

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
FOR THE DEPARTMENT OF HEALTH AND HUMAN SERVICES**

P.O. Box 30763, Lansing, MI 48909  
(877) 833-0870; Fax: (517) 373-4147

IN THE MATTER OF:

██████████,

Appellant.

Docket No. 15-006281 HHS  
Case No. ██████████

**DECISION AND ORDER**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon Appellant's request for a hearing.

After due notice, a telephone was held on ██████████. Appellant appeared and testified. Appellant's provider, ██████████, also appeared and testified. ██████████, Appeals Review Officer, represented the Department of Health and Human Services (Department). ██████████, Department of Health and Human Services, Adult Services Supervisor, appeared as a witness for the Department.

State's Exhibit A, pages 1-38 and Appellant's Exhibit 1 were admitted on the record as evidence.

**ISSUE**

Did the Department properly terminate Appellant's Home Help Services (HHS)?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Appellant is a Medicaid beneficiary, born ██████████, who is diagnosed with non-ischemic cardiomyopathy, hypertension, and osteoarthritis. State's Exhibit A page 13
2. On ██████████, the Department received a Medical Needs Form which indicated that Appellant has no certified medical need for assistance with any personal care activities. State's Exhibit A page 17
3. On ██████████, the Adult Service Worker (ASW) conducted an in-home interview with Appellant and his provider. The ASW indicated in her notes that she observed Appellant. He came to the door and let the ASW in to the home. He was dressed in a bathrobe. He was able to walk without the need of adaptive aids or human assistance. He gathered his medications. He denied any hospitalizations in the last 12 months. He goes to the doctor every three months. He has no physical limitations.

Appellant stated during the in-home assessment that he cannot stand for two long. He gets dizzy/sweating and feels faint. He gets hot flashes and can't keep his balance. He has heart palpitations. He indicated that he needs assistance with medications, meal preparation, housekeeping, shopping and laundry. States' Exhibit A page 15

4. On ██████████, the Department sent Appellant an Advance Negative Action Notice informing him that HHS would be denied because the home assessment did not identify a need for hands on services of at least an Activity of Daily Living (ADL) rank of "3" or higher, making Appellant ineligible for HHS and Medical Needs Form that was completed by the doctor, it has been determined that hands on care is not necessary. State's Exhibit A page 4
5. On ██████████, Appellant's Request for Hearing was received by the Michigan Administrative Hearing System.

### **CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 101, 12-1-13, addresses HHS payments:

#### **Payment Services Home Help**

Home help services are non-specialized personal care service activities provided under the independent living services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

*Adult Services Manual (ASM) 101,  
12-1-2013, Page 1of 4.*

Adult Services Manual (ASM) 105, 12-1-13, addresses HHS eligibility requirements:

### **Requirements**

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

\*\*\*

### **Necessity For Service**

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

**Note:** If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

**Example:** Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

Adult Services Manual (ASM 120, 12-1-2013), pages 1-4 of 5 addresses the adult services comprehensive assessment:

## **INTRODUCTION**

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information will be entered on the computer program.

## **Requirements**

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
  - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
  - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.

- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

\*\*\*

## **Functional Assessment**

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

### Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

### Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and cleanup.
- Shopping.
- Laundry.
- Light Housework.

### Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.  
Performs the activity safely with no human assistance.
2. Verbal Assistance.  
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.  
Performs the activity with some direct physical assistance and/or assistive technology.

4. Much Human Assistance.  
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.  
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

**An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.**

**Note:** If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

**Example:** Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADLs if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

\*\*\*

### **Time and Task**

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

**Example:** A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the

food and not the full amount of time allotted under the RTS for eating.

#### IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

#### Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

**Note:** This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

**Example:** Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

*Adult Services Manual (ASM) 120, 12-1-2013,  
Pages 1-5 of 5*

In the instant case, Appellant has submitted a Medical Needs Form, dated ██████████, which indicates that he has no medical need for assistance with any personal care activity. (State's Exhibit A page 17) The Medical Needs Form does not list a medical diagnosis which would require HHS. In addition, the ASW conducted the in-home interview and determined that Appellant is able to physically perform Activities of Daily Living without assistance.

██████████  
**Docket No. 15-006281 HHS**  
**Decision and Order**

Appellant testified that he does need help getting to the bathroom and into the tub when he is feeling weak. His provider bathes him and helps him dress. His provider shaves him. The provider takes Appellant to the store and helps with cooking, cleaning and shopping. He helps Appellant with taking his medications. Appellant stated that he wears a life vest and is often fatigued. Appellant stated that the doctor filled out the form incorrectly.

Appellant also stated that the ASW was unprofessional and biased against him. The provider testified that the ASW intimated that Appellant and the provider were sleeping together.

Appellant submitted a new 54A - Medical Needs Form, dated ██████████, which indicates that he needs assistance with eating, grooming, taking medications, meal preparation, laundry and housework. (Appellant's Exhibit 1 page 1) Appellant also provided a prescription script dated ██████████, which indicates "On first form completed (pt) needed help with cooking, cleaning and housework which was not marked. (Appellant's Exhibit 1 page 2)

Based on the evidence presented, Appellant has failed to prove, by a preponderance of evidence, that the termination of HHS was inappropriate at the time of the assessment. The ASW observed Appellant walking, standing, sitting, and getting up and down without any assistance or the use of any adaptive equipment. The evidence was not sufficient to establish that Appellant had a need for hands on assistance, functional ranking 3 or greater, with at least one ADL, based on the information available to the ASW when she terminated Appellant from the HHS program. The Medical Needs Form indicated that Appellant had no need for assistance with activities of daily living at the time of the assessment. The second Medical Needs Form was not submitted until ██████████, which is unfortunately, not relevant or probative to the instant denial. If Appellant's condition has worsened or he has additional information, he can re-apply for HHS with the new information. The ASW provided credible, detailed business records regarding her observations of, and discussions with, Appellant. Accordingly, the denial of Appellant's HHS is upheld.

**Docket No. 15-006281 HHS  
Decision and Order**

**DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that, based on the available information, the Department properly denied Appellant's HHS.

**IT IS THEREFORE ORDERED THAT:**

The Department's decision is AFFIRMED.

Landis Y. Lain

Administrative Law Judge  
for Nick Lyon, Director  
Michigan Department of Health and Human  
Services

**\*\*\* NOTICE \*\*\***

The Michigan Administrative Hearing System may order a rehearing on either its own motion or at the request of a party within 30 days of the mailing date of this Decision and Order. The Michigan Administrative Hearing System will not order a rehearing on the Department's motion where the final decision or rehearing cannot be implemented within 90 days of the filing of the original request. The Appellant must appeal the Decision and Order to Circuit Court within 30 days of the receipt of the Decision and Order or, if a timely request for rehearing was made, within 30 days of the receipt of the rehearing decision.
