MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HEALTH AND HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 15-005953
Issue No.: 4009
Case No.: [REDACTED]
Hearing Date: May 20, 2015
County: Wayne (17)

ADMINISTRATIVE LAW JUDGE: Christian Gardocki

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 7 CFR 273.15 to 273.18; 42 CFR 431.200 to 431.250; 45 CFR 99.1 to 99.33; and 45 CFR 205.10. After due notice, a telephone hearing was held on May 20, 2015, from Detroit, Michigan. Participants included the above-named Claimant. Participants on behalf of the Department of Health and Human Services (DHHS) included [REDACTED] specialist.

ISSUE

The issue is whether DHHS properly denied Claimant's State Disability Assistance (SDA) eligibility for the reason that Claimant is not a disabled individual.

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On [REDACTED], Claimant applied for SDA benefits.
2. Claimant's only basis for SDA benefits was as a disabled individual.
3. On [REDACTED], the Medical Review Team (MRT) determined that Claimant was not a disabled individual (see Exhibits 9-10).
4. On [REDACTED], DHHS denied Claimant's application for SDA benefits and mailed a Notice of Case Action (Exhibits 11-12) informing Claimant of the denial.

5. On [REDACTED], Claimant requested a hearing disputing the denial of SDA benefits.
6. As of the date of the administrative hearing, Claimant was a 45 year old male.
7. Claimant has not earned substantial gainful activity since before the first month of benefits sought.
8. Claimant alleged disability based on alleged restrictions related to back pain.

CONCLUSIONS OF LAW

The State Disability Assistance (SDA) program which provides financial assistance for disabled persons is established by 2004 PA 344. DHHS administers the SDA program pursuant to MCL 400.10, *et seq.*, and MAC R 400.3151-400.3180. DHHS policies for SDA are found in the Bridges Administrative Manual (BAM), the Bridges Eligibility Manual (BEM) and the Reference Tables Manual (RFT).

SDA provides financial assistance to disabled adults who are not eligible for Family Independence Program (FIP) benefits. BEM 100 (January 2013), p. 4. The goal of the SDA program is to provide financial assistance to meet a disabled person's basic personal and shelter needs. *Id.* To receive SDA, a person must be disabled, caring for a disabled person, or age 65 or older. BEM 261 (January 2012), p. 1. A person is disabled for SDA purposes if he/she:

- receives other specified disability-related benefits or services, see Other Benefits or Services below, or
- resides in a qualified Special Living Arrangement facility, or
- is certified as unable to work due to mental or physical disability for at least 90 days from the onset of the disability; or
- is diagnosed as having Acquired Immunodeficiency Syndrome (AIDS).
Id.

There was no evidence that any of the above circumstances apply to Claimant. Accordingly, Claimant may not be considered for SDA eligibility without undergoing a medical review process (see BAM 815) which determines whether Claimant is a disabled individual. *Id.*, p. 3.

Generally, state agencies such as DHHS must use the same definition of SSI disability as found in the federal regulations. 42 CFR 435.540(a). Disability is federally defined as the inability to do any substantial gainful activity (SGA) by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905. As noted above, SDA eligibility is based on a 90 day period of disability.

SGA means a person does the following: performs significant duties, does them for a reasonable length of time, and does a job normally done for pay or profit. *Id.*, p. 9. Significant duties are duties used to do a job or run a business. *Id.* They must also have a degree of economic value. *Id.* The ability to run a household or take care of oneself does not, on its own, constitute SGA. *Id.*

The person claiming a physical or mental disability has the burden to establish a disability through the use of competent medical evidence from qualified medical sources such as his or her medical history, clinical/laboratory findings, diagnosis/prescribed treatment, prognosis for recovery and/or medical assessment of ability to do work-related activities or ability to reason and make appropriate mental adjustments, if a mental disability is alleged. 20 CFR 413.913. An individual's subjective pain complaints are not, in and of themselves, sufficient to establish disability. 20 CFR 416.908; 20 CFR 416.929(a).

Federal regulations describe a sequential five step process that is to be followed in determining whether a person is disabled. 20 CFR 416.920. If there is no finding of disability or lack of disability at each step, the process moves to the next step. 20 CFR 416.920 (a)(4).

The first step in the process considers a person's current work activity. 20 CFR 416.920 (a)(4)(i). A person who is earning more than a certain monthly amount is ordinarily considered to be engaging in SGA. The monthly amount depends on whether a person is statutorily blind or not. "Current" work activity is interpreted to include all time since the date of application. The 2015 monthly income limit considered SGA for non-blind individuals is \$1,090.

Claimant testified that he performs odd jobs. Examples of jobs that he performs included cleaning windows and drywall-related employment. Claimant's specific income was not discussed but Claimant's testimony implied that his jobs were few and far in-between. Based on the presented evidence, it is found that Claimant is not performing SGA and has not performed SGA since the date of application. Accordingly, the disability analysis may proceed to step two.

