ISSUE

Whether the Department properly determined that the Claimant was not disabled for purposes of the State Disability Assistance (SDA) benefit program?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. On January 2, 2015, the Claimant applied for SDA.
2. On February 27, 2015, the Medical Review Team denied the Claimant's request.
3. On March 18, 2015, the Claimant submitted to the Department a request for hearing.
4. The Claimant is 30 years old.
6. The Claimant completed education through high school.
7. The Claimant has employment experience (last worked 2010) as a HIV community educator and outreach worker. The Claimant credibly testified that

she was fired from this job, twice. The first time for failure to follow orders and the second time for her conduct on the job

8. The Claimant suffers from depression, anxiety, bipolar disorder, hypertension, morbid obesity and intermittent explosive disorder.
9. The Claimant's limitations have lasted for 12 months or more.
10. The Claimant has significant limitations on understanding, carrying out, and remembering simple instructions; use of judgment; responding appropriately to supervision, co-workers and usual work situations; and dealing with changes in a routine work setting.

CONCLUSIONS OF LAW

MA is established by Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). The Department administers MA-P pursuant to MCL 400.10, *et seq.*, and MCL 400.105. Department policies are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Bridges Reference Manual (RFT).

Pursuant to Federal Rule 42 CFR 435.540, the Department uses the Federal Supplemental Security Income (SSI) policy in determining eligibility for disability under MA. Under SSI, disability is defined as:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

A set order is used to determine disability. Current work activity, severity of impairments, residual functional capacity, past work, age, or education and work experience are reviewed. If there is a finding that an individual is disabled or not disabled at any point in the review, there will be no further evaluation. 20 CFR 416.920.

Medical evidence may contain medical opinions. Medical opinions are statements from physicians and psychologists or other acceptable medical sources that reflect judgments about the nature and severity of the impairment(s), including symptoms, diagnosis and prognosis, what an individual can do despite impairment(s), and the physical or mental restrictions. 20 CFR 416.927(a)(2).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

The Claimant testified to the following symptoms and abilities: fears sleeping, fears being around people, anxiety and panic attacks, suicidal ideation and several suicide attempts, mood swings, racing thoughts, sleep disruption, feelings of helplessness and hopelessness and psychomotor agitation. The Claimant's daily activities of living are dramatically impacted by her psychological condition. Her psychiatric records demonstrate an ongoing struggle with daily functioning. Her most recent GAF score is 31, and one year prior to that it was 20. A GAF score of 20 indicates some danger of hurting self or others. The Claimant's treating psychologist indicates that the Claimant is markedly limited in 13 of the 20 categories listed on the Mental Residual Functional Capacity Assessment form. Specifically, the Claimant is markedly limited in the ability to complete a normal workday and workweek without interruptions from psychologically-based symptoms and to perform at a consistent pace without an unreasonable number and length of rest periods.

In this case, this Administrative Law Judge finds that the Claimant may be considered presently disabled at the third step. The Claimant appears to meet listing 12.04 or its equivalent. This Administrative Law Judge will not continue through the remaining steps of the assessment. The Claimant's testimony and the medical documentation support the finding that Claimant meets the requirements of a listing.

Therefore, the Claimant is found to be disabled.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides that Claimant is medically disabled as of January, 2015.

Accordingly, the Department's decision is hereby REVERSED and the Department is ORDERED to initiate a review of the application dated January 2, 2015, if not done previously, to determine Claimant's non-medical eligibility. The Department shall inform Claimant of the determination in writing. A review of this case shall be set for May 2016.
