CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Medicaid covered benefits are addressed for the practitioners and beneficiaries in the Medicaid Provider Manual (MPM). With respect to prior authorization requests, the MPM states:

SECTION 2 – PRIOR AUTHORIZATION

Prior authorization (PA) must be obtained for certain services identified in this chapter and those dental services identified as requiring PA in the MDCH Dental Database posted on the MDCH website. (Refer to the Directory Appendix for website information.) A PA request is needed only for those services requiring PA.

2.2 COMPLETION INSTRUCTIONS

The Dental Prior Approval Authorization Request form (MSA-1680-B) is used to obtain authorization. (Refer to the Forms Appendix for instructions for completing the form.) When requesting authorization for certain procedures, dentists may be required to send specific additional information and materials. Based on the MSA-1680-B and the documentation attached, staff approves or disapproves the request and returns a copy to the dentist. Approved requests are assigned a PA number. For billing purposes, the PA number must be entered in the appropriate field on the claim form. An electronic copy of the MSA-1680-B is available on the MDCH website. (Refer to the Directory Appendix for website information.) [MPM, *Dental Chapter*, October 1, 2015, Section 2, p 4].

Docket No. 15-013014 PA
Decision and Order

The *MPM, Dental Chapter, Section 6.6 Prosthodontics*, October 1, 2015, covers the available Medicaid benefits for complete and partial dentures. This section states in part:

6.6.A. GENERAL INSTRUCTIONS

Complete and partial dentures are benefits for all beneficiaries. All dentures require PA. Providers must assess the beneficiary's general oral health and provide a five-year prognosis for the prosthesis requested. An upper partial denture PA request must also include the prognosis of six sound teeth.

Complete or partial dentures are authorized:

- If there is one or more anterior teeth missing;
- If there are less than eight posterior teeth in occlusion (fixed bridges and dentures are to be considered occluding teeth); or
- Where an existing complete or partial denture cannot be made serviceable through repair, relining, adjustment, or duplicating (rebasing) procedures.

MPM, Dental Chapter, §6.6.A, October 1, 2015, p 19.

The Department's witness stated Appellant's Prior Authorization request for a lower partial denture was denied, because the PA did not include the prognosis of six sound teeth. [REDACTED] referred to the policy quoted above from the *Medicaid Provider Manual, Dental Chapter, §6.6.A*, which supports the denial in this case.

Appellant bears the burden of proving by a preponderance of the evidence that the Department erred in denying his Prior Authorization request. Here, Appellant has failed to meet that burden. As described above, the Department's representative properly identified the reason why Appellant's request was denied and this reason establishes a sufficient basis for the denial in this case. Accordingly, the Department's decision must be affirmed.

On review, the Department's decision to deny the request for an upper partial denture was reached within policy.
