Agency No.: [REDACTED]
Petitioner: OIG
Respondent: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Christian Gardocki

**HEARING DECISION FOR
INTENTIONAL PROGRAM VIOLATION AND OVERISSUANCE**

Upon the request for a hearing by the Michigan Department of Health and Human Services (MDHHS), this matter is before the undersigned administrative law judge pursuant to MCL 400.9, and in accordance with Titles 7, 42 and 45 of the Code of Federal Regulation (CFR), particularly 7 CFR 273.16, 42 CFR 431.230(b), and 45 CFR 235.110, and with Mich Admin Code, R 400.3130 and 400.3178. After due notice, a telephone hearing was held on July 11, 2018, from Detroit, Michigan. The Michigan Department of Health and Human Services (MDHHS) was represented by Nicholas Sultana, regulation agent with the Office of Inspector General. Respondent appeared and was unrepresented.

ISSUES

The first issue is whether MDHHS established that Respondent committed an intentional program violation (IPV) which justifies imposing an IPV disqualification.

The second issue is whether MDHHS established that Respondent received an overissuance (OI) of benefits.

FINDINGS OF FACT

The administrative law judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On July 7, 2015, Respondent electronically signed and submitted to MDHHS an application for Food Assistance Program (FAP) benefits. Boilerplate application language stated that FAP benefits that are sold could result in an IPV and that the benefits must be repaid. (Exhibit A, pp. 12-50)

2. On an unspecified date, MDHHS approved Respondent's FAP eligibility from September 2015. (Exhibit A, pp. 53-55)
3. A pamphlet sent to clients who apply for FAP benefits stated to not sell or trade FAP benefits. The pamphlet further warns that breaking FAP rules could result in disqualification and/or repayment of FAP benefits which are improperly traded or sold. (Exhibit A, pp. 126-141)
4. During all relevant times, Respondent neither utilized an authorized representative on his FAP case, reported a stolen Electronic Benefit Transfer (EBT) card, nor changed his personal identification number. (Exhibit A, pp. 70-77)
5. On or near September 15, 2016, the Food and Nutrition Service (FNS) performed an on-site investigation of Store. Investigative findings included the following: Store was 1,400 square feet; Store had no shopping carts; Store had no shopping baskets; Store did not use optical scanners at checkout; and Store had no private storage area for food.. (Exhibit A, pp. 110-123)
6. On November 4, 2016, FNS sent Store correspondence informing Store that its EBT transactions from March 2016 through August 2016 demonstrated "clear and repetitive patterns of unusual, irregular, and inexplicable activity for your type of firm". Evidence cited by FNS against Store included an unusually high number of transactions ending in a same-cents value (either \$.00, \$.99, or \$.50 values), multiple transactions from individual EBT accounts within unusually short timeframes, and excessively large EBT transactions (\$85.99 and higher). (Exhibit A, pp. 80-109)
7. On March 9, 2017, following receipt of correspondence from Store, FNS informed Store that it was "permanently disqualified" from accepting EBT transactions. (Exhibit A, pp. 78-79)
8. From November 2015 through February 2017, Respondent made 11 EBT purchases from [REDACTED] (hereinafter "Store"). Respondent transactions at Store included the following, which were alleged by MDHHS to involve trafficking:

October 3, 2015	\$49.00
October 25, 2015	\$179.99
November 22, 2015	\$249.00
November 22, 2015	\$22.00
May 14, 2016	\$325.57*
May 14, 2016	\$101.10*
May 22, 2016	\$89.00*
September 25, 2016	\$129.11
October 2, 2016	\$42.00
November 25, 2016	\$129.87
February 19, 2017	\$143.23 (Exhibit A, p. 60)

Transactions marked with an asterisk were used by FNS as alleged trafficking transactions against Store. (Exhibit A, pp. 61-63)

9. On January 26, 2018, MDHHS requested a hearing to establish that Respondent committed an IPV resulting in a one-year disqualification by trafficking FAP benefits at Store. MDHHS also requested a hearing to establish that Respondent received an overissuance of \$ [REDACTED] in FAP benefits allegedly trafficked from October 2015 through February 2017. (Exhibit A, p. 1)
10. As of the date of hearing, Respondent had no known history of IPV disqualifications. (Exhibit A, pp. 58-59)
11. Respondent had no known impairments to understanding FAP rules and/or regulations. (Exhibit A, p. 57)

CONCLUSIONS OF LAW

The Food Assistance Program (FAP) [formerly known as the Food Stamp program] is established by the Food and Nutrition Act of 2008, as amended, 7 USC 2011 to 2036a and is implemented by the federal regulations contained in 7 CFR 273. MDHHS (formerly known as the Department of Human Services) administers FAP pursuant to MCL 400.10, the Social Welfare Act, MCL 400.1-.119b, and Mich Admin Code, R 400.3001-.3011. MDHHS policies are contained in the Bridges Administrative Manual (BAM), Bridges Eligibility Manual (BEM), and Reference Tables Manual (RFT).

