

**STATE OF MICHIGAN  
MICHIGAN ADMINISTRATIVE HEARING SYSTEM  
FOR THE DEPARTMENT OF HEALTH AND HUMAN SERVICES**

P. O. Box 30763, Lansing, MI 48909  
(877) 833-0870; Fax (517) 373-4147

IN THE MATTER OF:

██████████

Appellant

\_\_\_\_\_ /

Docket No. 15-019153 CMH

Case No. ██████████

**DECISION AND ORDER**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.* upon Appellant's request for a hearing.

After due notice, a hearing was held on ██████████. Appellant appeared on his own behalf.

██████████, Clinical Director, appeared on behalf of ██████████ (or Department). ██████████, Clinical Supports Supervisor appeared as a witness for the Department.

**ISSUE**

Does the Appellant meet the eligibility requirements for Medicaid Specialty Supports and Services through CMH as someone with a serious mental illness (SMI)?

**FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Appellant is a ██████ year-old Medicaid beneficiary, born ██████████, who was referred to ██████ in ██████████ by ██████████ for substance abuse related concerns, which were verified by his primary care physician ██████████, who recommended he attend inpatient substance abuse treatment. (Exhibits A, 1; Testimony)

Decision & Order

2. Appellant was admitted to ██████████ with an initial primary diagnosis of 296.33 Major Depressive Disorder and an additional diagnosis of 303.90 Alcohol Dependence. (Exhibit A; Testimony)
3. Between ██████████ and ██████████, Appellant had approximately 5 episodes of ER visits/crisis screenings with documented substance use. (Exhibit A; Testimony)
4. In ██████████, after Appellant's assessment and consultations with his psychiatrist, therapist and clinical supervisors, Appellant's primary diagnosis was changed to substance abuse. (Exhibit A; Testimony)
5. Appellant continued to receive services on and off and continued to present with substance abuse related issues, including an alleged DUI in ██████████. As part of that case, Appellant was put on probation and ordered to receive substance abuse services through CWN. (Exhibit A; Testimony)
6. On ██████████, Appellant's official primary diagnosis was changed to 303.90 Alcohol Dependence with no secondary SMI diagnosis. (Exhibit A; Testimony)
7. The Michigan Mental Health Code, Medicaid Provider Manual, and the MDCH/CMHSP Mental Health Supports and Services Contract specify that the community mental health agencies are responsible for treating the most severe forms of mental illness and that Medicaid Health Plans are responsible for treating mild to moderate conditions. (Exhibit A; Testimony)
8. On ██████████, ██████████ sent Appellant an Advance Action Notice informing him that his services would be terminated in 12 days. (Exhibit A; Testimony)
9. On ██████████, the Michigan Administrative Hearing System (MAHS) received Appellant's request for an Administrative Hearing. (Exhibit 1)

**CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Title XIX of the Social Security Act, enacted in 1965, authorizes Federal grants to States for medical assistance to low-income persons who are age 65 or over, blind, disabled, or members of families with dependent children or qualified pregnant women or children. The program is jointly financed by the

Federal and State governments and administered by States. Within broad Federal rules, each State decides eligible groups, types and range of services, payment levels for services, and administrative and operating procedures. Payments for services are made directly by the State to the individuals or entities that furnish the services.

42 CFR 430.0

The State Plan is a comprehensive written statement submitted by the agency describing the nature and scope of its Medicaid program and giving assurance that it will be administered in conformity with the specific requirements of title XIX, the regulations in this Chapter IV, and other applicable official issuances of the Department. The State plan contains all information necessary for CMS to determine whether the plan can be approved to serve as a basis for Federal financial participation (FFP) in the State program.

42 CFR 430.10

Section 1915(b) of the Social Security Act provides:

The Secretary, to the extent he finds it to be cost-effective and efficient and not inconsistent with the purposes of this subchapter, may waive such requirements of section 1396a of this title (other than subsection (s) of this section) (other than sections 1396a(a)(15), 1396a(bb), and 1396a(a)(10)(A) of this title insofar as it requires provision of the care and services described in section 1396d(a)(2)(C) of this title) as may be necessary for a State—

Under approval from the Center for Medicaid and Medicaid Services (CMS) the Michigan Department of Health and Human Services (MDCH) operates a section 1915(b) waiver called the Medicaid Managed Specialty Services and Support program waiver. CMH contracts with the MDCH to provide services under the Managed Specialty Service and Supports Waiver and other State Medicaid Plan covered services. CMH must offer, either directly or under contract, a comprehensive array of services, as specified in Section 206 of the Michigan Mental Health Code, Public Act 258 of 1974, amended, and those services/supports included as part of the contract between the Department and CMH.

The Department's *Medicaid Provider Manual, Mental Health and Substance Abuse, Beneficiary Eligibility, Section 1.6* makes the distinction between the CMH responsibility and the Medicaid Health Plan (MHP) responsibility for Medicaid specialized ambulatory mental health benefits. The Medicaid Provider Manual provides:

A Medicaid beneficiary with mental illness, serious emotional disturbance or developmental disability who is enrolled in a Medicaid Health Plan (MHP) is

eligible for specialty mental health services and supports when his needs exceed the MHP benefits. (Refer to the Medicaid Health Plans Chapter of this manual for additional information.) Such need must be documented in the individual's clinical record.

