MOAHR Docket No.: 22-000333
Agency No.: [REDACTED]
Petitioner: [REDACTED] [REDACTED]

ADMINISTRATIVE LAW JUDGE: Janice Spodarek

HEARING DECISION

Following Petitioner's request for a hearing, this matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 400.37; 42 CFR 431.200 to 431.250. After due notice, an administrative hearing was held on March 9, 2022.

Petitioner personally appeared and testified unrepresented.

Respondent was represented by Eric Carlson, APS.

Department Exhibit A.1-372 and B.1-283 was offered and admitted into the record.

ISSUE

Whether the Department properly determined that Petitioner was not disabled for purposes of the State Disability Assistance (SDA) program?

FINDINGS OF FACT

The Administrative Law Judge, based on the competent, material, and substantial evidence on the whole record, finds as material fact:

1. On September 13, 2021, Petitioner applied for State Disability Assistance (SDA), a cash benefit program based on disability, with the Michigan Department of Health and Human Services (MDHHS).
2. Petitioner is a beneficiary of the Medicaid program and receives medical benefits under the Healthy Michigan Plan (HMP).
3. Petitioner has been a recipient of SDA since May 31, 2016 under the caretaker of a disabled child category of her minor son. On September 16, 2021 Petitioner's son was removed from her home and Petitioner applied for SDA on the basis of

her own disability. Petitioner has been applying for disability since she was 18 years old.

4. On December 28, 2021 the Medical Review Team (MRT) denied Petitioner's application on the basis of 20 CFR 416.920(f), capable of performing other work, medical vocational grid rule 201.21.
5. On January 6, 2022 the Department issued notice of closure and on January 18, 2022, Petitioner filed a timely hearing request.
6. Petitioner's SDA case closed January 6, 2022.
7. Petitioner has been denied disability by the Social Security Administration five times, with the last two denial upheld by the Social Security Appeals Council.
8. As of the date of application, Petitioner was a [REDACTED] year-old female, standing [REDACTED] and weighing approximately [REDACTED] pounds. Petitioner's Body Mass Index (BMI) is [REDACTED] classifying Petitioner as underweight (less than 18.5) under the BMI Index.
9. Documentation indicates no drug or alcohol (DAA) issues. Exhibit a.21.
10. Petitioner has a driver's license and can drive an automobile.
11. Petitioner has some college.
12. Petitioner alleges disability based on physical and mental impairments including degenerative bone disease, anxiety, arthritis in back and neck, borderline personality disorder, depression. Exhibit A.
13. Petitioner is not currently working. Petitioner filed documents alleging that she has been unable to work since December [REDACTED] 2017. Petitioner testified that she only had one short job in her lifetime at [REDACTED] [REDACTED] Petitioner left the [REDACTED] [REDACTED] position based on testimony "due to pregnancy".
14. The Department conducted independent medical examinations supporting the denial of disability.
15. The mental health assessment found no significantly limited ratings for multiple listings, and two moderately limited ratings. Exhibit A.20.
16. The MRT findings and conclusions are adopted and incorporated by reference herein. MRT incorporated the most recent federal ALJ decision, finding: presentation of a walker prescribed by PCP with clinical assessment of walking without difficulty, Patrick and FABER's testing negative, no effusions or crepitus, multiple surgeries of back without relief, alert and mood normal, gait normal, moves all four extremities without difficulty, prior ALJ decision two times capable of light work with most recent ALJ decision capable of sedentary work, simple routine tasks denied per vocational grid rule 201.21; physical impairments severe, mental

impairments mild or moderate, able to concentrate and focus, judgment intact, able to abstract. Limitations and reported restrictions are not consistent with the totality of the evidence of record therefore limitations/restriction effect are partially consistent. Petitioner took care of ADLs and in fact, ADLs for another person, no in home care including shopping, driving, food preparation, laundry and taking care of bathroom and grooming needs. MRT concluded based on all of the evidence that Petitioner is able to perform simple/routine tasks on a sustained basis in low stress environment adopting social security ruling. Exhibit A.1-35.

17. Petitioner does not exercise.

CONCLUSIONS OF LAW

Department policies are contained in the Department of Health and Human Services Bridges Administrative Manual (BAM), Department of Health and Human Services Bridges Eligibility Manual (BEM), and Department of Health and Human Services Reference Tables Manual (RFT).

