

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
ADMINISTRATIVE HEARINGS FOR THE
DEPARTMENT OF HEALTH AND HUMAN SERVICES**

IN THE MATTER OF:

[REDACTED]

Reg. No.: 15-005688
Issue No.: 2009; 4009
Case No.: [REDACTED]
Hearing Date: June 23, 2015
County: Ottawa

ADMINISTRATIVE LAW JUDGE: Vicki Armstrong

HEARING DECISION

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on June 23, 2015, from Lansing, Michigan. Claimant personally appeared and testified. Participants on behalf of the Department of Health and Human Services (Department) included Hearing Facilitator [REDACTED].

ISSUE

Whether the Department properly determined that Claimant was not disabled for purposes of the Medical Assistance (MA) and State Disability Assistance (SDA) benefit programs?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On February 11, 2015, Claimant filed an application for MA/Retro-MA and SDA benefits alleging disability.
2. On April 3, 2015, the Medical Review Team (MRT) denied Claimant's application for MA/Retro-MA and SDA.
3. On April 4, 2015, the Department sent Claimant notice that his application for MA/Retro-MA and SDA had been denied.
4. On April 10, 2015, Claimant filed a request for a hearing to contest the Department's negative action.
5. Claimant was appealing the denial of Social Security disability benefits at the time of the hearing.

6. Claimant is a 37 year old man whose birthday is [REDACTED]. Claimant is 5'8" tall and weighs 150 lbs.
7. Claimant does not have an alcohol or nicotine history. He quit using drugs in August, 2014.
8. Claimant does not have a driver's license because he was in a coma after overdosing and has been unable to get his driver's license.
9. Claimant has a high school education.
10. Claimant is not currently working. Claimant last worked in May, 2014.
11. Claimant alleges disability on the basis of reflex sympathetic dystrophy, complex regional pain syndrome, right upper extremity compartment syndrome, seizures, anemia, rhabdomyolysis, hypertension, substance abuse/addiction, anxiety, depression, stage III kidney disease and renal failure.
12. Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
13. Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

CONCLUSIONS OF LAW

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

In order to receive MA benefits based upon disability or blindness, claimant must be disabled or blind as defined in Title XVI of the Social Security Act (20 CFR 416.901). DHS, being authorized to make such disability determinations, utilizes the SSI definition of disability when making medical decisions on MA applications. MA-P (disability), also is known as Medicaid, which is a program designated to help public assistance claimants pay their medical expenses. Michigan administers the federal Medicaid program. In assessing eligibility, Michigan utilizes the federal regulations.

Relevant federal guidelines provide in pertinent part:

"Disability" is:

. . . the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. 20 CFR 416.905.

The federal regulations require that several considerations be analyzed in sequential order:

. . . We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further. 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required. These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.

2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f)?
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application Claimant has the burden of proof pursuant to:

. . . You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required by claimant to establish statutory disability. The regulations essentially require laboratory or clinical medical reports that corroborate claimant's claims or claimant's physicians' statements regarding disability. These regulations state in part:

Medical reports should include --

- (1) Medical history.
- (2) Clinical findings (such as the results of physical or mental status examinations);
- (3) Laboratory findings (such as ultrasounds, X-rays);

- (4) Diagnosis (statement of disease or injury based on its signs and symptoms). 20 CFR 416.913(b).

Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment. 20 CFR 416.929(a). The medical evidence must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e). You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques. 20 CFR 416.927(a)(1).

The Administrative Law Judge is responsible for making the determination or decision about whether the statutory definition of disability is met. The Administrative Law Judge reviews all medical findings and other evidence that support a medical source's statement of disability. 20 CFR 416.927(e).

For mental disorders, severity is assessed in terms of the functional limitations imposed by the impairment. Functional limitations are assessed using the criteria in paragraph (B) of the listings for mental disorders (descriptions of restrictions of activities of daily living, social functioning; concentration, persistence or pace; and ability to tolerate increased mental demands associated with competitive work). 20 CFR, Part 404, Subpart P, Appendix 1, 12.00(C).

Applying the sequential analysis herein, Claimant is not ineligible at the first step as Claimant is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a *de minimus* standard. Generally, federal courts have imposed a *de minimus* standard upon claimants to establish the existence of a severe impairment. *Grogan v. Barnhart*, 399 F.3d 1257, 1263 (10th Cir. 2005); *Hinkle v. Apfel*, 132 F.3d 1349, 1352 (10th Cir. 1997). *Higgs v Bowen*, 880 F.2d 860, 862 (6th Cir. 1988). Similarly, Social Security Ruling 85-28 has been interpreted so that a claim may be denied at step two for lack of a severe impairment only when the medical evidence establishes a slight abnormality or combination of slight abnormalities that would have no more than a minimal effect on an individual's ability to work even if the individual's age, education, or work experience were specifically considered. *Barrientos v. Secretary of Health and Human Servs.*, 820 F.2d 1, 2 (1st Cir. 1987). Social Security Ruling 85-28 has been clarified so that the step two severity requirement is intended "to

do no more than screen out groundless claims.” *McDonald v. Secretary of Health and Human Servs.*, 795 F.2d 1118, 1124 (1st Cir. 1986).

SSA specifically notes that age, education, and work experience are not considered at the second step of the disability analysis. 20 CFR 416.920 (5)(c). In determining whether Claimant’s impairments amount to a severe impairment, all other relevant evidence may be considered. The analysis will begin with a summary of the relevant submitted medical documentation.

Ruling any ambiguities in Claimant’s favor, this Administrative Law Judge (ALJ) finds that Claimant meets both. The analysis continues.