The second step in the disability evaluation is to determine whether a severe medically determinable physical or mental impairment exists to meet the 12 month duration requirement. 20 CFR 416.920 (a)(4)(ii). The impairments may be combined to meet the severity requirement. If a severe impairment is not found, then a person is deemed not disabled. *Id.* The 12 month durational period is applicable to MA benefits; as noted above, SDA eligibility requires only a 90 day duration of disability.

The impairments must significantly limit a person's basic work activities. 20 CFR 416.920 (a)(5)(c). "Basic work activities" refers to the abilities and aptitudes necessary to do most jobs. *Id.* Examples of basic work activities include:

- physical functions (e.g. walking, standing, sitting, lifting, pushing, pulling, reaching, carrying, or handling)
- capacities for seeing, hearing, and speaking, understanding; carrying out, and remembering simple instructions
- use of judgment
- responding appropriately to supervision, co-workers and usual work situations; and/or
- dealing with changes in a routine work setting.

Generally, federal courts have imposed a de minimus standard upon claimants to establish the existence of a severe impairment. *Grogan v. Barnhart*, 399 F.3d 1257, 1263 (10th Cir. 2005); *Hinkle v. Apfel*, 132 F.3d 1349, 1352 (10th Cir. 1997). *Higgs v Bowen*, 880 F.2d 860, 862 (6th Cir. 1988). Similarly, Social Security Ruling 85-28 has been interpreted so that a claim may be denied at step two for lack of a severe impairment only when the medical evidence establishes a slight abnormality or combination of slight abnormalities that would have no more than a minimal effect on an individual's ability to work even if the individual's age, education, or work experience were specifically considered. *Barrientos v. Secretary of Health and Human Servs.*, 820 F.2d 1, 2 (1st Cir. 1987). Social Security Ruling 85-28 has been clarified so that the step two severity requirement is intended "to do no more than screen out groundless claims." *McDonald v. Secretary of Health and Human Servs.*, 795 F.2d 1118, 1124 (1st Cir. 1986).

SSA specifically notes that age, education, and work experience are not considered at the second step of the disability analysis. 20 CFR 416.920 (5)(c). In determining whether Claimant's impairments amount to a severe impairment, all other relevant evidence may be considered. The analysis will begin with a summary of presented medical documentation and Claimant's testimony.

Claimant testified that he injured his back in 1993. Claimant testified that his back was injured after his vehicle was struck by a police car in hot pursuit. Claimant also testified that he may have exacerbated his back injury while lifting weights in prison. Claimant reported to a physician that he exacerbated his back pain while lifting a refrigerator (see Exhibit 13).

An internal medicine examination report (Exhibits 13-20) dated [REDACTED] was presented. The report was noted as completed by a consultative physician. It was noted that Claimant reported lower back pain. It was noted that Claimant had an excellent physical examination. It was noted that Claimant had an excellent gait. It was noted that Claimant can fully squat and recover without difficulty. It was noted that Claimant had a full range of motion. It was noted that Claimant had no subluxations, no joint deformities, and no instability.

A neurology examination report (Exhibits 21-28) dated [REDACTED] was presented. The report was noted as completed by a consultative neurologist. It was noted that Claimant injured his back two weeks ago while lifting a washing machine. Claimant

reported that the pain subsided after he took Motrin, but the pain returned. Claimant reported no radiation of back pain. It was noted that Claimant's limbs were strong and his motor power was 5/5. It was noted that Claimant had slow but normal forward lumbar flexion. A light lifting restriction was noted.

Claimant initially testified that he can walk without limitation and ride a bicycle. Claimant then testified that he develops foot numbness after 20 minutes of walking. Claimant also testified that he is restricted to 20 minutes of standing. Claimant testified that bending and squatting were painful. Claimant testified that he has no problems with sitting. Claimant testified that he takes Ibuprofen for his back pain. Claimant states he does not use a cane or walker.

Presented evidence verified a light lifting restriction following a back injury. The duration of the restriction was not verified. This is problematic for Claimant because the injury appeared to occur very shortly before his examination.

Claimant testified that he has a physician but treatment documents were not presented. Radiology was not presented. A light lifting restriction following a back injury, by itself, is insufficient evidence of a restriction that is expected to last longer than 90 days.

Based on presented evidence, Claimant failed to meet the SDA durational requirements of a severe impairment. Accordingly, Claimant is not disabled and it is found that DHHS properly denied Claimant's SDA application.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, finds that DHHS properly denied Claimant's SDA benefit application dated [REDACTED] based on a determination that Claimant is not disabled. The actions taken by DHHS are **AFFIRMED**.
