Date Mailed: [REDACTED]
MAHS Docket No.: 16-004158
Agency No.: [REDACTED]
Petitioner: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon the Petitioner's request for a hearing.

After due notice, a hearing was held on [REDACTED]. Petitioner personally appeared and testified.

[REDACTED], Appeals Review Officer, represented the Michigan Department of Health and Human Services (Department or Respondent). [REDACTED], Adult Services Worker, (ASW), appeared as a witness on behalf of the Respondent.

ISSUE

Did the Respondent properly deny Petitioner's Home Help Services ("HHS") referral?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Petitioner is a [REDACTED] year - old male who is a beneficiary of the Medicaid program.
2. On [REDACTED] the Respondent received a referral for the HHS program on behalf of Petitioner. (Exhibit A.8).

3. On [REDACTED] the Respondent received the DHS-390 Adult Services Application from Petitioner. On page 2, Petitioner indicated that he lives with his spouse, and, that his spouse is not disabled. (Exhibit A.9-10).
4. On [REDACTED] the Respondent conducted an in-home assessment pursuant to the referral for Petitioner's HHS case. Petitioner was present and walked to the door and allowed the ASW to enter the home. Petitioner walked to the back of the house to gather medications; no adaptive equipment was used or observed in the home. Petitioner requested assistance with IADLs; did not request assistance with hands on tasks. Reports that can groom and dress self, and prepare some meals on his own. Also reported that his spouse is at work in the daytime so he needs a housekeeper while she is at work. (Exhibit A.14; Testimony).
5. On [REDACTED] the Respondent issued an Advance Negative Action Notice that Petitioner's HHS case will be denied on the grounds that client lives with his wife and she is not disabled. (Exhibit A.7).
6. On [REDACTED] Petitioner filed a hearing request. (Exhibit A.6).

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 101, 11-1-11, addresses HHS payments:

Payment Services Home Help

Home help services are non-specialized personal care service activities provided under the independent living services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

*Adult Services Manual (ASM) 101,
11-1-2011, Page 1 of 4.*

Adult Services Manual (ASM) 105, 11-1-11, addresses HHS eligibility requirements:

Requirements

Home help eligibility requirements include all of the following:

- Medicaid eligibility.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment (DHS-324) indicating a functional limitation of level 3 or greater for activities of daily living (ADL).
- Appropriate Level of Care (LOC) status.

Necessity for Service

The adult services specialist is responsible for determining the necessity and level of need for home help services based on:

- Client choice.
- A completed DHS-324, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the respondent, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's if the assessment determines a need at a level 3 or greater.

- Verification of the client's medical need by a Medicaid enrolled medical professional via the DHS-54A. The client is responsible for obtaining the medical certification of need; see ASM 115, Adult Services Requirements.

*Adult Services Manual (ASM) 105,
11-1-2011, Pages 1-3 of 3*

Adult Services Manual (ASM 120, 5-1-2012), pages 1-4 of 5 addresses the adult services comprehensive assessment:

INTRODUCTION

The DHS-324, Adult Services Comprehensive Assessment is the primary tool for determining need for services. The comprehensive assessment must be completed on **all open independent living services cases**. ASCAP, the automated workload management system, provides the format for the comprehensive assessment and all information will be entered on the computer program.

Requirements

Requirements for the comprehensive assessment include, but are not limited to:

- A comprehensive assessment will be completed on all new cases.
- A face-to-face contact is required with the client in his/her place of residence.
- The assessment may also include an interview with the individual who will be providing home help services.
- A new face-to-face assessment is required if there is a request for an increase in services before payment is authorized.
- A face-to-face assessment is required on all transfer-in cases before a payment is authorized.
- The assessment must be updated as often as necessary, but minimally at the six month review and annual redetermination.
- A release of information must be obtained when requesting documentation from confidential sources and/or sharing information from the respondent record.

- Use the DHS-27, Authorization to Release Information, when requesting client information from another agency.
 - Use the DHS-1555, Authorization to Release Protected Health Information, if requesting additional medical documentation; see RFF 1555. The form is primarily used for APS cases.
- Follow rules of confidentiality when home help cases have companion APS cases, see SRM 131 Confidentiality.

Functional Assessment

The **Functional Assessment** module of the **ASCAP** comprehensive assessment is the basis for service planning and for the home help services payment.

Conduct a functional assessment to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent.
Performs the activity safely with no human assistance.
2. Verbal Assistance.
Performs the activity with verbal assistance such as reminding, guiding or encouraging.
3. Some Human Assistance.
Performs the activity with some direct physical assistance and/or assistive technology.
4. Much Human Assistance.
Performs the activity with a great deal of human assistance and/or assistive technology.
5. Dependent.
Does not perform the activity even with human assistance and/or assistive technology.

Home help payments may only be authorized for needs assessed at the 3 level ranking or greater.

An individual must be assessed with at least one activity of daily living in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the respondent, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADLs if the assessment determined a need at a level 3 or greater.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Time and Task

The specialist will allocate time for each task assessed a rank of 3 or higher, based on interviews with the client and provider, observation of the client's abilities and use of the reasonable time schedule (RTS) as a **guide**. The RTS can be found in ASCAP **under** the Payment module, Time and Task screen. When hours exceed the RTS rationale **must** be provided.

An assessment of need, at a ranking of 3 or higher, does not automatically guarantee the maximum allotted time allowed by the reasonable time schedule (RTS). **The specialist must assess each task according to the actual time required for its completion.**

Example: A client needs assistance with cutting up food. The specialist would only pay for the time required to cut the food and not the full amount of time allotted under the RTS for eating.

