

RICK SNYDER  
GOVERNOR

STATE OF MICHIGAN  
DEPARTMENT OF LICENSING AND REGULATORY AFFAIRS  
LANSING

SHELLY EDGERTON  
DIRECTOR

[REDACTED]  
MI [REDACTED]

Date Mailed: February 21, 2018  
MAHS Docket No.: 17-016027  
Agency No.: [REDACTED]  
Petitioner: [REDACTED]

**ADMINISTRATIVE LAW JUDGE: Janice Spodarek**

**HEARING DECISION**

Following Petitioner's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250. After due notice, an administrative hearing was held on 1/24/18, with the Administrative Law Judge (ALJ) initiating a conference call from Lansing, Michigan. All other parties appeared in-person at the county Department of Health and Human Services (Department or Respondent). Petitioner appeared and testified. Respondent was represented by Becky Fraser, Family Independence Manager.

**ISSUE**

Whether the Department properly determined that Petitioner was not disabled for purposes of the State Disability Assistance (SDA) program?

**FINDINGS OF FACT**

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On [REDACTED] 17, Petitioner applied for SDA with the Michigan Department of Health and Human Services.
2. On 12/6/17, the Medical Review Team (MRT) approved Petitioner for a closed ended period of 90 days, September through December 2017.
3. On 12/6/17, the Department issued notice.
4. On 12/15/17, Petitioner filed a timely hearing request.

5. Petitioner presented no evidence that she has an SSI application pending with the Social Security Administration. Petitioner was previously on SSI with the SSA with a status code of T51 (case closed).
6. As of the date of application, Petitioner was a 36-year-old, standing 5' 3" tall and weighing 141pounds. Petitioner's BMI is 25, classifying Petitioner as overweight under the Body Mass Index.
7. Petitioner testified that she does not have an alcohol/drug abuse problem or history.
8. Petitioner smokes. Petitioner has a nicotine addiction.
9. Petitioner has a driver's license.
10. Petitioner has a GED level of education.
11. Petitioner testified that she has child support income.
12. Petitioner is not currently working. Petitioner last worked as a bus attendant with school children. Petitioner's work history is fast food, retail, [REDACTED]
13. Petitioner alleges a disability onset date of [REDACTED] 17, when she had difficulty with her knee followed by surgery for a patella replacement. Petitioner's medical evidence documents a return to work date of 12/12/17.
14. Petitioner did not present evidence that she is severely impaired in completing her activities of daily living.
15. Petitioner could not identify any exhibits in her medical packet to support her claim that she cannot work.

### **CONCLUSIONS OF LAW**

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Health and Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

For the SDA program, the State of Michigan follows the general guidelines with regards to to the MA program to show SDA statutory disability with one major exception: duration for the SDA program is due to a disability which has lasted or can be expected to last for a continuous period of ot less than 90 days. Unless otherwise noted below, the MA regulations, policy and law are followed.

Relevant federal guidelines provide in pertinent part:

Disability" is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that several considerations be analyzed in sequential order:

We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required.

These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). If no, the analysis continues to Step 2.

2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f).
5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends, and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application, Petitioner has the burden of proof:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required to establish statutory disability. Statements alone made by the applicant and/or the applicant's physician are not sufficient. Rather, regulations require laboratory or clinical medical reports that corroborate an any applicant's or physicians' statements regarding disability. These regulations state in part:

...Medical reports should include:

- (1) Medical history;
- (2) Clinical findings (such as the results. of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms) ... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques.
- (c) **Psychiatric signs** are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated;
- (d) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927.

It is noted that Congress removed obesity from the Listing of Impairments shortly after the removal of drug and alcohol addiction. This removal reflects the view of a strong behavioral component. In addition, these behavioral driven impairments are not considered to fall within the category of diseases under consideration of statutory disability under the social security disability program.

First, it should be noted that the SOLQ failed to show that Petitioner has filed, or has an appeal pending the SSA. Petitioner testified that she does. However, Petitioner failed to present any evidence of the same. For this reason alone, Petitioner could be denied.

However, giving Petitioner the benefit of the doubt, this ALJ will continue with the sequential analysis. Petitioner is not ineligible at the first step as Petitioner is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a de minimis standard.

Here, this ALJ concurs with the MRT in finding that Petitioner is not disabled at Step 2 of the analysis on the basis that Petitioner does not have a severe impairment that meets duration. Petitioner argued at the administrative hearing that her medical problems continued beyond the 90 days. However, Petitioner has the burden of proof by a preponderance of evidence. Here the medical evidence indicates that Petitioner can return to work on 12/12/17. Petitioner did not bring forth sufficient medical evidence to show that she meets the sufficiency requirements found at 20 CFR 416.927(a)(1) and .928. As such, statutory disability is not shown.

Petitioner's complaints and descriptions of symptoms are not consistent with the great weight of the objective medical evidence pursuant to the requirements found at 20 CFR 416.9139(b), .913(d), and .913(e).

Based on the record established in this matter and the applicable law, statutory disability is not shown, and thus, the Department's denial must be upheld.

**DECISION AND ORDER**

Accordingly, the Department's determination is **AFFIRMED**.
