CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department received approval from the Health Care Financing Administration, U.S. Department of Health and Human Services, allowing Michigan to restrict Medicaid beneficiaries' choice to obtain medical services only from specified MHPs.

The Respondent is one of those MHPs.

The covered services that the Contractor has available for enrollees must include, at a minimum, the covered services listed below. The Contractor may limit services to those which are medically necessary and appropriate, and which conform to professionally accepted standards of care but may not arbitrarily deny or reduce the amount, duration, or scope of a required service solely because of the diagnosis, type of illness, or condition of an enrollee. In general, the Contractor is responsible for covered services related to the following:

- The prevention, diagnosis, and treatment of health impairments
- The ability to achieve age-appropriate growth and development
- The ability to attain, maintain, or regain functional capacity

The Contractor must operate consistent with all applicable Medicaid provider manuals and publications for coverages and limitations.

If new services are added to the Michigan Medicaid Program, or if services are expanded, eliminated, or otherwise changed, the Contractor must implement the changes consistent with State direction in accordance with the provisions of Contract Section 2.024.

Although the Contractor must provide the full range of covered services listed below they may choose to provide services over and above those specified.

The covered services provided to enrollees under this Contract include, but are not limited to, the following:

AA. Utilization Management

(1) The major components of the Contractor's utilization management (UM) program must encompass, at a minimum, the following:

- a) Written policies with review decision criteria and procedures that conform to managed health care industry standards and processes.
- b) A formal utilization review committee directed by the Contractor's medical director to oversee the utilization review process.
- c) Sufficient resources to regularly review the effectiveness of the utilization review process and to make changes to the process as needed.
- d) An annual review and reporting of utilization review activities and outcomes/interventions from the review.
- e) The UM activities of the Contractor must be integrated with the Contractor's QAPI program.

(2) Prior Approval Policy and Procedure

The Contractor must establish and use a written prior approval policy and procedure for UM purposes. The Contractor may not use such policies and procedures to avoid providing medically necessary services within the coverages established under the Contract. The policy must ensure that the review criteria for authorization decisions are applied consistently and require that the

reviewer consult with the requesting provider when appropriate. The policy must also require that UM decisions be made by a health care professional who has appropriate clinical expertise regarding the service under review. [Contract, *supra*, p. 55].

As stated in the Department-MHP contract language above, a MHP “must operate consistent with all applicable Medicaid Provider Manuals and publications for coverages and limitations.” The *Medicaid Provider Manual, Medical Supplier, §2.27 - Orthotics (Spinal)*, p. 54, October 1, 2014 states in part:

2.27 ORTHOPEDICS (SPINAL)

Definition

Spinal orthotics include, but are not limited to, cervical, thoracic, lumbar, sacral, spinal, thoracic mid belt lumbar sacral, and sacroiliac orthotics.

Standards of Coverage

Spinal orthotics are covered to:

- Facilitate healing following a spinal injury.
- Arrest or correct the curvature of the spine or spondylolisthesis greater than grade 1.
- Support weak spinal muscles due to atrophy and/or a deformed spine.
- Facilitate healing following spinal surgery.

Documentation

Documentation must be less than 60 days old and include the following:

- Diagnosis/medical condition related to the service requested.
- Medical reasons for appliance.
- Functional needs of the beneficiary.
- Reason for replacement, such as growth or medical change.
- Prescription from an appropriate pediatric subspecialist is

required under the CSHCS program. Medicaid Provider Manual, Medical Supplier Chapter, Section 2.27; October 1, 2015.

Here, unrefuted evidence is that the medical evidence submitted on behalf of Appellant does not meet any of the identified criteria under Section 2.27

Appellant did not dispute the law and/or policy, or the medical evidence. Appellant was concerned as the back brace had already been provided that he may be billed for the cost. The Medical Director informed Appellant that under the law, if he is seeing a Medicaid enrolled provider, the provider cannot bill Appellant.

[REDACTED]
Docket No. 15-017886 MHP
Decision and Order

The Appellant failed to satisfy his burden of proving by a preponderance of the evidence that the MHP improperly denied his request for the spinal brace. The MHP and the undersigned administrative law judge are bound by the policy contained in the Medicaid Provider Manual that was cited by the Respondent MHP and must deny the Appellant's request for Medicaid coverage for the requested back brace based on the available evidence of record.

DECISION AND ORDER

Based on the above findings of fact and conclusions of law, the Administrative Law Judge finds that the MHP's denial of the Appellant's request for spinal back brace was proper based on the available evidence.

IT IS THEREFORE ORDERED that:

The MHP's decision is **AFFIRMED**.
