[REDACTED]

Date Mailed: [REDACTED]
MAHS Docket No.: 16-003455
Agency No.: [REDACTED]
Petitioner: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

DECISION AND ORDER

After due notice, a hearing was held on [REDACTED]. Petitioner personally appeared and testified. The following individuals appeared as witnesses on behalf of Petitioner: [REDACTED] Community Health Worker; [REDACTED], and [REDACTED] Representing [REDACTED] HHS.

[REDACTED], Appeals Review Officer, represented the Respondent Department of Health and Human Services. [REDACTED], Adult Services Worker (ASW) appeared as a witness for the Respondent.

ISSUE:

Did the Respondent properly deny Petitioner's Home Help Services (HHS) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Petitioner is a [REDACTED] year - old male beneficiary of the welfare Medicaid and SSI programs.
2. On [REDACTED] the Respondent received a referral for the HHS program on behalf of Petitioner. Petitioner has had 2 previous denials - on [REDACTED] and [REDACTED] not at issue here. (Exhibit A.13).

3. On [REDACTED], the Respondent completed an initial assessment at Petitioner's residence pursuant to the instant case for the HHS program. Worker notes indicate that client was observed walking and appeared completely ambulatory, no assistive devices, was not wearing glasses. The ASW did not assess that Petitioner had any needs with any of his ADLs. The ASW did not rank Petitioner greater than a 2 in any category. (Exhibit A.10; Testimony).
4. On [REDACTED] the Respondent received a DHS-54A from Petitioner's physician pursuant to the current referral that does not indicate that physician is an MA enrolled provider. (Exhibit A.14).
5. On [REDACTED] the Respondent issued a notice of denial informing Petitioner that his referral for the HHS is being denied based on the ASW's assessment, and due to the DHS-54A not being certifiable. (Exhibit A.7).
6. On [REDACTED], Petitioner filed a Hearing Request. (Exhibit A.6).

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Medical Need Certification

Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional. Completed DHS-54A or Veterans Administration medical forms are acceptable for individual treated by a VA physician; see ASM 115, Adult Services Requirements.

Necessity for Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the respondent, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

*Adult Services Manual (ASM) 105,
11-1-2011, Pages 2-3 of 3*

Adult Services Manual (ASM) 120, 5-1-12, addresses the comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open**

Independent living services cases. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information must be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six-month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the respondent record.
 - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.
Performs the activity safely with no human assistance.
2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the respondent, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determined a need at a level 3 or greater. See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry

- 25 hours/month for meal preparation Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

*Adult Services Manual (ASM) 120, 5-1-2012,
Pages 1-5 of 5*

Adult Services Manual (ASM) 101, 11-1-11, addresses services not covered by HHS:

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping).
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.

- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

*Adult Services Manual (ASM) 101, 11-1-2011,
Pages 3-4 of 4.*

At hearing herein, Petitioner's DHS-54A-the Medical Needs Form was not reviewed in depth. However, ASM policy and procedure is quite specific as to what is required and what the contents of a DHS-54A must entail. This policy states in part:

**MEDICAL
NEEDS
FORM (DHS-
54A)**

The DHS-54A, Medical Needs form must be signed and dated by a medical professional certifying a medical need for personal care services. The medical professional must be an enrolled Medicaid provider and hold one of the following professional licenses:

Physician (M.D. or D.O.).
Nurse practitioner.
Occupational therapist
Physical therapist.

A physician assistant (PA) is not an enrolled Medicaid provider and **cannot** sign the DHS-54A.

The medical needs form is only required at the initial opening for SSI recipients and disabled adult children (DAC). All other Medicaid recipients must have a DHS-54A completed at the initial opening and annually thereafter.

The client is responsible for obtaining the medical certification of need but the form must be completed by the medical professional and not the client. The National Provider Identifier (NPI) number must be entered on the form by the medical provider and the medical professional must indicate whether they are a Medicaid enrolled provider.

The medical professional certifies that the client's need for service is related to an existing medical condition. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services specialist.

If the medical needs form has not been returned, the adult services specialist should follow-up with the client and/or medical professional.

Do **not** authorize home help services prior to the date of the medical professional signature on the DHS-54A.

The medical needs form does not serve as the application for services. If the signature date on the DHS-54 is **before** the date on the DHS-390, payment for home help services must begin on the date of the application. ASM 115, page 1 of 3. 5-1-2013 Effective Date.

Here, Respondent requests that the action be affirmed on the grounds that the Respondent cannot open an HHS unless an applicant's physician is an enrolled Medicaid provider, and the verification contain the necessary and correct documentation required by federal and state law. In addition, the ASW testified that based on the functional assessment, Petitioner was not eligible as there were no ADLs ranked at a 3 or greater that would trigger eligibility.

Petitioner argues that the forms were returned within the 45 day standard, that the physician is a Medicaid enrolled provider but forgot to provide the necessary verification on the form, and that the assessment was not correct.

After a careful review of the credible and substantial evidence of record, this Administrative Law Judge (ALJ) find that the Respondent correctly denied Petitioner's [REDACTED] referral for the reasons set forth below.

First, the ASW presented credible and substantial evidence of a functional assessment which Petitioner did not refute. While Petitioner may have needed some IADLs assistance, there must be an ADL that will trigger eligibility in order to have IADLs paid for. Even so, in the alternative, the DHS-54A is required to contain all necessary and complete documentation supplied and verified by the physician who signs the form. This ALJ has no authority to accept corrections such as a Medicaid Provider enrollee ID number at an administrative hearing and have that information relate back to the time of denial. Failure of the Department to have all required federal information in a beneficiary's file at the time that federal benefits are issued can subject the State of Michigan to significant financial penalties.

As to the time requirements, Petitioner confuses the 45 day standard of promptness with

the 21 day requirement to return forms requested by the Respondent. Petitioner failed to return required forms within the 21 day window.

The purview of an administrative law judge (ALJ) is to review the Respondent's action and to make a determination if those actions are in compliance with Respondent policy, and not contrary to law. The ALJ must base the hearing decision on the preponderance of the evidence offered at the hearing or otherwise included in the record. The ALJ at an administrative hearing must base a decision upon the evidence of record focusing at the time of the assessment. The Respondent cannot be held accountable for evidence it was unaware of at the time of its determination.

As the Respondent denial is consistent with policy and procedure, the ALJ must uphold the denial.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Respondent properly denied Petitioner's HHS application based on the available evidence.

IT IS THEREFORE ORDERED THAT:

The Administrative Law Judge, based on the above findings of fact and conclusions of law, decides that

The Department's decision is **AFFIRMED**.