The Medical Assistance (MA) program is established by Title XIX of the Social Security Act, 42 USC 1396-1396w-5; 42 USC 1315; the Affordable Care Act of 2010, the collective term for the Patient Protection and Affordable Care Act, Pub. L. No. 111-148, as amended by the Health Care and Education Reconciliation Act of 2010, Pub. L. No. 111-152; and 42 CFR 430.10-.25. The Department (formerly known as the Department of Human Services) administers the MA program pursuant to 42 CFR 435, MCL 400.10, and MCL 400.105-.112k.

The State Disability Assistance (SDA) program, which provides financial assistance for disabled persons, was established by 2004 PA 344. The Department administers the SDA program pursuant to 42 CFR 435, MCL 400.10 *et seq.* and Mich Admin Code, Rules 400.3151 – 400.3180. A person is considered disabled for SDA purposes if the person has a physical or mental impairment which meets federal Supplemental Security Income (SSI) disability standards for at least ninety days. Receipt of SSI benefits based on disability or blindness, or the receipt of MA benefits based on disability or blindness, automatically qualifies an individual as disabled for purposes of the SDA program.

For the SDA program, the Department's Program Eligibility Manual contains the following policy statements and instructions for caseworkers regarding the State Disability Assistance program: to receive State Disability Assistance, a person must be disabled, caring for a disabled person or age 65 or older. BEM, Item 261, p. 1.

As to the disability assessment, the State of Michigan follows the general guidelines with regards to the MA program to show SDA statutory disability with one major exception: duration for the SDA program is due to a disability which has lasted or can be expected to last for a continuous period of not less than 90 days. Unless otherwise noted below, the MA regulations, policy and law are followed.

Relevant federal guidelines provide in pertinent part:

Disability is:

...the inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months.... 20 CFR 416.905.

Federal regulations require that several considerations be analyzed in sequential order:

We follow a set order to determine whether you are disabled. We review any current work activity, the severity of your impairment(s), your residual functional capacity, your past work, and your age, education and work experience. If we can find that you are disabled or not disabled at any point in the review, we do not review your claim further.... 20 CFR 416.920.

The regulations require that if disability can be ruled out at any step, analysis of the next step is not required.

These steps are:

1. If you are working and the work you are doing is substantial gainful activity, we will find that you are not disabled regardless of your medical condition or your age, education, and work experience. 20 CFR 416.920(b). Monthly income limit for 2017 presumptive SGA for non-blind individuals is \$1,170.00. If the applicant is not engaged SGA or presumptive SGA, the analysis continues to Step 2.
2. Does the client have a severe impairment that has lasted or is expected to last 12 months or more or result in death? If no, the client is ineligible for MA. If yes, the analysis continues to Step 3. 20 CFR 416.909(c).
3. Does the impairment appear on a special Listing of Impairments or are the client's symptoms, signs, and laboratory findings at least equivalent in severity to the set of medical findings specified for the listed impairment that meets the duration requirement? If no, the analysis continues to Step 4. If yes, MA is approved. 20 CFR 416.920(d).
4. Can the client do the former work that he/she performed within the last 15 years? If yes, the client is ineligible for MA. If no, the analysis continues to Step 5. Sections 200.00-204.00(f).

5. Does the client have the Residual Functional Capacity (RFC) to perform other work according to the guidelines set forth at 20 CFR 404, Subpart P, Appendix 2, Sections 200.00-204.00? This step considers the residual functional capacity, age, education, and past work experience to see if the client can do other work. If yes, the analysis ends, and the client is ineligible for MA. If no, MA is approved. 20 CFR 416.920(g).

At application, Petitioner has the burden of proof:

...You must provide medical evidence showing that you have an impairment(s) and how severe it is during the time you say that you are disabled. 20 CFR 416.912(c).

Federal regulations are very specific regarding the type of medical evidence required to establish statutory disability. Statements alone made by the applicant and/or the applicant's physician are not sufficient. Rather, regulations require laboratory or clinical medical reports that corroborate an any applicant's or physicians' statements regarding disability. These regulations state in part:

...Medical reports should include:

- (1) Medical history;
- (2) Clinical findings (such as the results. of physical or mental status examinations);
- (3) Laboratory findings (such as sure, X-rays);
- (4) Diagnosis (statement of disease or injury based on its signs and symptoms) ... 20 CFR 416.913(b).

...Statements about your pain or other symptoms will not alone establish that you are disabled; there must be medical signs and laboratory findings which show that you have a medical impairment.... 20 CFR 416.929(a).