The following table has been developed to assist health plans and PIHPs in making coverage determination decisions related to outpatient care for MHP beneficiaries. Generally, as the beneficiary's psychiatric signs, symptoms and degree/extent of functional impairment increase in severity, complexity and/or duration, the more likely it becomes that the beneficiary will require specialized services and supports available through the PIHP/CMHSP. For all coverage determination decisions, it is presumed that the beneficiary has a diagnosable mental illness or emotional disorder as defined in the most recent Diagnostic and Statistical Manual of the Mental Disorders published by the American Psychiatric Association.

<p><b>In general, MHPs are responsible for outpatient mental health in the following situations:</b></p> <ul style="list-style-type: none"><li><input type="checkbox"/> The beneficiary is experiencing or demonstrating <u>mild or moderate psychiatric symptoms</u> or signs of sufficient intensity to cause subjective distress or mildly disordered behavior, with minor or temporary functional limitations or impairments (self-care/daily living skills, social/interpersonal relations, educational/vocational role performance, etc.) and minimal clinical (self/other harm risk) instability.</li><li><input type="checkbox"/> The beneficiary was formerly significantly or seriously mentally ill at some point in the past. Signs and symptoms of the former serious disorder have substantially moderated or remitted and prominent functional disabilities or impairments related to the condition have largely subsided (there has been no serious exacerbation of the condition within the last 12 months). The beneficiary currently needs ongoing routine medication management without further specialized services and supports.</li></ul>	<p><b>In general, PIHPs/CMHSPs are responsible for outpatient mental health in the following situations:</b></p> <ul style="list-style-type: none"><li><input type="checkbox"/> The beneficiary is currently or has recently been (within the last 12 months) seriously mentally ill or seriously emotionally disturbed as indicated by diagnosis, intensity of current signs and symptoms, and substantial impairment in ability to perform daily living activities (or for minors, substantial interference in achievement or maintenance of developmentally appropriate social, behavioral, cognitive, communicative or adaptive skills).</li><li><input type="checkbox"/> The beneficiary does not have a current or recent (within the last 12 months) serious condition but was formerly seriously impaired in the past. Clinically significant residual symptoms and impairments exist and the beneficiary requires specialized services and supports to address residual symptomatology and/or functional impairments, promote recovery and/or prevent relapse.</li><li><input type="checkbox"/> The beneficiary has been treated by the MHP for mild/moderate symptomatology</li></ul>
--	---

	and temporary or limited functional impairments and has exhausted the 20-visit maximum for the calendar year. (Exhausting the 20-visit maximum is not necessary prior to referring complex cases to PIHP/CMHSP.) The MHP's mental health consultant and the PIHP/CMHSP medical director concur that additional treatment through the PIHP/CMHSP is medically necessary and can reasonably be expected to achieve the intended purpose (i.e., improvement in the beneficiary's condition) of the additional treatment.
--	---

*Medicaid Provider Manual  
Mental Health and Substance Abuse Section  
July 1, 2015, p 3*

“Serious mental illness” is defined in the Mental Health Code as follows:

330.1100d Definitions; S to W.  
Sec. 100d.

\* \* \* \*

(3) “Serious mental illness” means a diagnosable mental, behavioral, or emotional disorder affecting an adult that exists or has existed within the past year for a period of time sufficient to meet diagnostic criteria specified in the most recent diagnostic and statistical manual of mental disorders published by the American psychiatric association and approved by the department and that has resulted in functional impairment that substantially interferes with or limits 1 or more major life activities. Serious mental illness includes dementia with delusions, dementia with depressed mood, and dementia with behavioral disturbance but does not include any other dementia unless the dementia occurs in conjunction with another diagnosable serious mental illness. The following disorders also are included only if they occur in conjunction with another diagnosable serious mental illness:

(a) A substance abuse disorder.

(b) A developmental disorder.

(c) A "V" code in the diagnostic and statistical manual of mental disorders.

\* \* \* \*

MCL 330.1100d(3)

Appellant testified that he was actually pulled over for impaired driving, not driving while intoxicated. Appellant indicated that the court ordered him to continue therapy as part of his probation and he desired to continue seeing the ████████ therapist. Appellant indicated that he is not drinking now and the only drugs he is taking are the ones prescribed by his primary care physician. Appellant indicated that he was having transportation trouble when he was receiving services through ████████, which caused him to miss some appointments. Appellant indicated that the therapy was very helpful and he really needs to continue with it. Appellant indicated that he has health insurance through ██████████  
██████

In this case, CMH applied the proper eligibility criteria to determine whether Appellant was eligible for continued Medicaid covered mental health services and properly determined he is not because he is not a person with a serious mental illness. Following a review, ████████ determined that Appellant's symptoms were mild to moderate, except when he was drinking, and that his primary diagnosis was Alcohol Dependence. As indicated above, the Medicaid Provider Manual provides that ████████ is responsible for treating the most severe forms of mental illness and that the Medicaid Health Plans are responsible for treating mild to moderate conditions. Here, Appellant has coverage through a Medicaid Health Plan, ██████████, and can receive the services he needs, including medications, therapy, and substance abuse treatment, through that plan. Should Appellant's condition worsen, he is free to request another assessment. Accordingly, Appellant does not meet the eligibility criteria for Medicaid Specialty Supports and Services through ████████.

[REDACTED]  
Docket No. 15-019153CMH  
Decision & Order

**DECISION AND ORDER**

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that the CMH properly determined that the Appellant does not meet the eligibility requirements for Medicaid Specialty Supports and Services through [REDACTED].

IT IS THEREFORE ORDERED THAT:

The Department's decision is AFFIRMED.

for Nick Lyon, Director  
Michigan Department of Health and  
Human Services
