RICK SNYDER GOVERNOR

STATE OF MICHIGAN DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS MICHIGAN ADMINISTRATIVE HEARING SYSTEM Christopher Seppanen Executive Director

SHELLY EDGERTON DIRECTOR

Date Mailed: May 6, 2016 MAHS Docket No.: 16-004208

Agency No.: Petitioner:

ADMINISTRATIVE LAW JUDGE: Landis Lain

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Petitioner's request for a hearing.

After due notice, a hearing was held on	. Petitioner ,
Caregiver , and Provider f	rom Private Duty and Staffing
appeared to testify on behalf of the Petitione	, Appeals Review Officer;
, Adult Services Supervisor and	, Adult Services Specialist
appeared to represent and testify on beha	lf the Department of Health and Human
Services (Department or State).	

State's Exhibit A pages 1-46 were admitted as evidence.

ISSUE

Did the Department properly cancel Petitioner's Home Help Services (HHS)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

- Petitioner is a Medicaid beneficiary, Date of Birth Exhibit A page 14)
 Petitioner's Caregiver was paid for HHS performed until .
 Petitioner's HHS case was closed.
- 4. In Petitioner moved to

5.	, Petitioner moved to a new address (
6.	Petitioner moved to for three weeks.
7.	On Petitioner moved to
8.	On Private Duty Nursing and Staffing submitted a Medical Needs form for Petitioner.
9.	On the Department Caseworker conducted a home visit with Petitioner.
10.	On or about the Department caseworker sent Petitioner a Services Approval Notice stating that HHS had been approved with Provider effective north. (State's Exhibit A page 6)
11.	On, the Michigan Administrative Hearings system received a request for Hearing to contest the prior closing of the HHS and the amount of services provided. (State's Exhibit A page 7)

CONCLUSIONS OF LAW

The Medical Assistance Program (MA) is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a health professional and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 155, pages 1-2 addresses HHS home visit requirements:

Independent living services (home help) cases must be reviewed every six months. A face-to-face contact is required with the client, in the home.

A face-to-face or phone contact must be made with the provider at six month review and redetermination to verify services are being furnished.

Note: If contact is made by phone, the provider must offer identifying information such as date of birth and the last four digits of their social security number. A face-to-face interview

in the client's home or local DHS office must take place at the next review or redetermination.

Requirements for the review contact must include:

- A review of the current comprehensive assessment and service plan.
- Verification of the client's Medicaid eligibility, when home help services are being paid.
- Follow-up collateral contacts with significant others to assess their role in the case plan, if applicable.
- Review of client satisfaction with the delivery of planned services.
- Reevaluation of the level of care to assure there are no duplication of services.
- Contact must be made with the care provider, either by phone or face-to-face, to verify services are being provided.

Case documentation for all reviews must include:

- An update of the "Disposition" module in ASCAP.
- A review of **all** ASCAP modules with information updated as needed.
- A brief statement of the nature of the contact and who was present in the Contact Details module of ASCAP. A face-to-face contact entry with the client generates a case management billing.
- Documented contact with the home help provider.
- Expanded details of the contact in General Narrative, by clicking on Add to & GoTo Narrative button in Contacts module.
- A record summary of progress in service plan.

Procedures and case documentation for the annual review are the same as the six month review, with the following addition(s):

 A new DHS-54A certification, if home help services are being paid.

Note: The medical needs form for SSI recipients and Disabled Adult Children (DAC) is **only** required at the initial opening and is not required for the redetermination process. All other Medicaid recipients will need to have a DHS-54A completed at the initial opening and annually thereafter.

 Contact must be made with the care provider, either by phone or face-to-face, to verify services are being provided.

Petitioner conceded on the record that he had not received HHS services in the past six months because no one had come to his home to conduct an in-home visit.

The Department caseworker stated testified that she went to the house for a home visit and the first time, Petitioner was not at home. She suspended the payments and the case was closed for lack of a home visit. Petitioner did not testify that he filed a request for a hearing at that time.

Adult Services Manuals 120 (12-1-2013) (hereinafter "ASM 120") address the issues of what services are included in Home Help Services and how such services are assessed. Pertinent department policy states:

Home Help Payment Services

Home help services are non-specialized personal care service activities provided under the independent living services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

Home help services are defined as those tasks which the department is paying for through Title XIX (Medicaid) funds. These services are furnished to individuals who are **not** currently residing in a hospital, nursing facility, licensed foster care home/home for the aged, intermediate care facility (ICF) for persons with developmental disabilities or institution for mental illness.

These activities **must** be certified by a Medicaid enrolled medical professional and may be provided by individuals or by private or public agencies. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services specialist.

Adult Services Manual (ASM) 120

The DHS-324, Adult Services Comprehensive Assessment, is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information must be entered on the computer program.

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the department record.
 - •• Use the DHS-27, Authorization To Release Information, when requesting client information from another agency.
 - •• Use the DHS-1555, Authorization to Release Protected Health Information, if requesting

additional medical documentation. This form is primarily used for APS cases.

 Follow rules of confidentiality when home help cases have companion adult protective services cases; see SRM 131, Confidentiality. ASm 120, pages 1-2

The **Bridges Eligibility** module in **ASCAP** contains information pertaining to the client's type of assistance (TOA) eligibility, scope of coverage and level of care.

The **Medical** module in **ASCAP** contains information regarding the physician(s), diagnosis, other health issues, adaptive equipment, medical treatments and medications. The medical needs certification date is entered on the diagnosis tab, at initial certification and annually thereafter, if applicable; see ASM 115, Adult Services Requirements.

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal preparation and cleanup.
- Shopping.
- Laundry.
- Light housework.

Functional Scale

ADLs and IADLs are assessed according to the following five point scale:

1. Independent.

Performs the activity safely with no human assistance.

Verbal assistance.

Performs the activity with verbal assistance such as reminding, guiding or encouraging.

3. Some human assistance.

Performs the activity with some direct physical assistance and/or assistive technology.

4. Much human assistance.

Performs the activity with a great deal of human assistance and/or assistive technology.

5. Dependent.

Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the level 3 ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services if assessed at a level 3 or greater.

Example: Ms. Smith is assessed at a level 4 for bathing. However, she refuses to receive assistance or her daughter agrees to assist her at no charge. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

Note: If an individual uses adaptive equipment to assist with an ADL, and without the use of this equipment the person would require hands-on care, the individual must be ranked a level 3 or greater on the functional assessment. This individual would be eligible to receive home help services.

Example: Mr. Jones utilizes a transfer bench to get in and out of the bathtub, which allows him to bathe himself without the hands-on assistance of another. The adult services specialist must rank Mr. Jones a 3 or greater under the functional assessment. Mr. Jones would be eligible to receive home help services.

Assistive technology includes such items as walkers, wheelchairs, canes, reachers, lift chairs, bath benches, grab bars and hand held showers.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Complex Care Needs

Complex care refers to conditions requiring intervention with special techniques and/or knowledge. These complex care tasks are performed on client's whose diagnoses or conditions require more management. The conditions may also require special treatment and equipment for which specific instructions by a health professional or client may be required in order to perform.

- Eating and feeding.
- Catheters or legs bags.
- Colostomy care.
- Bowel program.
- Suctioning.
- Specialized skin care.
- Range of motion exercises.
- Peritoneal dialysis.
- Wound care.
- Respiratory treatment.
- Ventilators.
- Injections.

When assessing a client with complex care needs, refer to the complex care guidelines on the adult services home page.

The specialist will allocate time for each task assessed a rank of 3 or greater, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS, a rationale **must** be provided.

An assessment of need, at a ranking of 3 or greater, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The**

specialist must assess each task according to the actual time required for its completion.

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living (IADL) except medication. The limits are as follows:

- Five hours/month for shopping.
- Six hours/month for light housework.
- Seven hours/month for laundry.
- 25 hours/month for meal preparation.

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoined apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

Expanded home help services (EHHS) exists if all basic home help services eligibility criteria are met and the assessment indicates the client's needs are so extensive that the cost of care cannot be met within the monthly maximum payment level of \$\frac{1}{2}\$.

In the instant case, On assessment, the caseworker arrived at the home for an assessment. The Petitioner allowed her to conduct the assessment. He ambulated without an assistive device. The home was untidy. Petitioner reported no hospitalization

in the past six months. He stated that he has diagnoses of obstructive sleep apnea, lower back pain, severe neuropathy and cervical neuropathy, right and left foot drop and bilateral carpel tunnel. He noted that he uses medical marijuana for pain. He uses a C-pap machine and he lost his cane. He requested services seven days a week for bathing, grooming, dressing and transferring. The caseworker observed Petitioner go up and down stairs without assistance. He reported that his hands get stiff so he needs assistance with housework. He can fold clothes but not carry them up and down stairs. He drops pots and pans. (State's Exhibit A pages 15-16)

This Administrative Law Judge finds that the Department representative provided detailed, credible evidence and testimony that the caseworker followed Department policy and procedure when she attempted to conduct a required home visit for purposes of HHS redetermination. This Administrative Law Judge finds that Petitioner conceded on the record that he was not available to complete the home visit on the date the caseworker came to the home. There is no requirement in policy that Petitioner must be given a second opportunity to conduct the in-home assessment. The worker was unable to complete the HHS in home assessment before the certification period ended.

Home Help Services cannot be authorized prior to completing a face-to-face assessment with the client. Petitioner was not available for the entire home visit. Petitioner/Provider did not establish credibly that he rescheduled the home visit and was available for the rescheduled home visit. The Department has established by the necessary competent, material and substantial evidence on the record that it was acting in compliance with Department policy when it cancelled Petitioner's HHS benefits based upon its determination that Petitioner was not available for the scheduled HHS home visit. Petitioner's Request for Hearing on that issue does not appear to be timely but the evidence on the record was insufficient to make such a determination. The Department's decision to cancel Petitioner's HHS case and to subsequently approve, the second application for HHS with a reduced benefit must be upheld.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that, based on the available information, the Department did properly deny Petitioner's HHS application. The Department did properly cancel Petitioner HHS case. The Department did properly open a HHS case and appropriately determined the amount of HHS benefits that Petitioner is entitled to, based upon the evidence on the record.

IT IS THEREFORE ORDERED THAT:

The Department's decision is **AFFIRMED**.

LL/

Administrative Law Judge for Nick Lyon, Director

Department of Health and Human Services

NOTICE OF APPEAL: A party may appeal this Order in circuit court within 30 days of the receipt date. A copy of the circuit court appeal must be filed with the Michigan Administrative Hearing System (MAHS).

A party may request a rehearing or reconsideration of this Order if the request is received by MAHS within 30 days of the date the Order was issued. The party requesting a rehearing or reconsideration must provide the specific reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration.

A written request may be mailed or faxed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088; Attention: MAHS Rehearing/Reconsideration Request.

If submitted by mail, the written request must be addressed as follows:

Michigan Administrative Hearings Reconsideration/Rehearing Request P.O. Box 30763 Lansing, Michigan 48909-8139
