[REDACTED]

ADMINISTRATIVE LAW JUDGE: Vicki L. Armstrong

HEARING DECISION

Following Petitioner's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250; and 45 CFR 205.10. After due notice, a telephone hearing was held on March 1, 2016, from Lansing, Michigan. Petitioner personally appeared and testified. The Department of Health and Human Services (Department) was represented by Hearing Facilitator [REDACTED]

ISSUE

Whether the Department properly determined that Petitioner was no longer disabled for the State Disability Assistance (SDA) program?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. Petitioner was an SDA benefit recipient and her benefits case was scheduled for review in February, 2015.
2. In January, 2015, Petitioner filed a Redetermination for SDA benefits alleging continued disability.
3. On November 10, 2015, the Medical Review Team denied Petitioner's redetermination indicating that she was capable of performing other work. (Dept Exh. A, pp 181-186).
4. On January 5, 2016, Petitioner submitted a hearing request contesting the Department's negative action.

5. Petitioner has a history of coronary artery disease with secondary blockage, a stroke in 2009, five transient ischemic attacks in 2009, one transient ischemic attack in 2011, active angina, tachycardia, complicated migraine, hypothyroid, depression, anxiety, posttraumatic stress disorder, endometriosis, irritable bowel syndrome, gastroesophageal reflux syndrome, stress seizures, seasonal allergies, insomnia, arthritis and lupus.
6. Petitioner credibly testified that she had four stents in 2009, one stent in 2012 and two stents in February, 2016.
7. On August 20, 2015, Petitioner was referred for a psychological evaluation by the Department to determine Petitioner's eligibility for benefits. [REDACTED] opined that due to the complicated nature of Petitioner's health problems as well as her depression, the prognosis appears to be guarded. The psychologist noted that Petitioner should be able to carry out simple instructions but will likely have difficulty completing a normal workday without disruptions from psychologically based problems, as well as her health problems. [REDACTED] indicated she may have difficulties tolerating the usual level of work or everyday stress. The psychologist suspected that there may be a tendency for Petitioner to translate stress into physical problems. (Dept Exh. pp 173-180).
8. Petitioner is a [REDACTED]-year-old woman whose birthday is [REDACTED]. She is 5'6" and weighs 194 pounds. Petitioner has a high school education and last worked in November, 2009.
9. Petitioner was appealing the denial of Social Security disability benefits at the time of the hearing.

CONCLUSIONS OF LAW

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Health and Human Services Reference Tables Manual (RFT).

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

Current legislative amendments to the Act delineate eligibility criteria as implemented by department policy set forth in program manuals. 2004 PA 344, Sec. 604, establishes the State Disability Assistance program. It reads in part:

Sec. 604 (1) The department shall operate a state disability assistance program. Except as provided in subsection (3), persons eligible for this program shall include needy citizens of the United States or aliens exempt from the Supplemental Security Income citizenship requirement who are at least 18 years of age or emancipated minors meeting one or more of the following requirements:

(b) A person with a physical or mental impairment which meets federal SSI disability standards, except that the minimum duration of the disability shall be 90 days. Substance abuse alone is not defined as a basis for eligibility.

Specifically, this Act provides minimal cash assistance to individuals with some type of severe, temporary disability which prevents him or her from engaging in substantial gainful work activity for at least ninety (90) days.

Pursuant to the federal regulations at 20 CFR 416.994, once a client is determined eligible for disability benefits, the eligibility for such benefits must be reviewed periodically. Before determining that a client is no longer eligible for disability benefits, the agency must establish that there has been a medical improvement of the client's impairment that is related to the client's ability to work. 20 CFR 416.994(b)(5).

To assure that disability reviews are carried out in a uniform manner, that a decision of continuing disability can be made in the most expeditious and administratively efficient way, and that any decisions to stop disability benefits are made objectively, neutrally, and are fully documented, we will follow specific steps in reviewing the question of whether your disability continues. Our review may cease and benefits may be continued at any point if we determine there is sufficient evidence to find that you are still unable to engage in substantial gainful activity. 20 CFR 416.994(b)(5).

The first question asks:

(i) Are you engaging in substantial gainful activity? If you are (and any applicable trial work period has been completed), we will find disability to have ended (see paragraph (b)(3)(v) of this section).

