

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
FOR THE DEPARTMENT OF COMMUNITY HEALTH**

P. O. Box 30763, Lansing, MI 48909  
(517) 335-2484; Fax (517) 373-4147

IN THE MATTER OF:

Docket No. 15-000702 CMH

██████████

██████████

Appellant

\_\_\_\_\_ /

**DECISION AND ORDER**

This matter is before the undersigned Administrative Law Judge (ALJ) pursuant to MCL 400.9 upon the Appellant's request for a hearing.

After due notice, a hearing was held ██████████ Appellant appeared and testified on his own behalf.

██████████, Fair Hearing Officer for ██████████ the County Community Mental Health Authority for ██████ County, represented the Department of Community Health (CMH). ██████████, LLBSW, Appellant's Supports Coordinator with ██████████ appeared as a witness for the Department.

**ISSUE**

Did CMH properly terminate Appellant's Supports Coordination and Community Living Supports (CLS)?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Appellant was a ██████-year-old Medicaid beneficiary (DOB ██████████) at the time of the hearing. Appellant has been diagnosed with mild intellectual disabilities. (Exhibit G, p. 1, and testimony).
2. ██████████ the CMHSP for ██████ County (CMH) is responsible for providing Medicaid-covered mental health and developmental disability services to eligible recipients in its service area.
3. Appellant was receiving Medicaid covered services as an adult with a developmental disability, including Supports Coordination and Community Living Supports (CLS) through ██████████ one of ██████████ contract providers. (Exhibit A, pp. 2, 33-38 and testimony).

**Docket No. 15-000702 CMH**  
**Decision and Order**

4. On [REDACTED], Appellant's Supports Coordinator provided the Appellant with an Advance Action Notice stating that his Supports Coordination and CLS services would be terminated effective [REDACTED] due to his non-compliance with his services and his IPOS (Individual Plan of Services). (Exhibit C, Exhibit G and testimony).
5. On [REDACTED] MAHS received the Appellant's Request for Hearing. (Exhibit B).

**CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Title XIX of the Social Security Act, enacted in 1965, authorizes Federal grants to States for medical assistance to low-income persons who are age 65 or over, blind, disabled, or members of families with dependent children or qualified pregnant women or children. The program is jointly financed by the Federal and State governments and administered by States. Within broad Federal rules, each State decides eligible groups, types and range of services, payment levels for services, and administrative and operating procedures. Payments for services are made directly by the State to the individuals or entities that furnish the services. [42 CFR 430.0].

The State plan is a comprehensive written statement submitted by the agency describing the nature and scope of its Medicaid program and giving assurance that it will be administered in conformity with the specific requirements of title XIX, the regulations in this Chapter IV, and other applicable official issuances of the Department. The State plan contains all information necessary for CMS to determine whether the plan can be approved to serve as a basis for Federal financial participation (FFP) in the State program. [42 CFR 430.10].

Section 1915(b) of the Social Security Act provides:

The Secretary, to the extent he finds it to be cost-effective and efficient and not inconsistent with the purposes of this subchapter, may waive such requirements of section 1396a of this title (other than subsection (s) of this section) (other than sections 1396a(a)(15), 1396a(bb), and 1396a(a)(10)(A) of this title insofar as it requires provision of the care and services described in section 1396d(a)(2)(C) of this title) as may be necessary for a State...

**Docket No. 15-000702 CMH**  
**Decision and Order**

The State of Michigan has opted to simultaneously utilize the authorities of the 1915(b) and 1915(c) programs to provide a continuum of services to disabled and/or elderly populations. Under approval from the Centers for Medicare and Medicaid Services (CMS) the Department of Community Health (MDCH) operates a section 1915(b) Medicaid Managed Specialty Services waiver. ██████████ County Community Mental Health (CMH) contracts with the Michigan Department of Community Health to provide specialty mental health services. Services are provided by CMH pursuant to its contract obligations with the Department and in accordance with the federal waiver.

In performing the terms of its contract with the Department, the PIHP must apply Medicaid funds only to those services deemed medically necessary or appropriate. The Department's policy regarding medical necessity provides as follows:

**2.5 MEDICAL NECESSITY CRITERIA**

The following medical necessity criteria apply to Medicaid mental health, developmental disabilities, and substance abuse supports and services.

**2.5.A. MEDICAL NECESSITY CRITERIA**

Mental health, developmental disabilities, and substance abuse services are supports, services, and treatment:

- Necessary for screening and assessing the presence of a mental illness, developmental disability or substance use disorder; and/or
- Required to identify and evaluate a mental illness, developmental disability or substance use disorder; and/or
- Intended to treat, ameliorate, diminish or stabilize the symptoms of mental illness, developmental disability or substance use disorder; and/or
- Expected to arrest or delay the progression of a mental illness, developmental disability, or substance use disorder; and/or
- Designed to assist the beneficiary to attain or maintain a sufficient level of functioning in order to achieve his goals of community inclusion and participation, independence, recovery, or productivity.

**2.5.B. DETERMINATION CRITERIA**

The determination of a medically necessary support, service or treatment must be:

- Based on information provided by the beneficiary, beneficiary's family, and/or other individuals (e.g., friends, personal assistants/aides) who know the beneficiary; and

- Based on clinical information from the beneficiary's primary care physician or health care professionals with relevant qualifications who have evaluated the beneficiary; and
- For beneficiaries with mental illness or developmental disabilities, based on person-centered planning, and for beneficiaries with substance use disorders, individualized treatment planning; and
- Made by appropriately trained mental health, developmental disabilities, or substance abuse professionals with sufficient clinical experience; and
- Made within federal and state standards for timeliness; and
- Sufficient in amount, scope and duration of the service(s) to reasonably achieve its/their purpose.

### **2.5.C. SUPPORTS, SERVICES AND TREATMENT AUTHORIZED BY THE PIHP**

Supports, services, and treatment authorized by the PIHP must be:

- Delivered in accordance with federal and state standards for timeliness in a location that is accessible to the beneficiary; and
- Responsive to particular needs of multi-cultural populations and furnished in a culturally relevant manner; and
- Responsive to the particular needs of beneficiaries with sensory or mobility impairments and provided with the necessary accommodations; and
- Provided in the least restrictive, most integrated setting. Inpatient, licensed residential or other segregated settings shall be used only when less restrictive levels of treatment, service or support have been, for that beneficiary, unsuccessful or cannot be safely provided; and
- Delivered consistent with, where they exist, available research findings, health care practice guidelines, best practices and standards of practice issued by professionally recognized organizations or government agencies.

### **2.5.D. PIHP DECISIONS**

Using criteria for medical necessity, a PIHP may:

Deny Services:

- that are deemed ineffective for a given condition based upon professionally and scientifically recognized and accepted standards of care;

- that are experimental or investigational in nature; or
- that are for which there exists another appropriate, efficacious, less-restrictive and cost-effective service, setting or support that otherwise satisfies the standards for medically-necessary services; and/or
- Employ various methods to determine amount, scope and duration of services, including prior authorization for certain services, concurrent utilization reviews, centralized assessment and referral, gate-keeping arrangements, protocols, and guidelines.

A PIHP may not deny services based **solely** on preset limits of the cost, amount, scope, and duration of services. Instead, determination of the need for services shall be conducted on an individualized basis. [*Medicaid Provider Manual, Mental Health/Substance Abuse*, January 1, 2015, pp. 12-14].

The *Medicaid Provider Manual, Mental Health/Substance Abuse*, January 1, 2015 specifies what supports and services are available for persons such as the Appellant. It states in pertinent part:

#### **SECTION 17 – ADDITIONAL MENTAL HEALTH SERVICES (B3s)**

PIHPs must make certain Medicaid-funded mental health supports and services available, in addition to the Medicaid State Plan Specialty Supports and Services or Habilitation Waiver Services, through the authority of 1915(b)(3) of the Social Security Act (hereafter referred to as B3s). The intent of B3 supports and services is to fund medically necessary supports and services that promote community inclusion and participation, independence, and/or productivity when identified in the individual plan of service as one or more goals developed during person-centered planning. NOTE: Certain services found in this section are State Plan EPSDT services when delivered to children birth-21 years, which include community living supports, family support and training (Parent-to-Parent/Parent Support Partner) peer-delivered services, prevention/direct models of parent education and services for children of adults with mental illness, skill building, supports coordination, and supported employment.

#### **17.1 DEFINITIONS OF GOALS THAT MEET THE INTENTS AND PURPOSE OF B3 SUPPORTS AND SERVICES**

The goals (listed below) and their operational definitions will vary according to the individual's needs and desires. However, goals that are inconsistent with least restrictive environment (i.e., most integrated home,

work, community that meet the individual's needs and desires) and individual choice and control cannot be supported by B3 supports and services unless there is documentation that health and safety would otherwise be jeopardized; or that such least restrictive arrangements or choice and control opportunities have been demonstrated to be unsuccessful for that individual. Care should be taken to insure that these goals are those of the individual first, not those of a parent, guardian, provider, therapist, or case manager, no matter how well intentioned. The services in the plan, whether B3 supports and services alone, or in combination with state plan or Habilitation Supports Waiver services, must reasonably be expected to achieve the goals and intended outcomes identified. The configuration of supports and services should assist the individual to attain outcomes that are typical in his community; and without such services and supports, would be impossible to attain.

### **Community Inclusion and Participation**

The individual uses community services and participates in community activities in the same manner as the typical community citizen.

Examples are recreation (parks, movies, concerts, sporting events, arts classes, etc.), shopping, socialization (visiting friends, attending club meetings, dining out) and civic (volunteering, voting, attending governmental meetings, etc.) activities. A beneficiary's use of, and participation in, community activities are expected to be integrated with that of the typical citizen's (e.g., the beneficiary would attend an "integrated" yoga class at the community center rather than a special yoga class for persons with intellectual disability).

### **Independence**

"Freedom from another's influence, control and determination." (Webster's New World College Dictionary, 1996). Independence in the B3 context means how the individual defines the extent of such freedom for him/herself during person-centered planning.

For example, to some beneficiaries, "freedom" could be living on their own, controlling their own budget, choosing an apartment as well as the persons who will live there with them, or getting around the community on their own. To others, "freedom" could be control over what and when to eat, what and when to watch television, when and how to bathe, or when to go to bed and arise. For children under 18 years old, independence may mean the support given by parents and others to help children achieve the skills they need to be successful in school, enter adulthood and live independently.

## **Productivity**

Engaged in activities that result in or lead to maintenance of or increased self-sufficiency. Those activities are typically going to school and work. The operational definition of productivity for an individual may be influenced by age-appropriateness.

For example, a person who is 76 years old may choose to volunteer or participate in other community or senior center activities rather than have any productivity goals. For children under the age of five years, productivity may be successful participation in home, pre-school, or child care activities. Children under 18 would be expected to attend school, but may choose to work in addition. In order to use B3 supports and services, individuals would be expected to prepare for, or go to, school or work in the same places that the typical citizen uses.

## **17.2 CRITERIA FOR AUTHORIZING B3 SUPPORTS AND SERVICES**

The authorization and use of Medicaid funds for any of the B3 supports and services, as well as their amount, scope and duration, are dependent upon:

- The Medicaid beneficiary's eligibility for specialty services and supports as defined in this Chapter; and
- The service(s) having been identified during person-centered planning; and
- The service(s) being medically necessary as defined in the Medical Necessity Criteria subsection of this chapter; and
- The service(s) being expected to achieve one or more of the above-listed goals as identified in the beneficiary's plan of service; and
- Additional criteria indicated in certain B3 service definitions, as applicable.

Decisions regarding the authorization of a B3 service (including the amount, scope and duration) must take into account the PIHP's documented capacity to reasonably and equitably serve other Medicaid beneficiaries who also have needs for these services. The B3 supports and services are not intended to meet all the individual's needs and preferences, as some needs may be better met by community and other natural supports. Natural supports mean unpaid assistance provided to the beneficiary by people in his/her network (family, friends, neighbors, community volunteers) who are willing and able to provide such assistance. It is reasonable to expect that parents of minor children with disabilities will provide the same level of care they would provide to their

children without disabilities. MDCH encourages the use of natural supports to assist in meeting an individual's needs to the extent that the family or friends who provide the natural supports are willing and able to provide this assistance. PIHPs may not require a beneficiary's natural support network to provide such assistance as a condition for receiving specialty mental health supports and services. The use of natural supports must be documented in the beneficiary's individual plan of service.

Provider qualifications and service locations that are not otherwise identified in this section must meet the requirements identified in the General Information and Program Requirement sections of this chapter.

### **17.3 B3 SUPPORTS AND SERVICES**

The B3 supports and services defined below are the supports and services that PIHPs are to provide from their Medicaid capitation. [pp. 119-120].

\* \* \*

#### **17.3.B. COMMUNITY LIVING SUPPORTS**

NOTE: This service is a State Plan EPSDT service when delivered to children birth-21 years.

Community Living Supports are used to increase or maintain personal self-sufficiency, facilitating an individual's achievement of his goals of community inclusion and participation, independence or productivity. The supports may be provided in the participant's residence or in community settings (including, but not limited to, libraries, city pools, camps, etc.).

Coverage includes:

- Assisting, reminding, observing, guiding and/or training in the following activities:
  - meal preparation
  - laundry
  - routine, seasonal, and heavy household care and maintenance
  - activities of daily living (e.g., bathing, eating, dressing, personal hygiene)
  - shopping for food and other necessities of daily living

CLS services may not supplant state plan services, e.g., Personal Care (assistance with ADLs in a certified specialized residential

setting) and Home Help or Expanded Home Help (assistance in the individual's own, unlicensed home with meal preparation, laundry, routine household care and maintenance, activities of daily living and shopping). If such assistance appears to be needed, the beneficiary must request Home Help and, if necessary, Expanded Home Help from the Department of Human Services (DHS). CLS may be used for those activities while the beneficiary awaits determination by DHS of the amount, scope and duration of Home Help or Expanded Home Help. If the beneficiary requests it, the PIHP case manager or supports coordinator must assist him/her in requesting Home Help or in filling out and sending a request for Fair Hearing when the beneficiary believes that the DHS authorization of amount, scope and duration of Home Help does not appear to reflect the beneficiary's needs based on the findings of the DHS assessment.

- Staff assistance, support and/or training with activities such as:
  - money management
  - non-medical care (not requiring nurse or physician intervention)
  - socialization and relationship building
  - transportation from the beneficiary's residence to community activities, among community activities, and from the community activities back to the beneficiary's residence (transportation to and from medical appointments is excluded)
  - participation in regular community activities and recreation opportunities (e.g., attending classes, movies, concerts and events in a park; volunteering; voting)
  - attendance at medical appointments
  - acquiring or procuring goods, other than those listed under shopping, and non-medical services
- Reminding, observing and/or monitoring of medication administration
- Staff assistance with preserving the health and safety of the individual in order that he/she may reside or be supported in the most integrated, independent community setting.

CLS may be provided in a licensed specialized residential setting as a complement to, and in conjunction with, state plan coverage Personal Care in Specialized Residential Settings. Transportation to medical appointments is covered by Medicaid through DHS or the Medicaid Health Plan. Payment for CLS services may not be made, directly or indirectly, to

responsible relatives (i.e., spouses, or parents of minor children), or guardian of the beneficiary receiving community living supports.

CLS assistance with meal preparation, laundry, routine household care and maintenance, activities of daily living and/or shopping may be used to complement Home Help or Expanded Home Help services when the individual's needs for this assistance have been officially determined to exceed the DHS's allowable parameters. CLS may also be used for those activities while the beneficiary awaits the decision from a Fair Hearing of the appeal of a DHS decision. Reminding, observing, guiding, and/or training of these activities are CLS coverages that do not supplant Home Help or Expanded Home Help.

Community Living Supports (CLS) provides support to a beneficiary younger than 18, and the family in the care of their child, while facilitating the child's independence and integration into the community. This service provides skill development related to activities of daily living, such as bathing, eating, dressing, personal hygiene, household chores and safety skills; and skill development to achieve or maintain mobility, sensory-motor, communication, socialization and relationship-building skills, and participation in leisure and community activities. These supports must be provided directly to, or on behalf of, the child. These supports may serve to reinforce skills or lessons taught in school, therapy, or other settings. For children and adults up to age 26 who are enrolled in school, CLS services are not intended to supplant services provided in school or other settings or to be provided during the times when the child or adult would typically be in school but for the parent's choice to home-school. [pp. 122-123].

\* \* \*

### **17.3.K. SUPPORT AND SERVICE COORDINATION**

NOTE: This service is a State Plan EPSDT service when delivered to children birth-21 years.

Functions performed by a supports coordinator, supports coordinator assistant, services and supports broker, or otherwise designated representative of the PIHP that include assessing the need for support and service coordination, and assurance of the following:

- Planning and/or facilitating planning using person-centered principles
- Developing an individual plan of service using the person-centered planning process

██████████  
**Docket No. 15-000702 CMH**  
**Decision and Order**

- Linking to, coordinating with, follow-up of, advocacy with, and/or monitoring of Specialty Services and Supports and other community services/supports.
- Brokering of providers of services/supports
- Assistance with access to entitlements and/or legal representation
- Coordination with the Medicaid Health Plan, Medicaid fee-for-service, or other health care providers [p. 135].

In this case, CMH provided sufficient evidence to show that they properly terminated the Appellant's Supports Coordination and CLS services. ██████████ the Appellant's Supports coordinator stated that the Appellant was a Medicaid beneficiary enrolled for services with ██████████. She stated he was receiving Supports Coordination and CLS services through her employer ██████████. ██████████ stated as supports coordinator she monitored the Appellant's CLS services. She stated the Appellant was receiving CLS services for prompting, guiding, and assistance with grocery shopping, managing his budget, and engaging in the community.

██████████ said she met monthly with the Appellant and also spoke to his CLS workers to determine how his services were going and reviewed their service notes. (See Exhibits D & E). She found that the Appellant had established a pattern of a lack of engagement with the goals set forth in his IPOS and the Appellant was consistently cancelling his appointments with his CLS workers. The CLS workers also reported concerns that the Appellant was constantly on his phone or texting people during their scheduled appointments with the Appellant.

██████████ stated the Appellant would decide to do his shopping on his own and often would disregard the CLS worker's efforts to assist him with making healthy food choices, or to compare prices so he could stay within his budget for food shopping. He would arrange for CLS staff to assist him with his grocery shopping, but would then buy items such as a head set for his X-box instead of purchasing grocery items. ██████████ stated the Appellant's CLS worker ██████████ stopped working for him due to his repeated cancellations and his lack of advance notice before cancelling scheduled appointments.

██████████ stated that eventually she gave the Appellant a notice to terminate his Supports Coordination and CLS services. She stated he was given the notice on ██████████ to terminate his services effective ██████████ (See Exhibit B). ██████████ stated she gave him the termination notice due to the Appellant's pattern of cancelling his CLS scheduled appointments and due to his lack of engagement with his goals for CLS services set forth in his IPOS. She stated the Appellant's needs were being met through his natural supports and services available in the community and there was no longer any medical necessity for CLS services of Supports Coordination.

The Appellant testified that from what he heard from ██████████ testimony, her decision to terminate services was fair. However, he stated that he wanted to keep

██████████  
**Docket No. 15-000702 CMH**  
**Decision and Order**

receiving the services. Appellant said he would try to work on the goals in his IPOS. He also said he would not violate any of the requirements for receiving the services.

The Appellant bears the burden of proving by a preponderance of the evidence that the Supports Coordination and the CLS services that were terminated are medically necessary. The Appellant was given the opportunity to prove why the terminated services are medically necessary. The testimony of the Appellant did not establish medical necessity for a continuation of his Supports Coordination and CLS services.

The CMH must authorize CLS services in accordance with the CFR and state policy. The CMH provided sufficient evidence that it adhered to the CFR and state policy when it terminated the Appellant's Supports Coordination and CLS. Based upon the totality of the evidence, including the professional opinion of ██████████ the Appellant's Supports Coordinator, the Appellant had demonstrated through his own actions that the services were no longer medically necessary and that his needs could be met through natural supports and other services available in the community. It is also noted that the Appellant's CLS and Supports Coordination services were being authorized as B3 services. The policy quoted above from the Medicaid Provider Manual provides that such B3 supports and services are not intended to meet all of an individual's needs and preferences, as some needs may be better met by community and other natural supports.

The Appellant has failed to prove by a preponderance of the evidence that Supports Coordination and CLS services are medically necessary. The preponderance of the evidence demonstrates that CMH acted properly when it determined that the Appellant's CLS and Supports Coordination services were no longer medically necessary.

**DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that CMH properly terminated Appellant's Supports Coordination and Community Living Support services (CLS).

**IT IS THEREFORE ORDERED** that:

The CMH's decision is AFFIRMED.

William D. Bond  
Administrative Law Judge  
for Nick Lyon, Director  
Michigan Department of Community Health
