Date Mailed: March 18, 2016  
MAHS Docket No.: 16-000867

[REDACTED]  
[REDACTED]

**ADMINISTRATIVE LAW JUDGE: Vicki Armstrong**

**HEARING DECISION**

Following Petitioner's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on March 8, 2016, from Lansing, Michigan. Petitioner and social worker [REDACTED] personally appeared and testified. The Department of Health and Human Services (Department) was represented by Assistance Payment Supervisor [REDACTED] and Eligibility Specialist [REDACTED].

**ISSUE**

Whether the Department properly determined that Petitioner was not disabled for purposes of the State Disability Assistance (SDA) benefit program based upon medical improvement?

**FINDINGS OF FACT**

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. The Department offered a copy of Petitioner's medical records. (Dept Exh. A, pp 1-302).
2. Petitioner was receiving SDA at all times pertinent to this case.
3. Petitioner filed a Redetermination for SDA benefits alleging continuing disability.
4. The Medical Review Team (MRT) denied Petitioner's continuing SDA benefits. (Dept Ex. A, pp 10-11).

5. On July 19, 2015, Petitioner was treated in the emergency department for chronic obstructive pulmonary disease with acute exacerbation. (Dept Exh. A, pp 102, 202-207).
6. On December 12, 2015, Petitioner underwent an evaluation on behalf of the Department. The physician found evidence suggestive of chronic leg pain from his multiple leg fractures. His gait was antalgic but he did not need an assistive device. The MRI's showed significant lumbar stenosis. His symptoms were consistent with lumbar radiculopathy from the severe foraminal stenosis in his bilateral lower extremities. Regarding his chronic obstructive pulmonary disease, the physician noted Petitioner had significant wheezing with decreased breath sounds and urged Petitioner to undergo tobacco cessation. (Dept Exh. A, pp 24-28).
7. On January 14, 2016, the Department mailed Petitioner a Notice of Case Action, informing Petitioner the SDA benefits would close effective February 1, 2016. (Dept Ex. A, pp 4-9).
8. On February 2, 2016, Petitioner submitted a Request for Hearing to the Department contesting the Department's denial.

### **CONCLUSIONS OF LAW**

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Health and Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manuals. 2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

(b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevents him or her from engaging in substantial gainful work activity for at least ninety (90) days.

Pursuant to the federal regulations at 20 CFR 416.994, once a client is determined eligible for disability benefits, the eligibility for such benefits must be reviewed periodically. Before determining that a client is no longer eligible for disability benefits, the agency must establish that there has been a medical improvement of the client's impairment that is related to the client's ability to work. 20 CFR 416.994(b)(5).

To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the most expeditious and administratively efficient way, and that any decisions to stop disability benefits are made objectively, neutrally, and are fully documented, we will follow specific steps in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The first question asks:

(i) Are you engaging in substantial gainful activity? If you are (and any applicable trial work period has been completed), we will find disability to have ended (see paragraph (b)(3)(v) of this section).

Petitioner is not disqualified from this step because he has not engaged in substantial gainful activity at any time relevant to this matter. Furthermore, the evidence on the record fails to establish that Petitioner has a severe impairment which meets or equals a listed impairment found at 20 CFR 404, Subpart P, Appendix 1. Therefore, the analysis continues. 20 CFR 416.994(b)(5)(ii).

The next step asks the question if there has been medical improvement. Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you were disabled or continued to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s). 20 CFR 416.994(b)(1)(i).

If there is a decrease in medical severity as shown by the symptoms, signs and laboratory findings, we then must determine if it is related to your ability to do work. In paragraph (b)(1)(iv) of this section, we explain the relationship between medical severity and limitation on functional capacity to do basic work activities (or residual functional capacity) and how changes in medical severity can affect your residual functional capacity. In determining whether medical improvement that has occurred is related to your ability to do work, we will assess your residual functional capacity (in accordance with paragraph (b)(1)(iv) of this section) based on the current severity of the impairment(s) which was present at your last favorable medical decision. 20 CFR 416.994(b)(2)(ii).

In this case, Petitioner underwent a medical evaluation on behalf of the Department on December 12, 2015. The evaluation does not indicate a decrease in medical severity based on improvement of Petitioner's symptoms.

As a result, the Department has not met its burden of proof. The Department has provided no evidence that indicates Petitioner's medical condition has improved or that any improvement relates to his ability to do basic work activities. The agency provided no objective medical evidence from qualified medical sources that show Petitioner is currently capable of doing basic work activities. Accordingly, the agency's SDA eligibility determination cannot be upheld at this time.

### **DECISION AND ORDER**

Accordingly, the Department's determination is **REVERSED**.

THE DEPARTMENT IS ORDERED TO INITIATE THE FOLLOWING, IN ACCORDANCE WITH DEPARTMENT POLICY AND CONSISTENT WITH THIS HEARING DECISION, WITHIN 10 DAYS OF THE DATE THE ORDER WAS ISSUED:
