HEARING DECISION FOR INTENTIONAL PROGRAM VIOLATION AND OVERISSUANCE

Upon the request for a hearing by the Michigan Department of Health and Human Services (MDHHS), this matter is before the undersigned administrative law judge pursuant to MCL 400.9, and in accordance with Titles 7, 42 and 45 of the Code of Federal Regulation (CFR), particularly 7 CFR 273.16 and 45 CFR 235.110; and with Mich Admin Code, R 400.3130 and 400.3178. After due notice, a telephone hearing was held on ________ from Detroit, Michigan. The Michigan Department of Health and Human Services (MDHHS) was represented by _______, regulation agent for the Office of Inspector General. Respondent appeared and was unrepresented.

ISSUES

The first issue is whether MDHHS established Respondent received an overissuance (OI) of benefits.

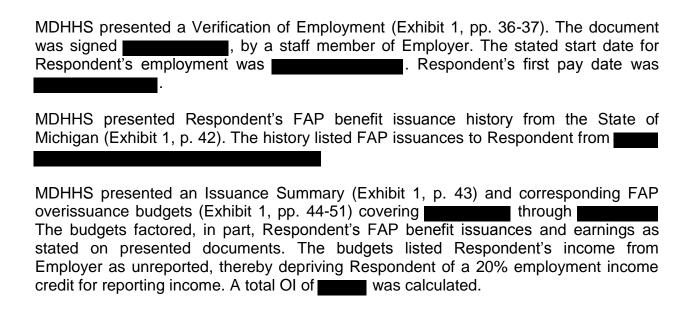

The second issue is whether MDHHS established that Respondent committed an intentional program violation (IPV).

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

- 1. Respondent was an ongoing recipient of Food Assistance Program (FAP) benefits from the State of Michigan.
- 2. Beginning Respondent began receiving employment income from an employer (hereinafter "Employer").

3.	Respondent failed to report employment income from Employer to MDHHS.
	Respondent's failure to report income was not clearly and convincingly purposeful.
	From Respondent received an OI of FAP benefits
	On MDHHS requested a hearing to establish Respondent committed an IPV and received an OI of in FAP benefits for the months from

the estimated amount is less than \$250 per program. BAM 700, p. 9.

The above policy allows MDHHS to pursue an OI no matter which party was at fault.

MDHHS policy categorizes overissuances into 3 different types: client error, agency error, and intentional fraud (see BAM 700). Client and Agency errors are not pursued if

The OI budgets, as presented, can only be found accurate if it is found Respondent is at fault for the OI.

Respondent testimony admitted he did not report employment income to MDHHS. The concession justifies finding that MDHHS properly denied crediting Respondent with a 20% credit for reporting income.

Presented evidence sufficiently verified Respondent's lack of reporting caused an OI of during the alleged OI period. The analysis will proceed to determine if Respondent's non-reporting amounted to an IPV.

The Code of Federal Regulations defines an IPV. Intentional program violations shall consist of having intentionally: (1) made a false or misleading statement, or misrepresented, concealed or withheld facts; or (2) committed any act that constitutes a violation of the Food Stamp Act, the Food Stamp Program Regulations, or any State statute for the purpose of using, presenting, transferring, acquiring, receiving, possessing or trafficking of coupons, authorization cards or reusable documents used as part of an automated benefit delivery system. 7 CFR 273.16 (c).

[An IPV is a] benefit overissuance resulting from the willful withholding of information or other violation of law or regulation by the client or his authorized representative. Bridges Program Glossary (October 2015), p. 36. A suspected IPV means an OI exists for which all three of the following conditions exist:

- The client intentionally failed to report information or intentionally gave incomplete or inaccurate information needed to make a correct benefit determination, and
- The client was clearly and correctly instructed regarding his or her reporting responsibilities, and
- The client has no apparent physical or mental impairment that limits his or her understanding or ability to fulfill their reporting responsibilities.

BAM 720 (January 2016), p. 1; see also 7 CFR 273(e)(6).

IPV is suspected when there is **clear and convincing** [emphasis added] evidence that the client or CDC provider has intentionally withheld or misrepresented information for the purpose of establishing, maintaining, increasing or preventing reduction of program benefits or eligibility. *Id.* Clear and convincing evidence is evidence sufficient to result in a clear and firm belief that the proposition is true. See M Civ JI 8.01. It is a standard which requires reasonable certainty of the truth; something that is highly probable. Black's Law Dictionary 888 (6th ed. 1990).

MDHHS presented Respondent's application for FAP benefits (Exhibit 1, pp. 11-28). Respondent's signature was electronically-signed on application stated Respondent's signature was certification of an understanding of a responsibility to report changes to MDHHS within 10 days. MDHHS did not allege that the application reported misinformation.

MDHHS alleged Respondent failed to report employment information to MDHHS for the purpose of receiving FAP benefits to which Respondent was not entitled; this was established. MDHHS also contended the failure was purposeful and intentional.

Respondent's failure to report employment information could reasonably be explained by Respondent forgetting to report information, as stated by Respondent. Though MDHHS demonstrated Respondent was advised of reporting requirements at application it does not ensure that a client would not accidentally forget.

MDHHS did not present written statements from Respondent which contradicted known facts resulting in a MDHHS policy violation and OI of FAP benefits. Generally, MDHHS will have difficulty in establishing a clear and convincing purposeful failure to report without such evidence.

It is found MDHHS failed to clearly and convincingly establish that Respondent committed an IPV. Accordingly, it is found MDHHS may not proceed with disqualifying Respondent from benefit eligibility.