...The medical evidence...must be complete and detailed enough to allow us to make a determination about whether you are disabled or blind. 20 CFR 416.913(d).

Medical findings consist of symptoms, signs, and laboratory findings:

- (a) **Symptoms** are your own description of your physical or mental impairment. Your statements alone are not enough to establish that there is a physical or mental impairment.
- (b) **Signs** are anatomical, physiological, or psychological abnormalities which can be observed, apart from your

statements (symptoms). Signs must be shown by medically acceptable clinical diagnostic techniques.

- (c) **Psychiatric signs** are medically demonstrable phenomena which indicate specific psychological abnormalities e.g., abnormalities of behavior, mood, thought, memory, orientation, development, or perception. They must also be shown by observable facts that can be medically described and evaluated;
- (d) **Laboratory findings** are anatomical, physiological, or psychological phenomena which can be shown by the use of a medically acceptable laboratory diagnostic techniques. Some of these diagnostic techniques include chemical tests, electrophysiological studies (electrocardiogram, electroencephalogram, etc.), roentgenological studies (X-rays), and psychological tests. 20 CFR 416.928.

It must allow us to determine --

- (1) The nature and limiting effects of your impairment(s) for any period in question;
- (2) The probable duration of your impairment; and
- (3) Your residual functional capacity to do work-related physical and mental activities. 20 CFR 416.913(d).

Information from other sources may also help us to understand how your impairment(s) affects your ability to work. 20 CFR 416.913(e).

...You can only be found disabled if you are unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death, or which has lasted or can be expected to last for a continuous period of not less than 12 months. See 20 CFR 416.905. Your impairment must result from anatomical, physiological, or psychological abnormalities which are demonstrable by medically acceptable clinical and laboratory diagnostic techniques.... 20 CFR 416.927.

Applying the sequential analysis herein, Petitioner is not ineligible at the first step as Petitioner is not currently working. 20 CFR 416.920(b). The analysis continues.

The second step of the analysis looks at a two-fold assessment of duration and severity. 20 CFR 416.920(c). This second step is a de minimis standard. Ruling any ambiguities in Petitioner's favor, this Administrative Law Judge (ALJ) finds that Petitioner meets both. The analysis continues.

The third step of the analysis looks at whether an individual meet or equals one of the Listings of Impairments. 20 CFR 416.920(d). Petitioner does not. The analysis continues.

The fourth step of the analysis looks at the ability of the applicant to return to past relevant work. This step examines the physical and mental demands of the work done by Petitioner in the past. 20 CFR 416.920(f).

In this case, this ALJ finds that Petitioner cannot return to past relevant work based on Petitioner having no past relevant work.

The analysis continues.

The fifth and final step of the analysis applies the biographical data of the applicant to the Medical Vocational Grids to determine the residual functional capacity of the applicant to do other work. 20 CFR 416.920(g).

After a careful review of the credible and substantial evidence on the whole record, this Administrative Law Judge concurs with the MRT in finding that the medical vocational grids require a finding of not disabled pursuant to medical vocational grid rule 201.21. In reaching this conclusion, it is noted that that the law classifies Petitioner as a "younger individual".

Petitioner does have medically determinable impairments that would reasonably cause some of the alleged symptoms. However, the intensity, persistence, or alleged functionally limiting effects of pain or other symptoms are not altogether substantiated by objective medical evidence. See Finding of Fact number 16 above.

Petitioner's conditions result in some limitations on her ability to perform work related activities. However, the evidence does not support that Petitioner's conditions are severe enough to keep her from working. While Petitioner may not be able to return to past relevant work as she has none, based on the evidence of record, the medical vocational grid requires a finding that Petitioner can do sedentary work.

Petitioner's complaint of symptoms is not recognized as statutorily disabling absent corroboration requirements pursuant to 20 CFR 416.929. Claimant further failed to meet the burden of proof required by 20 CFR 416.912(c) and further as required by the sufficiency requirements found at 20 CFR 416.913(b), and .913(d), and .913(e).

Petitioner's complaints and descriptions of symptoms are not consistent with the great weight of the objective medical evidence pursuant to the requirements found at 20 CFR 416.9139(b), .913(d), and .913(e).

Based on the record established in this matter and the applicable law, and for the reasons set forth herein, statutory disability is not shown, and thus, the Department's denial must be upheld.

DECISION AND ORDER

Accordingly, the Department's determination is **AFFIRMED**.
