

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
ADMINISTRATIVE HEARINGS FOR THE  
DEPARTMENT OF HEALTH AND HUMAN SERVICES**

**IN THE MATTER OF:**

Reg. No.: 15-007644  
Issue No.: 4009  
Case No.: [REDACTED]  
Hearing Date: July 16, 2015  
County: Kent-District 1

**ADMINISTRATIVE LAW JUDGE:** Vicki Armstrong

**HEARING DECISION**

Following Claimant's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on July 16, 2015, from Lansing, Michigan. Claimant, represented by Attorney Scott Stuart, personally appeared and testified. Participants on behalf of the Department of Health and Human Services (Department) included Assistant Attorney General [REDACTED] and Family Independence Manager [REDACTED].

**ISSUE**

Whether the Department properly determined that Claimant was not disabled for purposes of the State Disability Assistance (SDA) benefit program?

**FINDINGS OF FACT**

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

- (1) Claimant was an SDA benefit recipient and his benefits case was scheduled for review in November, 2014.
- (2) In November, 2014, Claimant filed a Redetermination for SDA benefits alleging continued disability.
- (3) On March 28, 2015, the Medical Review Team denied Claimant's application indicating that continuing eligibility for SDA was denied. (Dept Ex. A, pp 103-108).
- (4) On April 16, 2015, the Department sent Claimant notice that his SDA benefits case would be closed based upon medical improvement.

- (5) On May 4, 2015, Claimant filed a request for a hearing to contest the Department's negative action.
- (6) Claimant has a history of lumbar spondylosis post L4-L5 decompression/fusion, chronic pain, arthritis, and stenosis.
- (7) Claimant is a 48 year old man whose birthday is [REDACTED].
- (8) Claimant is 5'10" tall and weighs 165 lbs.
- (9) Claimant completed the ninth grade.
- (10) Claimant last worked in 2012.
- (11) Claimant was appealing the denial of Social Security disability at the time of the hearing.
- (12) Claimant's impairments have lasted, or are expected to last, continuously for a period of twelve months or longer.
- (13) Claimant's complaints and allegations concerning his impairments and limitations, when considered in light of all objective medical evidence, as well as the record as a whole, reflect an individual who is so impaired as to be incapable of engaging in any substantial gainful activity on a regular and continuing basis.

### **CONCLUSIONS OF LAW**

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security

Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manuals. 2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

(b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevents him or her from engaging in substantial gainful work activity for at least ninety (90) days.

Pursuant to the federal regulations at 20 CFR 416.994, once a client is determined eligible for disability benefits, the eligibility for such benefits must be reviewed periodically. Before determining that a client is no longer eligible for disability benefits, the agency must establish that there has been a medical improvement of the client's impairment that is related to the client's ability to work. 20 CFR 416.994(b)(5).

To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the most expeditious and administratively efficient way, and that any decisions to stop disability benefits are made objectively, neutrally, and are fully documented, we will follow specific steps in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The first question asks:

- (i) Are you engaging in substantial gainful activity? If you are (and any applicable trial work period has been completed), we will find disability to have ended (see paragraph (b)(3)(v) of this section).

Claimant is not disqualified from this step because he has not engaged in substantial gainful activity at any time relevant to this matter. Furthermore, the evidence on the record fails to establish that Claimant has a severe impairment which meets or equals a listed impairment found at 20 CFR 404, Subpart P, Appendix 1. Therefore, the analysis continues. 20 CFR 416.994(b)(5)(ii).

The next step asks the question if there has been medical improvement. Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you were disabled or continued to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s). 20 CFR 416.994(b)(1)(i).

If there is a decrease in medical severity as shown by the symptoms, signs and laboratory findings, we then must determine if it is related to your ability to do work. In paragraph (b)(1)(iv) of this section, we explain the relationship between medical severity and limitation on functional capacity to do basic work activities (or residual functional capacity) and how changes in medical severity can affect your residual functional capacity. In determining whether medical improvement that has occurred is related to your ability to do work, we will assess your residual functional capacity (in accordance with paragraph (b)(1)(iv) of this section) based on the current severity of the impairment(s) which was present at your last favorable medical decision. 20 CFR 416.994(b)(2)(ii).

Pursuant to the federal regulations, at medical review, the agency has the burden of not only proving Claimant's medical condition has improved, but that the improvement relates to the client's ability to do basic work activities. The agency has the burden of establishing that Claimant is currently capable of doing basic work activities based on objective medical evidence from qualified medical sources. 20 CFR 416.994(b)(5).

On [REDACTED], Claimant's neurosurgeon completed a Medical Examination Report on behalf of the Department. Claimant is diagnosed with lumbar spondylosis post L4-L5 decompression/fusion and chronic pain. The neurosurgeon opined Claimant's condition is stable. Claimant is physically limited to occasionally lifting less than 10 pounds, never using his feet or legs to operate foot/leg controls, standing/walking less than two hours in an 8-hour workday and cannot sit 6 hours in an 8-hour workday. The neurosurgeon opined Claimant can meet his own needs in the home with some assistance.

Claimant saw his neurosurgeon on [REDACTED] for follow-up. Claimant presented with low back pain radiating into his leg with night time swelling. The pain was worse with activity and poorly controlled on current medications. Claimant's back was positive for pain with joint swelling and arthralgias. He was positive for immunocompromised state, numbness and sleep disturbances. The neurosurgeon assessed Claimant with lumbar spondylosis, degenerative disc disease and status post L4-L5 decompression and fusion. The neurosurgeon indicated Claimant has chronic pain with a cage that has already moved once. Claimant has decreased mobility and range of motion with chronic pain. Therefore, the neurosurgeon opined that Claimant will not be able to return to work and is thus permanently disabled.

In this case, the Department has not met its burden of proof. The agency has provided no evidence that indicates Claimant's condition has improved, especially in lieu of the evidence showing his condition has worsened. Moreover, the agency provided no objective medical evidence from qualified medical sources that show Claimant is currently capable of doing basic work activities. Accordingly, the Department's SDA eligibility determination cannot be upheld at this time.

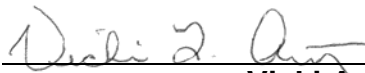

### **DECISION AND ORDER**

The Administrative Law Judge, based upon the above findings of fact and conclusions of law, decides the Department erred in determining Claimant is not currently disabled for SDA eligibility purposes.

Accordingly, the Department's decision is **REVERSED**, and it is ORDERED that:

1. The Department shall process Claimant's November 18, 2014, SDA application, and shall award him all the benefits he may be entitled to receive, as long as he meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Claimant's medical condition for improvement in August, 2016, unless his Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Claimant's treating physicians, physical therapists, pain clinic notes, etc. regarding his continued treatment, progress and prognosis at review.

**It is SO ORDERED.**
