

Docket No. 2014-27902 SAS
Hearing Decision & Order

4. On [REDACTED], [REDACTED] ordered cessation of Appellant's methadone treatment due to noncompliance with program policy with an effective date of [REDACTED]. His methadone treatment was to be reduced per the doctor by [REDACTED] mg per day, due to his continued noncompliance with their policies. A Notice of Action was sent to the Appellant that included his rights to a Medicaid Fair hearing. (Exhibit A, pp. 1, 25).
5. Appellant filed a Request for Administrative Hearing with the Michigan Administrative Hearing System for the Department of Community Health on [REDACTED]. (Exhibit A, p. 26).

CONCLUSIONS OF LAW

The Medicaid program was established pursuant to Title XIX of the Social Security Act (SSA) and is implemented by 42 USC 1396 *et seq.*, and Title 42 of the Code of Federal Regulations (42 CFR 430 *et seq.*). The program is administered in accordance with state statute, the Social Welfare Act (MCL 400.1 *et seq.*), various portions of Michigan's Administrative Code (1979 AC, R 400.1101 *et seq.*), and the state Medicaid plan promulgated pursuant to Title XIX of the SSA.

Subsection 1915(b) of the SSA provides, in relevant part:

The Secretary, to the extent he finds it to be cost-effective and efficient and not inconsistent with the purposes of this title, may waive such requirements of section 1902 (other than subsection(s) 1902(a)(15), 1902(bb), and 1902(a)(10)(A) insofar as it requires provision of the care and services described in section 1905(a)(2)(C)) as may be necessary for a State –

- (1) to implement a primary care case-management system or a specialty physician services arrangement, which restricts the provider from (or through) whom an individual (eligible for medical assistance under this title) can obtain medical care services (other than in emergency circumstances), if such restriction does not substantially impair access to such services of adequate quality where medically necessary.

Under approval from the Center for Medicare and Medicaid Services (CMS), the Department (MDCH) presently operates a Section 1915(b) Medicaid waiver referred to as the managed specialty supports and services waiver. A prepaid inpatient health plan (PIHP) contracts (Contract) with MDCH to provide services under this waiver, as well as other covered services offered under the state Medicaid plan.

Pursuant to the Section 1915(b) waiver, Medicaid state plan services, including substance abuse rehabilitative services, may be provided by the PIHP to beneficiaries who meet applicable coverage or eligibility criteria. *Contract FY 2012, Part II, Section 2.1.1, pp 26-27.* Specific service and support definitions included under and associated with state plan responsibilities are set forth in the Mental Health/Substance Abuse Chapter of the Medicaid Provider Manual (MPM). *Contract FY 2012, Part II, Section 2.1.1, pp 26-27.*

Medicaid-covered substance abuse services and supports, including Division of Pharmacological Therapies (DPT)/Center for Substance Abuse Treatment (CSAT) – approved pharmacological supports may be provided to eligible beneficiaries. *Medicaid Provider Manual, Mental Health/Substance Abuse Chapter, §§ 12.1, January 1, 2014, p. 64.*

DPT/CSAT-approved pharmacological supports encompass covered services for methadone and supports and associated laboratory services. *Medicaid Provider Manual, Mental Health/Substance Abuse Chapter, §§ 12.2, January 1, 2014, pp. 67-69.* Opiate-dependent patients may be provided therapy using methadone or as an adjunct to other therapy.

Discontinuance/Termination of Treatment is governed by *Medicaid Provider Manual, Mental Health/Substance Abuse Chapter, §§ 12.2.2.F, January 1, 2014, pp. 70-71,* which provides:

12.2.F. DISCONTINUATION/TERMINATION CRITERIA

Discontinuation/termination from methadone treatment refers to the following situations:

- Beneficiaries must discontinue treatment with methadone when treatment is completed with respect to both the medical necessity for the medication and for counseling services.
- Beneficiaries may be terminated from services if there is clinical and/or behavioral noncompliance.
- If a beneficiary is terminated,:
 - The OTP must attempt to make a referral for another LOC assessment or for placing the beneficiary at another OTP.
 - The OTP must make an effort to ensure that the beneficiary follows through with the referral.
 - These efforts must be documented in the medical record.
 - The OTP must follow the procedures of the funding authority in coordinating these referrals.

- Any action to terminate treatment of a Medicaid beneficiary requires a "notice of action" be given to the beneficiary and the parent, legal guardian, or responsible adult (designated by the relevant state authority/CPS). The beneficiary and the parent, legal guardian, or responsible adult (designated by the relevant state authority/CPS) has a right to appeal this decision, and services must continue and dosage levels maintained while the appeal is in process.

Services are discontinued/terminated either by Completion of Treatment or through Administrative Discontinuation. Refer to the following subsections for additional information.

Administrative Discontinuance of Treatment is governed by *MPM, Mental Health/Substance Abuse Chapter, §§ 12.2.F.2, January 1, 2014, p 71-73*, which provides:

12.2.F.2. ADMINISTRATIVE DISCONTINUATION

Administrative discontinuation relates to non-compliance with treatment and recovery recommendations, and/or engaging in activities or behaviors that impact the safety of the OTP environment or other individuals who are receiving treatment. The OTP must work with the beneficiary and the parent, legal guardian, or responsible adult (designated by the relevant state authority/CPS) to explore and implement methods to facilitate compliance.