On [REDACTED], Claimant overdosed on heroin and when discovered transported to the hospital in a coma and admitted to the Intensive Care Unit. Claimant was put on a ventilator due to his trouble breathing and started on dialysis due to his kidneys failing. On [REDACTED], Claimant went into his first surgery, a fasciotomy on his right arm. On [REDACTED] he had a skin graft from his right thigh to his right tricep. On [REDACTED], he was taken off dialysis and his potassium levels were monitored. While in the hospital, Claimant developed C-diff three different times. He was in physical therapy for his lower body which improved his ability to walk. Around day 21/22, he was taken off the ventilator and a cannula was used for his breathing. He was discharged from the hospital on November 5, 2014, in New Jersey, and brought home to his parents in Zeeland, Michigan. Discharge diagnosis: drug overdose, compartment syndrome of right upper extremity, rhabdomyolysis, acute kidney injury secondary to drug overdose and rhabdomyolysis, aspiration pneumonia, anemia, acute respiratory distress syndrome and hyperglycemia.

On [REDACTED], Claimant consulted with pain management on his primary care physician’s referral. On examination, the physician noted Claimant has compartment syndrome requiring multiple surgeries which have left him with profound complex regional pain syndrome (CRPS) type symptoms. Hypersensitivity, color change, temperature change, etc. A cervical medial branch block under fluoroscopy was suggested and Claimant agreed to the procedure.

Claimant participated in occupational therapy at the [REDACTED] beginning [REDACTED], until he was discharged on [REDACTED]. Observation of the right hand at rest noted atrophy in the thenar and hypothenar eminences along with intrinsic muscle weakness noted between the first and second digits. Claimant’s grip strength with the right hand was 7 pounds, with the norm being 122. The norm for Claimant’s left hand was 110 and his grip strength was 84.6. The nine-hold peg board was readministered and with his right hand, Claimant scored 1 minute and 40 seconds. Using his left hand, his score equaled 18.78 seconds. Claimant was noted to demonstrate an abnormal prehension pattern with the right hand and also substituted movements with his shoulder and trunk. Claimant demonstrated decreased right digit range of motion/strength as compared to the norms, which limits functional use of right upper extremity.

The third step of the analysis looks at whether an individual meets or equals one of the Listings of Impairments. 20 CFR 416.920(d). Claimant does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Claimant in the past. 20 CFR 416.920(f). In this case, Claimant has a history of less than gainful employment. As such, there is no past work for Claimant to perform, nor are there past work skills to transfer to other work occupations. Accordingly, Step 5 of the sequential analysis is required.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g). See *Felton v DSS* 161 Mich. App 690, 696 (1987). Once Claimant reaches Step 5 in the sequential review process, Claimant has already established a *prima facie* case of disability. *Richardson v Secretary of Health and Human Services*, 735 F2d 962 (6th Cir, 1984). At that point, the burden of proof is on the state to prove by substantial evidence that Claimant has the residual functional capacity for substantial gainful activity.

The medical information indicates that Claimant suffers from reflex sympathetic dystrophy, complex regional pain syndrome, right upper extremity compartment syndrome, seizures, anemia, rhabdomyolysis, hypertension, substance abuse/addiction, anxiety, depression, stage III kidney disease and renal failure.

Claimant credibly testified that he has a limited tolerance for physical activities and is unable to stand or sit for lengthy periods of time. Claimant stated he has no functional use of his right arm and is in constant pain as a result of reflex sympathetic syndrome.

Claimant is 37 years old, with a high school education. Claimant's medical records are consistent with his testimony that he is unable to engage in even a full range of sedentary work on a regular and continuing basis. 20 CFR 404, Subpart P. Appendix 11, Section 201.00(h). See Social Security Ruling 83-10; *Wilson v Heckler*, 743 F2d 216 (1986).

The Department has failed to provide vocational evidence which establishes that Claimant has the residual functional capacity for substantial gainful activity and that given Claimant's age, education, and work experience, there are significant numbers of jobs in the national economy which Claimant could perform despite Claimant's limitations. Accordingly, this Administrative Law Judge concludes Claimant is disabled for purposes of the MA program.

Receipt of SSI or RSDI benefits based upon disability or blindness or the receipt of MA benefits based upon disability or blindness automatically qualifies an individual as disabled for purposes of the SDA program. Other specific financial and non-financial eligibility criteria are found in BEM 261. Inasmuch as Claimant has been found

“disabled” for purposes of MA, he must also be found “disabled” for purposes of SDA benefits.

DECISION AND ORDER

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for MA/Retro-MA and SDA eligibility purposes.

Accordingly, the Department’s decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant’s February 11, 2015, MA/Retro-MA and SDA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Claimant’s medical condition for improvement in July, 2016, unless his Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant’s treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

It is SO ORDERED.

NOTICE OF APPEAL: A party may appeal this Hearing Decision in the circuit court in the county in which he/she resides, or the circuit court in Ingham County, within 30 days of the receipt date.

A party may request a rehearing or reconsideration of this Hearing Decision from the Michigan Administrative Hearing System (MAHS) within 30 days of the mailing date of this Hearing Decision, or MAHS may order a rehearing or reconsideration on its own motion.

MAHS may grant a party's Request for Rehearing or Reconsideration when one of the following exists:

- Newly discovered evidence that existed at the time of the original hearing that could affect the outcome of the original hearing decision;
- Misapplication of manual policy or law in the hearing decision which led to a wrong conclusion;
- Typographical, mathematical or other obvious error in the hearing decision that affects the rights of the client;
- Failure of the ALJ to address in the hearing decision relevant issues raised in the hearing request.

The party requesting a rehearing or reconsideration must specify all reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration. A request must be *received* in MAHS within 30 days of the date this Hearing Decision is mailed.

A written request may be faxed or mailed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088 and be labeled as follows:

Attention: MAHS Rehearing/Reconsideration Request

If submitted by mail, the written request must be addressed as follows:
