

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS
MICHIGAN ADMINISTRATIVE HEARING SYSTEM

SHELLY EDGERTON
DIRECTOR

[REDACTED]

Date Mailed: April 18, 2018
MAHS Docket No.: 18-001207
Agency No.: [REDACTED]
Petitioner: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

HEARING DECISION

Following Petitioner's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250. After due notice, an administrative hearing was held on 3/7/18, with the Administrative Law Judge (ALJ) initiating a conference call from [REDACTED] Michigan. All other parties appeared In-person at the [REDACTED] Department of Health and Human Services (Department). Petitioner appeared and testified. The Respondent was represented by [REDACTED] FIM.

ISSUE

Whether the Department properly determined that Petitioner was not disabled for purposes of the State Disability Assistance (SDA) program?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On 9/5/17 Petitioner applied for SDA, a cash benefit program based on disability, with the [REDACTED] Department of Health and Human Services.
2. Petitioner is a beneficiary of the Medicaid program and receives medical benefits under the Healthy Michigan Plan (HMP).
3. On 12/21/17 the Medical Review Team (MRT) denied.
4. On 12/28/17 the Department issued notice, and on 1/26/18 Petitioner filed a timely hearing request.
5. Petitioner has an SSI application pending with the Social Security Administration, with a 9/3/15 application date, and an alleged onset date of disability of 12/31/12.

6. As of the date of application, Petitioner was classified as a “younger individual” at [REDACTED], standing 6’ 1” tall and weighing 360 pounds. Petitioner’s Body Mass Index (BMI) is 47.5, classifying Petitioner as morbidly obese under the BMI.
7. Petitioner testified to no alcohol/drug abuse problem or history.
8. Petitioner does not smoke.
9. Petitioner does not have a driver’s license.
10. Petitioner has “some college.” Evidence indicates that Petitioner is currently studying computer science, not testified to at the administrative hearing.
11. Petitioner testified that he has no income and is supported by and lives with his mother for the last 10 years.
12. Petitioner is not currently working. Petitioner testified that he last worked 2006, 12 years ago. Ex A.331 indicates that Petitioner worked as a hi-lo driver for one month in 2017, and otherwise has no other work history in the last 15 years.
13. Petitioner alleges disability based on obesity, back pain, knee pain, can’t ‘can’t stand nor walk for long period of time.’ Ex A.379.
14. MRT alleged impairments include the following: an MRI of the lumbar spine indicates small disc protrusion L5-S1; left knee OA, moderate; insulin dependent diabetes.
15. Petitioner requested to submit a statement from his doctor that was already part of the evidentiary packet, found on Ex A. 6. That letter states that Petitioner has had much improvement with water aerobic exercise and hot tub use and recommend that Petition have a gym membership. Ex A.6A.
16. The MRT findings and conclusions are adopted and incorporated by reference herein.
17. Petitioner did not present evidence of severe impairments that interfere with the ability to engage with activities of daily living (ADL). Ex A.236 indicates normal gait and station, no difficulty going from sit to stand, no bowel/bladder diagnoses. Ex A.236.
18. Petitioner generally can engage in ADLs.

CONCLUSIONS OF LAW

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Health and Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

For the SDA program, the Department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1.

As to the disability assessment, the State of Michigan follows the general guidelines with regards to the MA program to show SDA statutory disability with one major exception: duration for the SDA program is due to a disability which has lasted or can be expected to last for a continuous period of not less than 90 days. Unless otherwise noted below, the MA regulations, policy and law are followed.

Relevant federal guidelines provide in pertinent part:

Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that several considerations be analyzed in sequential order:

We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in

the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required.

These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). Monthly income limit for 2017 presumptive SGA for non-blind individuals is \$1,170.00. If the applicant is not engaged SGA or presumptive SGA, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends, and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application, Petitioner has the burden of proof:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required to establish statutory disability. Statements alone made by the applicant and/or the applicant's physician are not sufficient. Rather, regulations require laboratory or clinical

medical reports that corroborate an any applicant's or physicians' statements regarding disability. These regulations state in part:

...Medical reports should include:

Medical history;

- (2) Clinical findings (such as the results. of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms) ... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques.

Psychiatric signs are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated;

- (c) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.),

roentgenological studies (X-rays), and psychological tests.
20 CFR 416.928.

It must allow us to determine --

The nature and limiting effects of your impairment(s) for
any period in question;

- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and
mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to
understand how your impairment(s) affects your ability to
work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any
substantial gainful activity by reason of any medically determinable
physical or mental impairment which can be expected to result in
death, or-which has lasted or can be expected to last for a continuous
period of not less than 12 months. See 20 CFR 416.905. Your
impairment must result from anatomical, physiological, or psychological
abnormalities which are demonstrable by medically acceptable clinical
and laboratory diagnostic techniques.... 20 CFR 416.927.

It is noted that Congress removed obesity from the Listing of Impairments shortly after
the removal of drug and alcohol addiction. This removal reflects the view of a strong
behavioral component. In addition, these behavioral driven impairments are not
considered to fall within the category of diseases under consideration of statutory
disability under the social security disability program.

