HEARING DECISION

Following Petitioner's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250. After due notice, an administrative hearing was held on 3/15/18, with the Administrative Law Judge (ALJ) initiating a conference call from [REDACTED] Michigan. All other parties appeared in-person at the [REDACTED] Department of Health and Human Services (Department). Petitioner appeared and testified. The Respondent was represented by [REDACTED] [REDACTED]

ISSUE

Whether the Department properly determined that Petitioner was not disabled for purposes of the State Disability Assistance (SDA) program?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On 9/29/17 Petitioner applied for SDA, a cash benefit program based on disability, with the Michigan Department of Health and Human Services.
2. Petitioner is a beneficiary of the Medicaid program and receives medical benefits under the Healthy Michigan Plan (HMP).
3. On 1/31/18 the Medical Review Team (MRT) denied.
4. On 2/1/18 the Department issued notice, and on 2/5/18 Petitioner filed a timely hearing request.

5. On 1/20/17 Petitioner has had a final determination by SSA for an SSI application at reconsideration. The SSA denied Petitioner's request for reconsideration. On 9/26/17 Petitioner reapplied. Petitioner is waiting for a hearing. Exhibit A.15.
6. As of the date of application, Petitioner was a [REDACTED]-year-old, standing 6' 1" tall and weighing 285 pounds. Petitioner's Body Mass Index (BMI) is 37.6, classifying Petitioner as "overweight" under the BMI.
7. Petitioner testified to no alcohol/drug abuse. Petitioner testified that he has a significant history of abuse.
8. Petitioner smokes. Petitioner has a nicotine addiction.
9. Petitioner does not have a driver's license due to "suspended tickets."
10. Petitioner has 13 years of education. Petitioner attended [REDACTED]
11. Petitioner is not currently working. Petitioner last worked from 1988 to 1992 as a security guard; shop worker labor 1992 – 1993. Petitioner was incarcerated at [REDACTED] from [REDACTED]; 1 [REDACTED]. Petitioner further testified that he was in jail for 8 months in 2017.
12. On or about 10/20/16 Petitioner was awarded \$ [REDACTED] for a law suit related to "a beating by police officers." Ex A.15-16.
13. Petitioner alleges disability based on mental impairments: bipolar, manic depressive, PTSD, schizophrenic. Ex A.15.
14. A psychological evaluation by [REDACTED], concludes that Petitioner's overall presentation pursuant to the exam was largely unremarkable; appeared pleasant with functional cognitive and adaptive abilities and no overissues regarding social/emotional functioning. Overall, no overt barriers to work related behaviors.
15. Petitioner did not present any additional medical evidence other than those collected and contained in the Respondent's evidentiary packet.
16. The MRT findings and conclusions are adopted and incorporated by reference herein. Specifically, MRT concluded that Petitioner's alleged impairments do not meet severity.
17. Petitioner did not present evidence of severe impairments that interfere with the ability to engage with activities of daily living (ADL).
18. Petitioner testified to the ability to fix food, do light housework, laundry.
19. Petitioner testified that he does not need any assistance with his bathroom and grooming needs.

20. Petitioner did not present evidence of exercising
21. Petitioner could not identify any exhibits in the medical packet as medical evidence to support a claim of disability due to the inability to work.

CONCLUSIONS OF LAW

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Health and Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

For the SDA program, the Department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1.

As to the disability assessment, the State of Michigan follows the general guidelines with regards to to the MA program to show SDA statutory disability with one major exception: duration for the SDA program is due to a disability which has lasted or can be expected to last for a continuous period of not less than 90 days. Unless otherwise noted below, the MA regulations, policy and law are followed.

Relevant federal guidelines provide in pertinent part:

Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted

or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that several considerations be analyzed in sequential order:

We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required.

These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). Monthly income limit for 2017 presumptive SGA for non-blind individuals is \$1,170.00. If the applicant is not engaged SGA or presumptive SGA, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends, and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application, Petitioner has the burden of proof:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required to establish statutory disability. Statements alone made by the applicant and/or the applicant's physician are not sufficient. Rather, regulations require laboratory or clinical medical reports that corroborate an any applicant's or physicians' statements regarding disability. These regulations state in part:

...Medical reports should include:

Medical history;

- (2) Clinical findings (such as the results. of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms) ... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques.

Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be

shown by observable facts that can be medically described and evaluated;

- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

The nature and limiting effects of your impairment(s) for any period in question;

- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927.

Under BEM 260, and corresponding BEM 261, when an applicant has a final SSI determination and no exceptions are met not relevant here, that applicant barred from pursuing an application with the State for disability. The record indicates that Petitioner received a final SSI determination with a denied 'reconsideration' on 1/20/17. To this extent, there is no jurisdiction under this authority to proceed with a substantive review.

In the alternative, it is noted that should the sequential analysis be applied, the undersigned ALJ concurs with the findings and conclusions in the MRT decision: based on the overall record, Petitioner does not meet the statutory requirements found at 20 CFR 416.920(b). This conclusion is clearly supported by the psychological evaluation which found no bar to Petitioner working due to any mental impairment(s).

As a final note, at Petitioner's 'younger individual' age of [REDACTED] and education, all of the medical vocation grids would require a finding of not disabled.

It is further noted that Petitioner's complaint of symptoms is not recognized as statutorily disabling absent corroboration requirements pursuant to 20 CFR 416.929. Claimant further failed to meet the burden of proof required by 20 CFR 416.912(c) and further as required by the sufficiency requirements found at 20 CFR 416.913(b), and .913(d), and .913(e).

Based on the record established in this matter and the applicable law, and for the reasons set forth herein, statutory disability is not shown, and thus, the Department's denial must be upheld.

DECISION AND ORDER

Accordingly, the Department's determination is AFFIRMED.
