## CONCLUSIONS OF LAW

Department policies are contained in the Department of Human Services Bridges Administrative Manual (BAM), Department of Human Services Bridges Eligibility Manual (BEM), Department of Human Services Reference Tables Manual (RFT), and Department of Human Services Emergency Relief Manual (ERM).

The Food Assistance Program (FAP) [formerly known as the Food Stamp program] is established by the Food Stamp Act of 1977, as amended, 7 USC 2011 to 2036a and is implemented by the federal regulations contained in 7 CFR 273. The Department (formerly known as the Family Independence Agency) administers FAP pursuant to MCL 400.10, the Social Welfare Act, MCL 400.1-.119b, and Mich Admin Code, R 400.3001 to .3015.

Additionally in this case, the Department reduced the Claimant's food assistance benefits effective December 1, 2014 to [REDACTED]. During the hearing, the budgets prepared by the Department to support the reduction were reviewed in detail. The Claimant's benefits decreased from [REDACTED] per month. Exhibit 8 and 4. At the hearing, the Claimant credibly testified that he does not pay heat utility expenses and that his rent at the time of the reduction was [REDACTED] per month. The Claimant did credibly testify that he did have a telephone expense due to a landline. The Claimant was given a [REDACTED] standard that was incorporated in his housing expenses when the Department prepared his food assistance budget for December 2014. The Department did not, however, include an electric expense paid by the Claimant which should have been included in his food assistance budget in the amount of [REDACTED]. The Department conceded at the hearing that the electricity expense should have been included.

A review of the unearned income used by the Department to calculate the benefits of [REDACTED] monthly was conceded as correct by the Claimant. Exhibit 3. It was also established that the Claimant received a quarterly supplement in the amount of [REDACTED] monthly from the state of Michigan. The Claimant's total unearned income totaled [REDACTED] per month based upon the evidence presented.

The Claimant's food assistance excess shelter deduction was also reviewed and included an expense for housing in the amount of [REDACTED] in rent and zero dollars for the heat and utility standard due to the fact that the Claimant did not pay heating expenses. Exhibit 5. Thereafter, the excess shelter expense used in the budget for November prior to the FAP benefits reduction was reviewed to verify the discrepancy in the reduction. A review of the excess shelter deduction indicated that for FAP benefits received prior to December 1, 2014, the Claimant was also entitled to a [REDACTED] heat in utility standard and [REDACTED] rent housing expense for a total shelter expense of [REDACTED]. Exhibit 8. In the FAP budget which caused the reduction, the Department did grant Claimant a telephone standard expense of [REDACTED] the Claimant also credibly testified that he did pay a telephone expense but did not include a [REDACTED] a non-heat electric expense, as the

Claimant has no heating/cooling expense but has responsibility to pay for nonheat electricity. Exhibit 5.

As reviewed at the hearing, in calculating a Claimant's excess shelter deduction, the Department considers the client's monthly shelter expenses and any applicable utility standard for any utilities the client is responsible to pay. BEM 556 pp.4. Thus, the utility standard that applies to a client's case is dependent on the client's circumstances, the mandatory heat and utility standard, which is currently \$553 and is the most advantageous to utility standard available to the Claimant (i) is available only for FAP groups that are responsible for heating expenses separate from rent; (ii) responsible for cooling including room air conditioners and can verify they have the responsibility for nonheat electric; and (iii) whose heat is included in rent and fees if the client is billed for excess heat by the landlord; (iv) who have received the home heating credit (HHC) in an amount greater than \$20 in the current month or the immediately preceding 12 months; (v) who have received a Low-Income Home Energy Assistance Act (LIHEAP) payment or a LIHEAP payment was made on his behalf in an amount greater than \$20 in the current month or in the immediately preceding 12 months prior to the application/recertification month; (vi) whose electricity is included in rent or fees **if** the landlord bills the client separately for cooling; or (vii) who have **any** responsibility for heating/cooling expense (based on shared meters o expenses). BEM 554 (October 2014), pp. 16-20; RFT 255 (October 2014), p. 14-24.

Effective May 1, 2014, the Department was required when processing applications, redeterminations or when a change was reported, to review and determine due to the changes making clients no longer automatically eligible for the heat and utility standard of \$553, whether clients were still eligible to receive a heat and utility standard. These changes in Department policy applied to all food assistance recipients equally. Thereafter, the Department began to gradually implement this change, which in this case resulted in the Claimant seeing a decrease in her FAP. Changes in the Department policy caused in some cases a reduction in food assistance benefits after the removal of the automatic heat and utility standards previously applied to their food assistance budgets, as is the case in this hearing.

Changes to BEM 554 effective October 1, 2014 removed the automatic mandatory heat in utility standard. For all FAP groups that received the h/u standard on or before February 7, 2014, the h/u standard will remain in place for a period of five months after the month of their first redetermination or first reported case change occurring on or after May 1, 2014. In order to continue receiving the h/u standard beyond the expiration of the five month period, the FAP group must meet the requirements of the MANDATORY HEAT AND UTILITY STANDARD section. BEM 554 p. 15

FAP groups not eligible for the mandatory h/u standard who have other utility expenses or contribute to the cost of other utility expenses are eligible for the individual utility standards that the FAP group has responsibility to pay. BEM 554, p. 19. These include the non-heat electric standard ( \$124 as of October 1, 2014) if the client has no heating/cooling expense but has a responsibility to pay for non-heat electricity; the water and/or sewer standard (currently \$77) if the client has no heating/cooling expense but has a responsibility to pay for water and/or sewer separate from rent/mortgage; the telephone standard (currently \$34) if the client has no heating/cooling expense but has a responsibility to pay for traditional land-line service, cell phone service, or voice-over-Internet protocol; the cooking fuel standard (currently \$47) if the client has no heating/cooling expense but has a responsibility to pay for cooking fuel separate from rent/mortgage; and the trash removal standard (currently \$21) if the client has no heating/cooling expense but has a responsibility to pay for trash removal separate from rent/mortgage. BEM 554, pp. 20-24; RFT 255, p. 1.

In this case, the testimony of the Claimant established that the non-heat electric standard in the amount of █████ is paid by him and should have been included in the Claimant's budget calculations for December 2014, and thus the FAP Benefit as calculated for December 2014 is incorrect.

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, and for the reasons stated on the record, if any, finds that the Department did not act in accordance with Department policy when it when it reduced the Claimant's food assistance benefits to █████ effective December 1, 2014 and did not include the non-heat electric standard.
