CONCLUSIONS OF LAW

The regulations governing the hearing and appeal process for applicants and recipients of public assistance in Michigan are found in the Michigan Administrative Code, MAC R 400.901-400.951. An opportunity for a hearing shall be granted to an applicant who requests a hearing because his or her claim for assistance has been denied. MAC R 400.903(1). Clients have the right to contest a Department decision affecting eligibility or benefit levels whenever it is believed that the decision is incorrect. The Department will provide an administrative hearing to review the decision and determine the appropriateness of that decision. BAM 600.

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), Department of Health and Human Services Reference Tables Manual (RFT), and Department of Health and Human Services Emergency Relief Manual (ERM).

The Food Assistance Program (FAP) [formerly known as the Food Stamp program] is established by the Food and Nutrition Act of 2008, as amended, 7 USC 2011 to 2036a and is implemented by the federal regulations contained in 7 CFR 273. The Department (formerly known as the Department of Human Services) administers FAP pursuant to MCL 400.10, the Social Welfare Act, MCL 400.1-.119b, and Mich Admin Code, R 400.3001-.3011.

Pertinent Department policy dictates:

When a client group receives more benefits than entitled to receive, the Department must attempt to recoup the over issuance. BAM 700, p 1 (1/1/2016).

Recoupment is a MDHHS action to identify and recover a benefit over issuance. A recoupment specialist (RS) is the specialist assigned to process over issuances and act as liaison with OIG, reconciliation and recoupment section (RRS), and other personnel involved with recoupment and collections. BAM 700 page 2

An agency error is caused by incorrect action (including delayed or no action) by MDHHS staff or Department processes. Some examples are:

- Available information was not used or was used incorrectly.
- Policy was misapplied.
- Action by local or central office staff was delayed.
- Computer errors occurred.
- Information was not shared between Department divisions such as services staff.
- Data exchange reports were not acted upon timely (wage match, new hires, BENDEX, etc.).

If unable to identify the type, record it as an agency error. FIP, SDA, CDC and FAP Agency errors are not pursued if the estimated amount is less than \$250 per program. BEM 700, page 5

A client error occurs when the client received more benefits than they were entitled to because the client gave incorrect or incomplete information to the Department. A client error also exists when the client's timely request for a hearing result in deletion of a MDHHS action, and any of the following occurred:

- The hearing request is later withdrawn.
- MAHS denies the hearing request.
- The client or administrative hearing representative fails to appear for the hearing and MAHS gives MDHHS written instructions to proceed.
- The hearing decision upholds the Department's actions; see BAM 600. BAM 700 page 7

When a potential over issuance is discovered the following actions must be taken:

1. Immediately correct the current benefits; see BAM 220, Case Actions, for change processing requirements.
2. Obtain initial evidence that an over issuance potentially exists.
3. Determine if it was caused by Department, provider or client actions.
4. Refer any over issuances needing referral to the RS within 60 days of suspecting one exists.

Exception: Office of Quality Assurance (OQA) discovered over issuances must be referred to the RS within 7 days of receipt of the OQA findings. OQA has already verified one exists. FIP, SDA, CDC and FAP Within 60 days of suspecting an over issuance exists, complete a DHS-4701, Over issuance Referral, and refer the following over issuances to the RS for your office:

- **All client and agency errors over \$250.**
- All suspected IPV errors.
- All CDC provider errors BAM 700 page 10

Petitioner testified that she reported all income when she received the proper forms to do so. Petitioner's argument is a compelling equitable argument to be excluded from Department policy. This Administrative Law Judge has no equity powers and cannot make a decision that is in contravention of Department policy.

Evidence on the record indicates Petitioner received an over issuance of food assistance program benefits in the amount of \$4,425.00 based upon the fact that

Petitioner's spouse's income was not properly budgeted. The Department is required to recoup overissued benefits.

Petitioner has been overissued FAP benefits in the amount of \$4,425.00 based upon client error, which must be recouped.

The Department is compelled by Department policy to recoup any over-issued benefits in excess of the amount of \$250. The Department has established its case by a preponderance of the evidence.

DECISION AND ORDER

Accordingly, the Department's decision is **AFFIRMED**.

The Department is **ORDERED** to initiate the recoupment process in accordance with Department policy within ten days of receipt of this Decision and Order.
