CONCLUSIONS OF LAW

The Medical Assistance (MA) program is established by the Title XIX of the Social Security Act, 42 USC 1396-1396w-5, and is implemented by 42 CFR 400.200 to 1008.59. The Department of Human Services (formerly known as the Family Independence Agency) administers the MA program pursuant to MCL 400.10 and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. Department policies are found in BAM, BEM, and RFT. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

The Department conforms to State statute in administering the SDA program.

2000 PA 294, Sec. 604, of the statute states:

Sec. 604. (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempted from the supplemental security income citizenship requirement who are at least 18 years of age or emancipated minors meeting 1 or more of the following requirements:

- (a) A recipient of supplemental security income, social security, or medical assistance due to disability or 65 years of age or older.
- (b) A person with a physical or mental impairment which meets federal supplemental security income disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under MA-P. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Claimant testified to the following symptoms and abilities: talks to herself sometimes, not currently able to perform any chores, no physical problems, gets help with taking medications, some anxiety issues, crying spells, no suicidal thoughts, was hearing

voices but no longer due to taking medications, feels as though she lives inside her head and when she looks at a picture of people she believes they are looking at her.

Claimant's mother testified that Claimant smiles due to hearing voices, struggles with opening and closing doors, she is not sleeping, she is pacing the floor at night, she attempted suicide by taking an overdose in [REDACTED], she has called emergency services asking them to take her back to the hospital, she mumbles to herself and she is still hearing voices, she won't eat unless told to eat, she has to be told to shower, not safe to be left alone and she fixates on things.

Claimant's treating physician noted on a mental residual functional assessment that Claimant was markedly impaired in fourteen of the twenty areas considered. This physician noted that Claimant had a GAF of 45. Claimant needs reminders to perform hygiene and other activities of daily living and these activities take a longer time to complete according to this same physician. She has a flat affect and paucity of speech. This physician indicated all levels of mental functioning were impaired.

In this case, this Administrative Law Judge finds that Claimant may be considered presently disabled at the third step. Claimant appears to meet listing 12.03 or its equivalent. This Administrative Law Judge will not continue through the remaining steps of the assessment. Claimant's testimony and the medical documentation support the finding that Claimant meets the requirements of a listing.

Therefore, Claimant is found to be disabled.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of April 2013.

Accordingly, the Department's decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated July 9, 2013, if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for April 2015.

Further, a referral is to be made to Adult Protective Services for an evaluation of possible financial management problems. Specifically, before SDA benefits may be paid to Claimant, Adult Protective Services is to assess the appropriateness of a payee or conservatorship for Claimant because of the related alcohol addiction and psychological problems or other issues which may prevent adequate management or

discharge of financial or other personal affairs. See Adult Services Manual, Item 215.