IADL Maximum Allowable Hours

There are monthly maximum hour limits on all instrumental activities of daily living except medication. The limits are as follows:

- Five hours/month for shopping
- Six hours/month for light housework
- Seven hours/month for laundry
- 25 hours/month for meal preparation

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

Note: This does not include situations where others live in adjoining apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Example: Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

*Adult Services Manual (ASM) 120, 5-1-2012,
Pages 1-5 of 5*

Certain services are not covered by HHS. ASM 101 provides a listing of the services not covered by HHS.

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping).

- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.
- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

*Adult Services Manual (ASM) 101, 11-1-2011,
Pages 3-4 of 4.*

ASM 115 discusses the medical needs for, the DHS-54A. Applicable to the case here, that item states in part:

**MEDICAL
NEEDS
FORM
(DHS-54A)**

The DHS-54A, Medical Needs form must be signed and dated by a medical professional certifying a medical need for personal care services. The medical professional must be an enrolled Medicaid provider and hold one of the following professional licenses:

Physician (M.D. or D.O.).
Physician assistant.
Nurse practitioner.
Occupational therapist
Physical therapist.

The medical needs form is only required at the initial opening for SSI recipients and disabled adult children (DAC). All other Medicaid recipients must have a DHS-54A completed at the initial opening and annually thereafter.

The client is responsible for obtaining the medical certification of need but the form must be completed by the medical professional and not the client. The National Provider Identifier (NPI) number must be entered on the form by the medical provider and the medical professional must indicate whether they are a Medicaid enrolled provider.

The medical professional certifies that the client's need for service is related to an existing medical condition. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services specialist.

If the medical needs form has not been returned, the adult services specialist should follow-up with the client and/or medical professional. Page 1-2.

ASM 120 further discusses proration of IADLs and responsible relatives in the home:

Proration of IADLs

If the client does not require the maximum allowable hours for IADLs, authorize only the amount of time needed for each task. Assessed hours for IADLs (except medications) must be prorated by **one half** in shared living arrangements where other adults reside in the home, as home help services are **only** for the benefit of the client.

This does not include situations where others live in adjoined apartments/flats or in a separate home on shared property and there is no shared, common living area.

In shared living arrangements, where it can be **clearly** documented that IADLs for the eligible client are completed separately from others in the home, hours for IADLs do not need to be prorated.

Client has special dietary needs and meals are prepared separately; client is incontinent of bowel and/or bladder and laundry is completed separately; client's shopping is completed separately due to special dietary needs and food is purchased from specialty stores; etc.

Responsible Relatives

A responsible relative is defined as an individual's spouse or a parent of an unmarried child under age 18.

Activities of daily living (ADL) may be approved when the responsible relative is **unavailable** or **unable** to provide these services.

Unavailable means absence from the home for an extended period due to employment, school or other legitimate reasons. The responsible relative must provide a work or school schedule to verify they are unavailable to provide care. **Unable** means the responsible person has disabilities of their own which prevent them from providing care. These disabilities must be documented and verified by a medical professional on the DHS-54A, Medical Needs form.

Do **not** approve shopping, laundry, or light housecleaning, when a responsible relative of the client resides in the home, **unless** they are unavailable or unable to provide these

services. Document findings in the general narrative in ASCAP.

Mrs. Smith is in need of home help services. Her spouse is employed and is out of the home Monday thru Friday from 7a.m. to 7p.m. The specialist would not approve hours for shopping, laundry or house cleaning as Mr. Smith is responsible for these tasks.

Mrs. Jones is in need of home help services. Her spouse's employment takes him out of town Monday thru Saturday. The specialist may approve hours for shopping, laundry or house cleaning. Pages 5-7.

Here, Petitioner's spouse is classified as a responsible relative. Under policy cited above, and federal law, the Respondent is not allowed to issue Medicaid monies for the HHS program when there is a responsible relative in the home unless there is evidence that the responsible relative meets the definition of "unavailable".

Here, Petitioner argues that he is not married, and that the woman that he lives with is his girlfriend. Petitioner further argued upon questioning that he understood the meaning of the term "spouse" to be his girlfriend.

The purview of an administrative law judge (ALJ) is to review the Department's action and to make a determination if those actions are in compliance with Department policy, and not contrary to law. The ALJ must base the hearing decision on the preponderance of the evidence offered at the hearing or otherwise included in the record. The ALJ at an administrative hearing must base a decision upon the evidence of record focusing at the time of the assessment. The Department cannot be held accountable for evidence it was unaware of at the time of its determination

After a careful review of the credible and substantial evidence on the whole records, this ALJ finds that the Department's actions were in compliance with its policy, and supported by the documentary and testimonial evidence taken as a whole. Petitioner did not meet his burden of proof to show that the Department did not act correctly based on these facts. The Department was required by federal and state law to deny a referral where there is an able bodied spouse in the home who does not meet the definition of unavailable above. Petitioner's position regarding the meaning of the term 'spouse' could be taken as somewhat credible, however, the overall evidence and testimony herein weighs in favor of the Department. As such, the Department's actions must be upheld based on the available evidence at the time the Department took its action.

It is noted that Petitioner's complaint about the conduct of a state employee is not a reviewable issue at an administrative hearing. Petitioner may file a complaint at the local DHS office, and/or with the central office in Lansing, Michigan.

Petitioner understands that he may reapply.

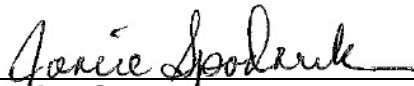

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Respondent's denial of Petitioner's HHS referral was consistent with its policy and procedure based on the available evidence, and,

IT IS THEREFORE ORDERED THAT:

The Department's decision is **AFFIRMED**.
