ISSUE

Did the MHP properly deny the Appellant's request for elective cosmetic surgery to remove excess skin on thighs?

FINDINGS OF FACT

Based on the competent, material, and substantial evidence presented, the Administrative Law Judge finds as material fact:

You can do an appeal/expedited appeal. Denial letter will come via mail with the appeal process attached [REDACTED]. (Respondent's Exhibit A page 10)
8. On [REDACTED], [REDACTED] denied the request for thighplasty, stating that the request was primarily for cosmetic purposes and not a Medicaid health plan benefit.

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

On May 30, 1997, the Department received approval from the Health Care Financing Administration, U.S. Department of Health and Human Services, allowing Michigan to restrict Medicaid beneficiaries' choice to obtain medical services only from specified MHPs.

The Respondent is one of those MHPs.

The covered services that the Contractor has available for enrollees must include, at a minimum, the covered services listed below. The Contractor may limit services to those which are medically necessary and appropriate, and which conform to professionally accepted standards of care. The Contractor must operate consistent with all applicable Medicaid provider manuals and publications for coverages and limitations. If new services are added to the Michigan Medicaid Program, or if services are expanded, eliminated, or otherwise changed, the Contractor must implement the changes consistent with State direction in accordance with the provisions of Contract Section 2.024.

Although the Contractor must provide the full range of covered services listed below they may choose to provide services over and above those specified. The covered services provided to enrollees under this Contract include, but are not limited to, the following:

- Ambulance and other emergency medical transportation
- Blood lead testing in accordance with Medicaid Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) policy
- Certified nurse midwife services
- Certified pediatric and family nurse practitioner services
- Chiropractic services
- Diagnostic lab, x-ray and other imaging services
- Durable medical equipment (DME) and supplies
- Emergency services
- End Stage Renal Disease services
- Family planning services (e.g., examination, sterilization procedures, limited infertility screening, and diagnosis)
- Health education
- Hearing and speech services
- Hearing aids
- Home Health services
- Hospice services (if requested by the enrollee)
- Immunizations
- Inpatient and outpatient hospital services
- Intermittent or short-term restorative or rehabilitative services (in a nursing facility), up to 45 days
- Restorative or rehabilitative services (in a place of service other than a nursing facility)
- Medically necessary weight reduction services
- Mental health care – maximum of 20 outpatient visits per calendar year

- Out-of-state services authorized by the Contractor
- Outreach for included services, especially pregnancy-related and Well child care
- Parenting and birthing classes
- Pharmacy services
- Podiatry services
- Practitioners' services (such as those provided by physicians, optometrists and dentists enrolled as a Medicaid Provider Type 10)
- Prosthetics and orthotics
- Tobacco cessation treatment including pharmaceutical and behavioral support
- Therapies (speech, language, physical, occupational) excluding services provided to persons with development disabilities which are billed through Community Mental Health Services Program (CMHSP) providers or Intermediate School Districts.
- Transplant services
- Transportation for medically necessary covered services
- Treatment for sexually transmitted disease (STD)
- Vision services
- Well child/EPSTD for persons under age 21 [Article 1.020 Scope of [Services], at §1.022 E (1) contract, 2010, p. 22].

(1) The major components of the Contractor's utilization management (UM) program must encompass, at a minimum, the following:

- (a) Written policies with review decision criteria and procedures that conform to managed health care industry standards and processes.
- (b) A formal utilization review committee directed by the Contractor's medical director to oversee the utilization review process.
- (c) Sufficient resources to regularly review the effectiveness of the utilization review process and to make changes to the process as needed.
- (d) An annual review and reporting of utilization review activities and outcomes/interventions from the review.
- (e) The UM activities of the Contractor must be integrated with the Contractor's QAPI program.

(2) Prior Approval Policy and Procedure

The Contractor must establish and use a written prior approval policy and procedure for UM purposes. The Contractor may not use such policies and procedures to avoid providing medically necessary services within the coverages established under the Contract. The policy must ensure that

the review criteria for authorization decisions are applied consistently and require that the reviewer consult with the requesting provider when appropriate. The policy must also require that UM decisions be made by a health care professional who has appropriate clinical expertise regarding the service under review. [Contract, *Supra*, p. 49].

As stated in the Department-MHP contract language above, a MHP “must operate consistent with all applicable Medicaid Provider Manuals and publications for coverages and limitations.”

Under the MHP contract provisions, an MHP may devise their own criterion for coverage of medically necessary services, as long as those criterion do not effectively avoid providing medically necessary services.

Medicaid beneficiaries are entitled to medically necessary Medicaid covered services for which they are eligible. Services must be provided in the appropriate scope, duration, and intensity to reasonably achieve the purpose of the covered service. See *42 CFR 440.230*.

The Medicaid Provider Manual, General Information for Providers, Section 8.3 states that elective cosmetic surgery or procedures are not covered by the Medicaid Program. (October 1, 2015, page 18)

Appellant testified on the record that she had repeated yeast infections. The medical documentation explicitly states that Appellant has no intertrigo. Appellant had excess skin medially and some laterally, as well as significant excess skin in gluteal creases.

Appellant has failed to satisfy the burden of proving by a preponderance of the evidence that the MHP improperly denied the requested medication. The denial is based upon Medicaid benefit exclusion. The Medicaid Health Plan (MHP), [REDACTED] does not have discretion to approve Appellant’s request for items which are not covered Medicaid benefits. The decision to deny the request for authorization must be upheld under the circumstances.

The MHP has established by the necessary, competent and substantial evidence on the record that it was acting in compliance with Department policy when it determined that that the request for elective cosmetic thighplasty must be denied because it is not a Medicaid Covered Service.
