DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, and upon Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. Appellant appeared and testified on his own behalf. ██████████ Medical Exception and Special Disenrollment Program Specialist, appeared and testified on behalf of the Michigan Department of Community Health ("MDCH" or "Department").

ISSUE

Did the Department properly deny Appellant's request for a medical exception from mandatory Managed Care Program enrollment?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Appellant has been a Medicaid eligible beneficiary since ██████████. (Testimony of ██████████)
2. Appellant was previously receiving fee-for-service Medicaid, but he is now in the mandatory population for enrollment in a Medicaid Health Plan. (Testimony of ██████████)
3. On ██████████, the Department enrolled Appellant into one of those health plans, ██████████. (Testimony of Appellant; Testimony of ██████████)
4. Prior to that enrollment, on or about ██████████, the Department received a managed care exception request from Appellant and a ██████████. (Respondent's Exhibit A, page 6).

5. In that request, [REDACTED] indicated that he had been treating Appellant for a variety of conditions since [REDACTED]; Appellant had visits every three months; and that the plan was to continue Appellant's medications and follow up in three months. (Respondent's Exhibit A, page 6).
6. [REDACTED] also left blank the section of the form asking him to identify the number of months to complete treatment. (Respondent's Exhibit A, page 6).
7. [REDACTED] checked "yes" in the section of the form asking him if he worked with any of the Medicaid Health Plans, but only identified "Straight Medicaid" when asked to list the plans. (Respondent's Exhibit A, page 6).
8. In reviewing that request, the Department found that [REDACTED] participates with [REDACTED] a Medicaid Health Plan. (Respondent's Exhibit A, pages 10-11).
9. Miller also contacted [REDACTED] and confirmed that he does participate in that Medicaid Health Plan. (Testimony of [REDACTED]).
10. On [REDACTED], the Department sent Appellant written notice that his request for a medical exception was denied. (Respondent's Exhibit A, pages 7-8).
11. Specifically, that denial notice stated in part:

Your request for Medical Exception from managed care enrollment has been denied for the reason(s) listed below:

Per telephone contact with [REDACTED] office, they do now work with [REDACTED] which is a health plan you can enroll in by calling Michigan Enrolls. In addition, [REDACTED] [sic] lists your visits as every three months which does not meet the active treatment of monthly or more frequent. Because your doctor works with a health plan available to you and your visits are now quarterly, you no longer meet the criteria for a medical exception.

Respondent's Exhibit A, page 7

Decision and Order

12. On [REDACTED], the Michigan Administrative Hearing System (MAHS) received the request for hearing filed by Appellant in this matter. (Respondent's Exhibit A, page 5).
13. Following the receipt of the request for hearing, [REDACTED], the Department's Chief Medical Director, reviewed and upheld the denial of the request for medical exception. (Respondent's Exhibit A, page 9).

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department was notified of the Health Care Financing Administration's approval of its request for a waiver of certain portions of the Social Security Act to restrict Medicaid beneficiaries' choice to obtain medical services only from specified Qualified Health Plans.

Michigan Public Act 154 of 2006 states, in relevant part:

Sec. 1650 (3) The criteria for medical exceptions to HMO enrollment shall be based on submitted documentation that indicates a recipient has a serious medical condition, and is undergoing active treatment for that condition with a physician who does not participate in 1 of the HMOs. If the person meets the criteria established by this subsection, the department shall grant an exception to managed care enrollment at least through the current prescribed course of treatment, subject to periodic review of continued eligibility.

Similarly, the Michigan Medicaid Provider Manual (MPM) states in the applicable part:

9.3 MEDICAL EXCEPTIONS TO MANDATORY ENROLLMENT

The intent of a medical exception is to preserve continuity of medical care for a beneficiary who is receiving active treatment for a serious medical condition from an attending physician (M.D. or D.O.) who would not be available to the beneficiary if the beneficiary was enrolled in a MHP. The medical exception may be granted on a time-limited basis

necessary to complete treatment for the serious condition. The medical exception process is available only to a beneficiary who is not yet enrolled in a MHP, or who has been enrolled for less than two months. MHP enrollment would be delayed until one of the following occurs:

- The attending physician completes the current ongoing plan of medical treatment for the patient's serious medical condition, or
- The condition stabilizes and becomes chronic in nature, or
- The physician becomes available to the beneficiary through enrollment in a MHP, whichever occurs first.

If the treating physician can provide service through a MHP that the beneficiary can be enrolled in, then there is no basis for a medical exception to managed care enrollment.