MDHHS requested a hearing to establish that Respondent committed an IPV. MDHHS' Hearing Summary and an Intentional Program Violation Repayment Agreement alleged that Respondent trafficked \$ [REDACTED] in FAP benefits at Store from October 2015 through February 2017.

MDHHS may request a hearing to establish an IPV, a disqualification, or a debt. BAM 600 (January 2018), p. 5. An IPV is suspected for a client who is alleged to have trafficked FAP benefits. BAM 720 (October 2017), p. 1. MDHHS defines trafficking as the "buying, selling or stealing or otherwise effecting an exchange of FAP benefits issued and accessed via Electronic Benefit Transfer (EBT) cards, card numbers and personal identification numbers (PINs), or by manual voucher and signature, for cash or consideration other than eligible food, either directly, indirectly, in complicity or collusion with others, or acting alone." BAM 700 (January 2018), p. 2. MDHHS also defines trafficking as the "stealing, trading, buying, selling, or attempted to have been stolen, traded, bought or sold of FAP benefits for cash or consideration other than eligible food." Bridges Program Glossary (May 2018) p. 69.

MDHHS suspects an IPV "when there is **clear and convincing** [emphasis added] evidence that the client has intentionally withheld or misrepresented information for the purpose of establishing, maintaining, increasing or preventing reduction of program benefits or eligibility." *Id.*, p. 8. Clear and convincing evidence is evidence sufficient to result in a clear and firm belief that the proposition is true. See M Civ JI 8.01. It is a

standard which requires reasonable certainty of the truth; something that is highly probable. Black's Law Dictionary 888 (6th ed. 1990).

MDHHS alleged that Respondent trafficked FAP benefits by exchanging FAP benefits for cash and/or items not authorized to be purchased with an EBT card. The simplified argument against Respondent is as follows:

- Store was administratively established to have engaged in FAP trafficking based on various EBT transactions which were consistent with trafficking.
- Over a period of time, Respondent had transactions at Store which were consistent with trafficking.
- Therefore, Respondent trafficked FAP benefits.

MDHHS presented various documents from FNS' investigation of Store concerning trafficking. FNS' investigation included photographs of Store, an inventory of Store's EBT-eligible items, specific EBT transactions at Store which FNS suspected to involve trafficking, and correspondence to Store.

The evidence established that Store was charged with FAP trafficking due to its suspicious EBT transaction history. MDHHS alleged that all 11 of Respondent's transactions at Store involved FAP trafficking because of their consistency with transactions cited by FNS against Store.

FNS cited transactions at Store ending in cent values of \$.00, \$.99, or \$.50 as support for finding that Store was involved in trafficking. Six of Respondent's transactions at Store were for the same-cents value alleged by FNS to involve trafficking. Respondent's same-cents-value transactions at Store were consistent with trafficking FAP benefits.

FNS also cited "excessively large" transactions at Store to be suspicious for trafficking. Eight of Respondent's transactions at Store exceeded the \$85.99 threshold used by FNS (three of which were specifically listed by FNS in their investigation of Store). Respondent's large transactions at Store were consistent with trafficking FAP benefits.

Respondent testified that he sometimes bought 25 pounds of fish at Store which contributed to large transaction amounts at Store. Respondent had no explanation for the same-cents-value transactions. Respondent presented no corroborating evidence for his testimony. Respondent's testimony was not particularly consistent with EBT transactions at larger stores unlikely to be involved in FAP trafficking (see Exhibit A, pp. 64-69).

Given the consistency between Respondent's EBT transactions at Store and those transactions alleged by FNS to involve trafficking, it is found that Respondent clearly and convincingly trafficked \$ [REDACTED] in FAP benefits at Store. Thus, it is found that Respondent committed an IPV.

The standard IPV disqualification period is used in all instances except when a court orders a different period. MDHHS is to apply the following disqualification periods to

recipients determined to have committed an IPV: one year for the first IPV, two years for the second IPV, and lifetime for the third IPV. BAM 725 (January 2016), p. 16.

MDHHS acknowledged that Respondent had no previous IPV disqualifications. Thus, an IPV disqualification period of one year is justified. MDHHS also alleged that Respondent's trafficking of FAP benefits justifies finding an OI of FAP benefits.

When a client group receives more benefits than it is entitled to receive, MDHHS must attempt to recoup the overissuance. An overissuance is the amount of benefits issued to the client group or CDC provider in excess of what it was eligible to receive. Recoupment is an MDHHS action to identify and recover a benefit overissuance. For FAP benefits, an overissuance is also the amount of benefits trafficked (stolen, traded, bought or sold) or attempted to be trafficked. BAM 700 (January 2016), pp. 1-2.

It was already found that Respondent trafficked \$ [REDACTED] in FAP benefits. Thus, MDHHS established that Respondent is responsible for an OI of \$ [REDACTED]

DECISION AND ORDER

The administrative law judge, based upon the above findings of fact and conclusions of law, finds that MDHHS established that Respondent committed an IPV based on FAP benefit trafficking from October 2015 through February 2017. It is further found that MDHHS established an OI of \$ [REDACTED] against Respondent. The MDHHS requests to establish an overissuance and a one-year disqualification against Respondent are **APPROVED**.
