County: ST. JOSEPH

ADMINISTRATIVE LAW JUDGE: Susanne E. Harris

HEARING DECISION

Following the Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on January 27, 2015, from Lansing, Michigan. Participants on behalf of the Claimant included [REDACTED]. Participants on behalf of the Department of Human Services (Department) included Assistance Payments Supervisor, [REDACTED] and Eligibility Specialist, [REDACTED].

ISSUE

Whether the Department properly determined that the Claimant was not disabled for purpose of the State Disability Assistance (SDA) benefit program because he had medically improved?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- (1) The Claimant was an MA and SDA benefit recipient and his Medical Assistance case was scheduled for review in September, 2014.
- (2) On November 5, 2014, the Medical Review Team denied the Claimant's request for SDA indicating that the Claimant's impairment would not prevent employment for 90 days or more.
- (3) On November 12, 2014, the Medical Review Team determined that the Claimant was disabled for purposes of the Medical Assistance program, specifically stating that the Claimant's impairments can be expected to last for at least 12 consecutive months and prevents working in any substantial gainful employment.
- (4) On November 17, 2014, the Department sent the Claimant notice that his SDA case would be closed.

- (5) On December 1, 2014, the Claimant filed a request for a hearing to contest the Department's negative action.
- (6) The Claimant was receiving MA and SDA at the time of this review.
- (7) The Claimant alleges his disabling impairments are diabetes mellitus and low back pain.
- (8) The Claimant has physical limitations involving walking, standing, sitting and lifting.

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. The Department of Human Services (DHS or department) administers the SDA program pursuant to MCL 400.10, *et seq.*, and Mich Admin Code, Rules 400.3151-400.3180. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department of Human Services (DHS or department) administers the MA program pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

Pursuant to the federal regulations at 20 CFR 416.994, once a client is determined eligible for disability benefits, the eligibility for such benefits must be reviewed periodically. Before determining that a client is no longer eligible for disability benefits, the agency must establish that there has been a medical improvement of the client's impairment that is related to the client's ability to work. 20 CFR 416.994(b)(5).

To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the most expeditious and administratively efficient way, and that any decisions to stop disability benefits are made objectively, neutrally, and are fully documented, we will follow specific steps in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The first questions asks:

- (i) Are you engaging in substantial gainful activity? If you are (and any applicable trial work period has been completed), we will find disability to have ended (see paragraph (b)(3)(v) of this section).

The Claimant is not disqualified from this step because he has not engaged in substantial gainful activity at any time relevant to this matter. Furthermore, the evidence on the record fails to establish that the Claimant has a severe impairment which meets or equals a listed impairment found at 20 CFR 404, Subpart P, Appendix 1. Therefore, the analysis continues. 20 CF 416.994(b)(5)(ii).

The next step asks the question if there has been medical improvement.

Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you were disabled or continued to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s). 20 CFR 416.994(b)(1)(i).

If there is a decrease in medical severity as shown by the symptoms, signs and laboratory findings, we then must determine if it is related to your ability to do work. In paragraph (b)(1)(iv) of this section, we explain the relationship between medical severity and limitation on functional capacity to do basic work activities (or residual functional capacity) and how changes in medical severity can affect your residual functional capacity. In determining whether medical improvement that has occurred is related to your ability to do work, we will assess your residual functional capacity (in accordance with paragraph (b)(1)(iv) of this section) based on the current severity of the impairment(s) which was present at your last favorable medical decision. 20 CFR 416.994(b)(2)(ii).

The Medical Review Team found the Claimant's medical condition had improved as they stated his impairment was not expected to last more than 90 days. Yet, the Medical Review Team also determined that the Claimant's medical condition was expected to last in excess of 12 months. No one present at the hearing could explain this inconsistency to the Administrative Law Judge.

Pursuant to the federal regulations, at medical review, the Department has the burden of not only proving the Claimant's medical condition has improved, but that the improvement relates to the client's ability to do basic work activities. The Department has the burden of establishing that the Claimant is currently capable of doing basic work

activities based on objective medical evidence from qualified medical sources. 20 CFR 416.994(b)(5).

In this case, the Department has not met its burden of proof. The Department has provided no evidence that indicates the Claimant's condition has improved, or that the alleged improvement relates to his ability to do basic work activities. In fact, the Department has provided inconsistent statements as to the duration of the Claimant's disability. The Department provided no objective medical evidence from qualified medical sources that show the Claimant is currently capable of doing basic work activities. Accordingly, the Department's SDA eligibility determination cannot be upheld at this time.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that the Department erred in proposing to close Claimant's the SDA case based upon a finding of improvement at review.

Accordingly, the Department's action is REVERSED, and this case is returned to the local office for benefit continuation as long as all other eligibility criteria are met, with the Claimant's next mandatory medical review scheduled in September, 2015, (unless he is approved eligible for Social Security disability benefits by that time).

It is SO ORDERED.