Non-compliance is defined as actions exhibited by the beneficiary which include, but are not limited to:

- The repeated or continued use of illicit opioids and non-opioid drugs (including alcohol).
- Toxicology results that do not indicate the presence of methadone metabolites. (The same actions are taken as if illicit drugs, including non-prescribed medication, were detected.)

In both of the aforementioned circumstances, OTPs must perform toxicology tests for methadone metabolites, opioids, cannabinoids, benzodiazepines, cocaine, amphetamines, and barbiturates (Administrative Rules for Substance Use Disorder Service Programs in Michigan, R 325.14406).

OTPs must test the beneficiary for alcohol if use is prohibited under their individualized treatment and recovery plan or the beneficiary appears to be using alcohol to a degree that would make dosing unsafe.

Docket No. 2014-27902 SAS
Hearing Decision & Order

- Repeated failure to submit to toxicology sampling as requested.
- Repeated failure to attend scheduled individual and/or group counseling sessions, or other clinical activities such as psychiatric or psychological appointments.
- Failure to manage medical concerns/conditions, including adherence to physician treatment and recovery services and use of prescription medications that may interfere with the effectiveness of methadone and may present a physical risk to the individual.
- Repeated failure to follow through on other treatment and recovery plan related referrals. (Repeated failure should be considered on an individual basis and only after the OTP has taken steps to assist beneficiaries to comply with activities.)

The commission of acts by the beneficiary that jeopardize the safety and well-being of staff and/or other individuals, or negatively impact the therapeutic environment, is not acceptable and can result in immediate discharge. Such acts include, but are not limited to, the following:

- Possession of a weapon on OTP property.
- Assaultive behavior against staff and/or other individuals.
- Threats (verbal or physical) against staff and/or other individuals.
- Diversion of controlled substances, including methadone.
- Diversion and/or adulteration of toxicology samples.
- Possession of a controlled substance with intent to use and/or sell on agency property or within a one-block radius of the clinic.
- Sexual harassment of staff and/or other individuals.
- Loitering on the clinic property or within a one-block radius of the clinic.

Administrative discontinuation of services can be carried out by two methods:

- **Immediate Termination** - This involves the discontinuation of services at the time of one of the above safety-related incidents or at the time an incident is brought to the attention of the OTP.
- **Enhanced Tapering Discontinuation** - This involves an accelerated decrease of the methadone dose (usually by 10 mg or 10 percent a day). The manner in which methadone is discontinued is at the discretion of the OTP physician to ensure the safety and well-being of the beneficiary.

It may be necessary for the OTP to refer beneficiaries who are being administratively discharged to the local access management system for evaluation for another level of care. Justification for non-compliance termination must be documented in the beneficiary's chart.

The *Medicaid Provider Manual* further specifies Medical Necessity Criteria:

2.5.A. Medical Necessity Criteria

Mental health, developmental disabilities, and substance abuse services are supports, services and treatment:

- Necessary for screening and assessing the presence of a mental illness, developmental disability or substance use disorder; and/or
- Required to identify and evaluate a mental illness, developmental disability or substance use disorder; and/or
- Intended to treat, ameliorate, diminish or stabilize the symptoms of mental illness, developmental disability or substance use disorder; and/or
- Expected to arrest or delay the progression of a mental illness, developmental disability, or substance use disorder; and/or
- Designed to assist the beneficiary to attain or maintain a sufficient level of functioning in order to achieve his goals of community inclusion and participation, independence, recovery, or productivity.

2.5.B. Determination Criteria

The determination of a medically necessary support, service or treatment must be:

- Based on information provided by the beneficiary, beneficiary's family, and/or other individuals (e.g., friends, personal assistants/aids) who know the beneficiary; and
- Based on clinical information from the beneficiary's primary care physician or health care professions with relevant qualifications who have evaluated the beneficiary; and
- For beneficiaries with mental illness or developmental disabilities, based on personal-centered planning, and for beneficiaries with substance use disorders, individuals treatment planning; and
- Made by appropriately trained mental health, developmental disabilities, or substance abuse professionals with sufficient clinical experience; and
- Made within federal and state standards for timeliness; and
- Sufficient in amount, scope and duration of the service(s) to reasonably achieve its/their purpose.

2.5.C. Supports, Services and Treatment Authorized by the PIHP

Supports, services, and treatment authorized by the PIHP must be:

- Delivered in accordance with federal and state standards for the timeliness in a location that is accessible to the beneficiary; and
- Responsive to particular needs of multi-cultural populations and furnished in a culturally relevant manner; and
- Responsive to the particular needs of beneficiaries with sensory or mobility impairments and provided with the necessary accommodations; and
- Provided in the least restrictive, most integrated setting. In patient, licensed residential or other segregated settings shall be used only when less restrictive levels of treatment, service or supports have been, for that beneficiary, unsuccessful or cannot be safely provided; and
- Delivered consistent with, where they exist, available research findings, health care practice guidelines, best practices and standards of practice issued by professionally recognized organizations or government agencies.

2.5.D. PIHP Decisions

Using criteria for medical necessity, a PIHP may:

- Deny services that are:
 - Deemed ineffective for a given condition based upon professionally and scientifically recognized and accepted standards of care;
 - Experimental or investigational in nature; or
 - For which there exists another appropriate, efficacious, less-restrictive and cost-effective service, setting or support that otherwise satisfies the standards for medically-necessary services; and/or
- Employ various methods to determine amount, scope and duration of services, including prior authorization for certain services, concurrent utilization reviews, centralized assessment and referral, fate-keeping arrangements, protocols and guidelines.

A PIHP may not deny services based **solely** on preset limits of the cost, amount, scope, and duration of services. Instead, determination of the need for services shall be conducted on an individualized basis.

██████████
Docket No. 2014-27902 SAS
Hearing Decision & Order

[Medicaid Provider Manual, Mental Health/Substance Abuse Section, April 1, 2013, pp. 12-14].

The evidence in this case demonstrates that administrative discontinuance of Appellant's methadone treatment was carried out because the Appellant engaged in the repeated and continued use of cocaine, THC, illicit opioids, and one drug screen showed the presence of benzodiazepines. He also missed numerous dosing sessions and counseling sessions following his relapse on or about ██████████

The Respondent's witnesses, ██████████ and ██████████ stated the Appellant had been receiving Medicaid covered services through CMH at the ██████████ since ██████████ that included methadone dosing and individual counseling services. Appellant demonstrated a period of about four months, from ██████████ through ██████████, when he was abstaining from illicit drug use as indicated by continued negative drug screens.

The Respondent's witnesses stated, however, that the Appellant relapsed on or about ██████████, and thereafter, he continued to test positive numerous times for illicit drugs including cocaine, THC, illicit opioids, and one drug screen showed the presence of benzodiazepines. Appellant also missed numerous dosing sessions, and counseling sessions due to identified stressors in his life. At one point his methadone dosing had to be reduced for the Appellant's safety due to his continued use of illicit substances.

The Respondent's witnesses stated that the Appellant's non-compliance with the policies and procedures required for continued participation in the methadone program resulted in their decision to go forward with an administrative discontinuance of the program with the doctor recommending a reduction/tapering of █ mg per day. An alternative treatment plan of intensive outpatient counseling is recommended and the CMH is prepared to provide such services through another source. The Respondent's witnesses stated medical necessity was no longer shown for the methadone treatment as it had been deemed ineffective for the Appellant's condition based upon professionally and scientifically recognized and accepted standards of care.

During her testimony, the Appellant's Mother testified the Appellant has been diagnosed with ADHD and is receiving no help for this condition. She indicated he is at a █ or █ grade level. She said when he signs things at the clinic he often does not know what he is signing. Appellant's mother also said it has been an awful winter and the Appellant had problems with getting rides to the clinic. She indicated the Appellant is not on any medications at this time. She believes he will regress to the point he was at prior to going on the methadone program if he is kicked out of the program. Appellant's mother said she does not think his counselor got through to him and if you do not connect with your counselor it won't help. She said her son tries at times; he needs help, and will likely do more drugs if he is not on the methadone.

Docket No. 2014-27902 SAS
Hearing Decision & Order

The evidence of record establishes that the Department's agent issued a proper notice of termination. The Respondent provided sufficient evidence that its decision to terminate Appellant from OMT, was proper and in accordance with Department policy. It is clear from the testimony of the Department's witnesses and the supporting documentation that the Appellant engaged in continued noncompliance with the behavioral standards for the [REDACTED] where he was receiving his methadone treatment. The Department's agent documented numerous violations of the policy contained in the Medicaid Provider Manual, and the policies of the [REDACTED].

The testimony of the witnesses showed the Appellant repeatedly tested positive for illicit substances and missed numerous dosing sessions and counseling sessions following his relapse in [REDACTED]. All of the foregoing are clear violations of the policy contained in the Medicaid Provider Manual, and they support the decision for administrative discontinuance of Appellant's methadone treatment.

Appellant has failed to prove by a preponderance of evidence that he complied with the requirements of his outpatient methadone treatment program. Accordingly, the [REDACTED] and the CMH acted properly to terminate the Appellant's outpatient methadone treatment.

DECISION AND ORDER

This Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that Respondent properly terminated Appellant's outpatient methadone treatment program.

IT IS THEREFORE ORDERED THAT:

Respondent's decision is **AFFIRMED**.

Docket No. 2014-27902 SAS
Hearing Decision & Order

***** NOTICE*****

The Michigan Administrative Hearing System may order a rehearing on either its own motion or at the request of a party within 30 days of the mailing date of this Decision & Order. The Michigan Administrative Hearing System will not order a rehearing on the Department's motion where the final decision or rehearing cannot be implemented within 90 days of the filing of the original request. The Appellant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt of the rehearing decision.