Petitioner is not disqualified from this step because she has not engaged in substantial gainful activity at any time relevant to this matter. Furthermore, the evidence on the record fails to establish that Petitioner has a severe impairment which meets or equals a listed impairment found at 20 CFR 404, Subpart P, Appendix 1. Therefore, the analysis continues. 20 CFR 416.994(b)(5)(ii).

The next step asks the question if there has been medical improvement. Medical improvement is any decrease in the medical severity of your impairment(s) which was present at the time of the most recent favorable medical decision that you were disabled or continued to be disabled. A determination that there has been a decrease in medical severity must be based on changes (improvement) in the symptoms, signs and/or laboratory findings associated with your impairment(s). 20 CFR 416.994(b)(1)(i).

If there is a decrease in medical severity as shown by the symptoms, signs and laboratory findings, we then must determine if it is related to your ability to do work. In paragraph (b)(1)(iv) of this section, we explain the relationship between medical severity and limitation on functional capacity to do basic work activities (or residual functional capacity) and how changes in medical severity can affect your residual functional capacity. In determining whether medical improvement that has occurred is related to your ability to do work, we will assess your residual functional capacity (in accordance with paragraph (b)(1)(iv) of this section) based on the current severity of the impairment(s) which was present at your last favorable medical decision. 20 CFR 416.994(b)(2)(ii).

The State Hearing Review Team denied Petitioner's redetermination of SDA benefits on the basis that Petitioner was capable of performing other work. That is not the standard. In addition, the Department referred Petitioner to an independent psychologist who opined that due to the complicated nature of her health problems as well as her depression, Petitioner's prognosis appears to be guarded. SHRT listed the psychologist's name, but did not note the psychologist's opinion. Moreover, since the redetermination, Petitioner has had two more stents implanted.

Pursuant to the federal regulations, at medical review the agency has the burden of not only proving Petitioner's medical condition has improved, but that the improvement relates to the client's ability to do basic work activities. The agency has the burden of establishing that Petitioner is currently capable of doing basic work activities based on objective medical evidence from qualified medical sources. 20 CFR 416.994(b)(5).

In this case, the Department has not met its burden of proof. The agency has provided no evidence that indicates Petitioner's condition has improved, especially in lieu of the evidence showing her condition has worsened. Moreover, the agency provided no objective medical evidence from qualified medical sources that show Petitioner is currently capable of doing basic work activities. Accordingly, the Department's SDA eligibility determination cannot be upheld at this time.

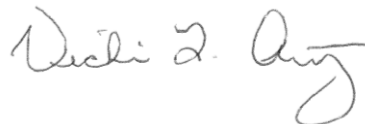

DECISION AND ORDER

Accordingly, the Department's determination is **REVERSED**.

THE DEPARTMENT IS ORDERED TO INITIATE THE FOLLOWING, IN ACCORDANCE WITH DEPARTMENT POLICY AND CONSISTENT WITH THIS HEARING DECISION, WITHIN 10 DAYS OF THE DATE THE ORDER WAS ISSUED:

1. The Department shall process Petitioner's January, 2015 SDA redetermination, and shall award her all the benefits she may be entitled to receive, as long as she meets the remaining financial and non-financial eligibility factors.
2. The Department shall review Petitioner's medical condition for improvement in March, 2017, unless her Social Security Administration disability status is approved by that time.
3. The Department shall obtain updated medical evidence from Petitioner's treating physicians, physical therapists, pain clinic notes, etc. regarding her continued treatment, progress and prognosis at review.

IT IS SO ORDERED.

VA/db

Vicki L. Armstrong
Administrative Law Judge
for Nick Lyon, Director
Department of Health and Human Services

NOTICE OF APPEAL: A party may appeal this Order in circuit court within 30 days of the receipt date. A copy of the circuit court appeal must be filed with the Michigan Administrative Hearing System (MAHS).

A party may request a rehearing or reconsideration of this Order if the request is received by MAHS within 30 days of the date the Order was issued. The party requesting a rehearing or reconsideration must provide the specific reasons for the request. MAHS will not review any response to a request for rehearing/reconsideration.

A written request may be mailed or faxed to MAHS. If submitted by fax, the written request must be faxed to (517) 335-6088; Attention: MAHS Rehearing/Reconsideration Request.

If submitted by mail, the written request must be addressed as follows:
