria for State Disability Assistance benefits either.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the Department has appropriately established on the record that it was acting in compliance with Department policy when it denied Claimant's continued disability and application for Medical Assistance, retroactive Medical Assistance and State Disability Assistance benefits. The Claimant should be able to perform a wide range of light or sedentary work even with his impairments. The Department has established its case by a preponderance of the evidence. Claimant does have medical improvement based upon the objective medical findings in the file.

Accordingly, the Department's decision is **AFFIRMED**.