Applying the sequential analysis herein, Petitioner is not ineligible at the first step as
Petitioner is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and
severity. 20 CFR 416.920(c). This second step is a de minimis standard. Ruling any
ambiguities in Petitioner's favor, this Administrative Law Judge (ALJ) finds that
Petitioner meets both. The analysis continues.

The third step of the analysis looks at whether an individual meet or equals one of the
Listings of Impairments. 20 CFR 416.920(d). Petitioner does not. The analysis
continues.

The fourth step of the analysis looks at the ability of the applicant to return to past
relevant work. This step examines the physical and mental demands of the work done
by Petitioner in the past. 20 CFR 416.920(f).

In this case, this ALJ finds that Petitioner cannot return to past relevant work based on the medical evidence because Petitioner has no relevant past work at all over the 15 years prior to his application. The analysis continues.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g).

After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge concurs with the MRT in finding that the medical vocational grids require a finding of not disabled pursuant to medical vocational grid rule 201.21. In reaching this conclusion, it is noted that the law classifies Petitioner as a "younger individual" at [REDACTED] years old at application and some college. In addition, while Petitioner did not discuss at the administrative hearing, Petitioner is evidently enrolled in a computer program of study.

It is noted that Petitioner's smoking and/or obesity are the "individual responsibility" types of behaviors reflected in the *SIAS v Secretary of Health and Human Services*, 861 F2d 475 (6th Cir 1988) decision. In *Sias*, the Petitioner was an obese, heavy smoker who argued that he could not afford support hose prescribed by his doctor for acute thrombophlebitis. The doctor also advised Petitioner to reduce his body weight. The court said in part:

...The Petitioner's style of life is not consistent with that of a person who suffers from intractable pain or who believes his condition could develop into a very quick life-threatening situation. The Petitioner admitted to the ALJ he was at least 40 pounds overweight; ignoring the instructions of his physician, he has not lost weight.

...The Social Security Act did not repeal the principle of individual responsibility. Each of us faces myriads of choices in life, and the choices we make, whether we like it or not, have consequences. If the Petitioner in this case chooses to drive himself to an early grave, that is his privilege—but if he is not truly disabled, he has no right to require those who pay Social Security taxes to help underwrite the cost of his ride. *Sias*, supra, p. 481.

In *Sias*, the Petitioner was found not truly disabled because the secretary disregarded the consequences resulting from the Petitioner's unhealthy habits and lifestyles—including the failure to stop smoking. *Awad v Secretary of Health and Human Services*, 734 F2d 288, 289-90 (6th Cir 1984).

Statutory disability does not recognize many behaviors as statutorily disabling where behavioral driven treatment will remove or reduce the severity or complaint. Among others, this includes complaints such as drug and alcohol addiction, obesity, and *smoking*. *Issues related to these problems often result from life style choices*. In addition, many heart problems, type 2 diabetes, neuropathy, and high cholesterol have been significantly correlated with many life style behaviors. In such instances, the

symptoms and problem are treatable--obesity is treatable with weight loss, diet and exercise; alcoholism and drug addiction with abstinence; lung/breathing related medical issues are treatable with cessation from smoking. As with the congressional mandate denying statutory disability for alcohol and drug addiction, individual behaviors that drive medically related complaints and symptoms are not considered under the federal social security law as "truly disabling". See *Sias, supra*. In most instances, standard medical protocol is to instruct the individual to stop consuming alcohol, stop the drug addiction, stop smoking, and to lose weight. In fact, 20 CFR 416.930 requires a finding of not disabled where an individual fails to follow the recommended or prescribed treatment program.

Here, Petitioner is morbidly obese with a BMI showing morbid obesity. Using the same analysis required under the drug and alcohol legislation enacted by congress, as well as the Congressional removal of the obesity criteria from the Listings of Impairments, Petitioner did not meet the burden to show that if the obesity behaviors were removed that the medical would still show any sever impairment(s) by substantial and credible evidence statutory disability as defined under federal and state law.

The Petitioner does have medically determinable impairments that would reasonably cause some of the alleged symptoms. Petitioner's conditions result in some limitations on his ability to perform work related activities. Clearly his weight impairs daily functioning. However, the evidence does not support that Petitioner's conditions are severe enough to keep him from working. Petitioner is capable of performing sedentary work; that is, based on the evidence of record, the medical vocational grid requires a finding that Petitioner can adjust to other work.

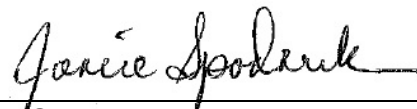

Petitioner's complaints and descriptions of symptoms are not consistent with the great weight of the objective medical evidence pursuant to the requirements found at 20 CFR 416.9139(b), .913(d), and .913(e).

Based on the record established in this matter and the applicable law, and for the reasons set forth herein, statutory disability is not shown, and thus, the Department's denial must be upheld.

DECISION AND ORDER

Accordingly, the Department's determination is AFFIRMED.
