

**STATE OF MICHIGAN
MICHIGAN ADMINISTRATIVE HEARING SYSTEM
FOR THE DEPARTMENT OF HEALTH AND HUMAN SERVICES**

P.O. Box 30763, Lansing, MI 48909
(877) 833-0870; Fax: (517) 373-4147

IN THE MATTER OF:

████████████████████

Docket No. 15-017531HHS

██████████

██████████

Appellant.

_____ /

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. Appellant appeared and testified. Phra Patah appeared as a witness on behalf of Appellant.

Allison Pool, Appeals Review Officer, represented the Department of Community Health. ██████████, Adult Services Worker (ASW), and ██████████ ██████████, Adult Services Supervisor, appeared as witnesses for the Department.

ISSUE

Did the Department do a proper assessment pursuant to Appellant's referral and case opening for her HHS grant?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Appellant is ██████ year-old female beneficiary of the Medicaid welfare program. Appellant is ██████ and weighs ██████ pounds. Appellant is classified as overweight under the body mass index.
2. On ██████████ the Department received a referral on behalf of Appellant for the HHS program. (Exhibit A.6).

3. Appellant's diagnoses are lumbar disc and radiculitis. (Exhibit A.13).
4. On ██████ the Department conducted a review and completed a home call visit. The ASW recorded that Appellant's conditions are manageable based on medical research regarding exercise and diet adjustments; that Appellant self-reported carpal tunnel but with the assistance of wrist bands she is able to have sufficient support to ██████ herself and use her hands. Appellant represented that she is able to manage her own meds but stated that she needs help with getting up and down. (Exhibit A.9).
5. The Department approved Appellant for assistance with transferring, housework, laundry, shopping for food, and meal preparation at ██████ hours per month; ██████ (Exhibit A.10).
6. On ██████, Appellant's Request for Hearing was received by the Michigan Administrative Hearing System arguing for more hours.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 101, 11-1-11, addresses HHS payments:

Payment Services Home Help

Home help services are non-specialized personal care service activities provided under the independent living services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical

disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

*Adult Services Manual (ASM) 101,
11-1-2011, Page 1 of 4.*

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Necessity For Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical Certification of need; see ASM 115, Adult Services Requirements.

Adult Services Manual (ASM) 105,
11-1-2011, Pages 1-3 of 3

Adult Services Manual (ASM 120, 5-1-2012), pages 1-4 of 5 addresses the adult services comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information will be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual redetermination.

- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
 - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.
Performs the activity safely with no human assistance.
2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADLs if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

*Adult Services Manual (ASM) 120, 5-1-2012,
Pages 1-5 of 5*

Here, the Department argues that its assessment was correct, that Appellant's medically issues are generally manageable and that the hours approve for transferring, housework, laundry, shopping and meal preparation are adequate based on the ASW's assessment.

Appellant argues that she needs more hours, including for "sometimes" needing assistance with bathing and grooming. In addition, at hearing, Appellant argued that she needs assistance with transportation to physical therapy 3 times a week.

The purview of an administrative law judge (ALJ) is to review the Department's action and to make a determination if those actions are in compliance with Department policy, and not contrary to law. The reviewing forum is required to focus on the action taken at the time it took the action.

As noted above, law and policy gives an ASW much discretion in assessing an applicant's HHS hours for the program. It is noted that the ASW's commentary regarding her medical opinion as to Appellant's medical conditions and treatments are not identified in services policy as a required assessment. At the same time, the ASW's overall assessment regarding Appellant's functional limitations are consistent with the ASW's observations and records in calculating the HHS grant here. In addition, the testimony regarding the calculation of hours is consistent.

Appellant's argument that she needs assistance going to physical therapy is not an available benefit for the HHS program-HHS hours are only for in-home needs.

Based on all of the evidence of record, this ALJ finds that Appellant failed to meet the burden of proof to establish that she needs more hours than assessed by the ASW and thus, the Department's assessment is credible. Based on a careful review of the

Docket No. 15-017531 HHS
Decision and Order

credible and substantial evidence on the whole record, this ALJ finds that the Department's actions were in compliance with its policy, and supported by the documentary and testimonial evidence taken as a whole at the time the Department made its determination. Thus, the Department's assessment is upheld, and Appellant's request for more hours denied.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department's allotment of Appellant's HHS grant was correct based on the available evidence.

IT IS THEREFORE ORDERED THAT:

The Department's decision in this case is hereby UPHELD.

Janice Spodarek
Administrative Law Judge
