Petitioner: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

Issued and entered
this [REDACTED] day of [REDACTED]
by:
Janice Spodarek
Administrative Law Judge

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Petitioner's request for a hearing.

After due notice, a telephone conference hearing was held on [REDACTED]. Petitioner personally appeared and testified. [REDACTED] appeared as a witness.

[REDACTED], Appeals Review Officer, represented the Respondent. [REDACTED] Adult Services Worker ("ASW"), and [REDACTED], Adult Services Supervisor, (ASS), appeared as witnesses for the Respondent.

ISSUE

Did the Respondent properly close the Petitioner's Home Help Services ("HHS") case on the grounds that Petitioner no longer had an activity of daily living (ADL) rating of 3 or more at review?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. At all relevant times, Petitioner has been and continues to be a beneficiary of the Medicaid and SSI programs. Petitioner is a [REDACTED] year old female.

2. At all relevant times, Petitioner has had an open HHS case with the following impairments: close memitorium, intracardia shunt, and antiplatelet therapy.
3. Petitioner's HHS was assessed at redetermination on [REDACTED]. Respondent notes from the redetermination states Petitioner denied any hospitalization or changes to her needs; observed moving freely without any medical adaptive equipment.
4. On [REDACTED] the Respondent issued an Advance Negative Action Notice informing Petitioner that his HHS case will close on the grounds that the comprehensive assessment did not identify a need for hands-on assistance with any of the qualifying ADLs. (Exhibit A.2).
5. On [REDACTED], Petitioner filed a Hearing Request. (Exhibit A.4).

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Medical Need Certification

Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional. Completed DHS-54A or veterans administration medical forms are acceptable for individual treated by a VA physician; see ASM 115, Adult Services Requirements.

Necessity for Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the Respondent, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

*Adult Services Manual (ASM) 105,
11-1-2011, Pages 2-3 of 3*

Adult Services Manual (ASM) 120, 5-1-12, addresses the comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the

format for the comprehensive assessment and all information must be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six-month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the Respondent record.
 - Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.
Performs the activity safely with no human assistance.
2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the Respondent, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP under the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

*Adult Services Manual (ASM) 120, 5-1-2012,
Pages 1-5 of 5*

Adult Services Manual (ASM) 101, 11-1-11, addresses services not covered by HHS:

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping).
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.
- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.

- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

*Adult Services Manual (ASM) 101, 11-1-2011,
Pages 3-4 of 4.*

Here, the ASW testified that her full assessment did not show a need for any ADLs on the basis of Petitioner's representations. The Respondent's witness also testified that the 54-As were inconsistent but that ultimate discretion resides with the ASW who conducts the functional assessment.

Petitioner argued at the administrative hearing "I still need help doing things." Petitioner did not dispute the facts.

The purview of an administrative law judge (ALJ) is to review the Respondent's action and to make a determination if those actions are in compliance with Respondent policy, and not contrary to law. The ALJ must base the hearing decision on the preponderance of the evidence offered at the hearing or otherwise included in the record. The ALJ at an administrative hearing must base a decision upon the evidence of record focusing at the time of the assessment. The Respondent cannot be held accountable for evidence it was unaware of at the time of its determination.

State policy gives an ASW extraordinary discretion to make assessments based on the face-to-face interview and interview(s) regarding functional abilities. While many individuals have needs for many IADLs, and justifiably so, without at least one ADL ranked at a level 3, there can be no eligibility for the program at all (pursuant to policy implemented in [REDACTED]). This discretion given to an ASW is based on the in-person observational deference given to an ASW making an assessment; the discretion can override a beneficiary's physician.

After a careful review of the credible and substantial evidence of the whole record, this ALJ finds that the evidence used by the Respondent in closing Petitioner's case is supported by credible and substantial evidence of record. Petitioner did not dispute the facts. Thus, for these reasons and for the reasons stated above, the Respondent's closure must be upheld.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Respondent properly closed Petitioner's HHS case based on the information available.

IT IS THEREFORE ORDERED THAT:

The Respondent's decision is **AFFIRMED**.