If a beneficiary is enrolled in a MHP, and develops a serious medical condition after enrollment, the medical exception does not apply. The beneficiary should establish relationships with providers within the plan network who can appropriately treat the serious medical condition.

9.3.A. DEFINITIONS

Serious Medical Condition	Grave, complex, or life threatening. Manifests symptoms needing timely intervention to prevent complications or permanent impairment. An acute exacerbation of a chronic condition may be considered serious for the purpose of medical exception.

<p>Chronic Medical Condition</p>	<p>Relatively stable.</p> <p>Requires long term management.</p> <p>Carries little immediate risk to health.</p> <p>Fluctuates over time, but responds to well-known standard medical treatment protocols.</p>
<p>Active Treatment</p>	<p>Active treatment is reviewed in regards to intensity of services when:</p> <ul style="list-style-type: none"> ▪ The beneficiary is seen regularly, (e.g., monthly or more frequently), and ▪ The condition requires timely and ongoing assessment because of the severity of symptoms and/or the treatment.
<p>Attending/Treating Physician</p>	<p>The physician (MD or DO) may be either a primary care doctor or a specialist whose scope of practice enables the interventions necessary to treat the serious condition.</p>

If the physician can treat the beneficiary and receive payment from the plan, then the beneficiary would be enrolled in that plan and no medical exception would be allowed.

9.3.B. PROCESS FOR REQUESTING A MEDICAL EXCEPTION

The Medicaid beneficiary must initiate the review process for medical exception by completing Section I of the Medical Exception Request (form MSA-1628). Beneficiaries can obtain forms, discuss managed care options, or ask questions regarding the medical exception process by contacting MI Enrolls. (Refer to the Directory Appendix for contact information.) If the beneficiary has been enrolled in a MHP for more than two months, the medical exception request does not apply.

9.3.C. PHYSICIAN RESPONSIBILITY

The physician who is actively treating the beneficiary for the serious medical condition must complete Section II of the MSA-1628. If multiple physicians are involved, each one must complete a separate form. The physician completing the form must be actively treating the beneficiary, and must not be participating with or have any arrangement with a MHP with which the beneficiary can be enrolled. The information provided by the physician must include:

- A detailed description of the serious medical condition that is being treated, including the

Docket No. 14-015334 MCE

diagnosis and current active signs and symptoms in adequate detail to justify the degree of seriousness. Diagnosis alone is not sufficient.

- The length of time that the beneficiary has been actively treated for this condition by the physician completing the form.
- The treatment plan in place, including any planned interventions and a list of all current and anticipated medications.
- The frequency of visits.
- The anticipated length of time (in months) that the beneficiary will need this treatment.

A Medical Exception Request cannot be processed without all of the above information. MDCH will verify that the treating physician is not available in any MHP in which the beneficiary can be enrolled. If an exception to managed care enrollment is granted, the MDCH will identify a period of time, up to one year, for which it is approved. At the end of that period, the beneficiary will be eligible for enrollment in a MHP.

MPM, October 1, 2014 version
Beneficiary Eligibility Chapter, pages 43-45

Here, Appellant submitted a request for medical exception prior to being enrolled in a Medicaid Health Plan. His request was subsequently denied and Appellant now challenges that decision on appeal. In doing so, Appellant bears the burden of proving by a preponderance of the evidence that the Department erred in denying his request.

Given the record in this case, Appellant has failed to meet that burden of proof and the Department's decision must be affirmed. As noted by the Department's representative, and conceded by Appellant, [REDACTED] is a participating physician and, as he only sees Appellant every three months, he is also not providing active treatment of a serious medical condition. Appellant must meet all of the conditions outlined in the law to be granted an exception. He failed to do so with the request for exception in this

case and, consequently, the Department's decision to deny that request must be affirmed.¹

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the Department properly denied Appellant's request for a medical exception from mandatory Managed Care Program enrollment.

IT IS THEREFORE ORDERED that:

The Department's decision is **AFFIRMED**.

***** NOTICE *****

The Michigan Administrative Hearing System may order a rehearing on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. The Michigan Administrative Hearing System will not order a rehearing on the Department's motion where the final decision or rehearing cannot be implemented within 90 days of the filing of the original request. The Appellant may appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt of the rehearing decision.

¹ Appellant also testified that he believes other doctors also submitted medical exception requests on his behalf, but Miller credibly testified that the Department has no records of any other requests and Appellant did not submit any evidence in support of his claims.
