[REDACTED]  
MI [REDACTED]

Date Mailed: February 4, 2022  
MOAHR Docket No.: 21-005418  
Agency No.: [REDACTED]  
Petitioner: [REDACTED]

**ADMINISTRATIVE LAW JUDGE: Steven Kibit**

### **DECISION AND ORDER**

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, and upon a request for a hearing filed by Petitioner.

After due notice, a telephone hearing began as scheduled on January 6, 2022. However, the hearing could not be completed after Petitioner disconnected from the conference call, and it was determined that it must be continued later. After due notice, the telephone hearing was continued and completed on February 1, 2022.

Petitioner, using an interpreter, appeared and testified on his own behalf. Allison Pool, Appeals Review Officer, represented the Respondent Michigan Department of Health and Human Services (DHHS or Department). Dianne Redford, Medicaid Utilization Analyst, testified as a witness for the Department.

During the hearing, the Department submitted one evidence packet/exhibit that was admitted into the record as Exhibit A, pages 1-13. Petitioner did not submit any proposed exhibits.

### **ISSUE**

Did the Department properly deny Petitioner's prior authorization request for complete upper and lower dentures?

### **FINDINGS OF FACT**

The Administrative Law Judge, based upon the competent, material, and substantial evidence on the whole record, finds as material fact:

1. In 2017, Petitioner received complete upper and lower dentures paid for by the Department. (Exhibit A, pages 10-11).
2. On October 15, 2021, the Department received a prior authorization request for complete upper and lower dentures submitted on Petitioner's behalf by his dentist. (Exhibit A, page 9).

3. In that request, the dentist indicated that the dentures would be an initial placement for Petitioner. (Exhibit A, page 9).
4. On November 1, 2021, the Department sent Petitioner written notice that the prior authorization request had been denied. (Exhibit A, pages 7-8).
5. With respect to the reason for the denial, the notice stated:

The policy this denial is based on is Section 6.6.A of the Dental chapter of the Medicaid Provider Manual. Specifically:

- Policy 6.6.A. General Instructions. Complete or partial dentures are not authorized when Medicaid or Medicaid Managed Care has provided a denture in the same arch within five years. A D5110/D5120 were placed 08/16/2017 per the MDHHS Database.

*Exhibit A, page 7*

6. On November 16, 2021, the Michigan Office of Administrative Hearings and Rules (MOAHR) received the request for hearing filed in this matter regarding that denial. (Exhibit A, page 4).

### **CONCLUSIONS OF LAW**

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statutes, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Medicaid covered benefits are addressed for the practitioners and beneficiaries in the Medicaid Provider Manual (MPM) and, in part, the applicable version of the MPM states:

#### **6.6 PROSTHODONTICS (REMOVABLE)**

##### **6.6.A. GENERAL INSTRUCTIONS**

Complete dentures, immediate complete dentures, and partial dentures are benefits for all beneficiaries and require PA. Complete or partial dentures are prior authorized when one or more of the following conditions exist:

- One or more anterior teeth are missing.
- There are less than eight posterior teeth in occlusion (fixed bridges and dentures are to be considered occluding teeth).

Providers must assess the beneficiary's general oral health and provide a five-year prognosis for the complete or partial denture requested. The provider is expected to evaluate whether the treatment is appropriate for the individual beneficiary, and assess the probability of delivering removable dentures and the beneficiary's compliance with follow-up care.

It is the provider's responsibility to discuss the treatment plan with the beneficiary, including any applicable frequency limits and other pertinent information related to the proposed services, and obtain the beneficiary's agreement with the proposed treatment plan. Documentation of the beneficiary's agreement must be retained in the beneficiary's dental record.

Full mouth/complete series radiographs must be submitted with PA requests for partial dentures. Radiographs are not required to be submitted with PA requests for complete dentures. MDHHS reserves the right to request radiographs if necessary. The following information must be submitted with the MSA-1680-B:

- The appropriate CDT code(s) for the service(s) requested.
- Completed tooth chart documenting missing teeth and teeth that will be extracted.
- Documentation of the soundness of the remaining teeth, if applicable.
- Five-year prognosis for the denture.
- Any pertinent health information (e.g., co-existing health conditions, pregnancy, etc.) that may impact the proposed treatment plan.

PA determinations are made based on review of the documentation submitted and do not guarantee reimbursement. The dentist is responsible for ensuring the completeness and accuracy of all documentation and tooth charting submitted with a PA request. Documentation errors resulting in improper payments may be subject to recovery of reimbursement by MDHHS regardless of authorization.

The following documentation must be retained in the beneficiary's dental record and made available to MDHHS upon request:

- Beneficiary understanding and agreement that another denture is not a covered benefit for five years.

Beneficiary education addressing all available treatment options and documentation of the beneficiary's understanding and agreement. Before the final impressions are taken for the fabrication of a denture, adequate healing necessary to support the denture must take place following the completion of extractions and/or surgical procedures.

When billing for a complete or partial denture, the date of service is the date the denture was delivered to the beneficiary. Reimbursement for a complete or partial denture includes all necessary adjustments, relines, repairs, duplication, etc. within six months of insertion.

**Complete or partial dentures are not authorized when:**

- **Medicaid or Medicaid Managed Care has provided a denture in the same arch within five years.**
- An adjustment, reline, repair, or rebase will make the current denture serviceable.
- A complete or partial denture obtained through Medicaid within five years has been lost or broken.

*MPM, October 1, 2021 version  
Dental Chapter, pages 23-24  
(Emphasis added)*

Here, the Department's witness testified that Petitioner's prior authorization request for complete upper and lower dentures was denied pursuant to the above policies. Specifically, she noted that the request was denied because, as established by the Department's records, the Department/Medicaid had provided dentures in both arches within the past five years.

In response, Petitioner testified that the dentist placed the dentures the Department paid for, but that he had problems with them and that, despite attempts to repair them, he could not wear those dentures. He also testified that he then paid for the dentures himself at a discounted rate.

During the second day of hearing, the Department's witness gave Petitioner a telephone number he could call to report his former dentist for failing to provide the services the dentist was paid for. She also indicated that Petitioner could request new dentures in March of 2022, as five years would have passed since the previous placement by that time. Petitioner then indicated he would have a new request submitted.

Petitioner bears the burden of proving by a preponderance of the evidence that the Department erred in denying his prior authorization request. Moreover, the undersigned Administrative Law Judge is limited to reviewing the Department's decision in light of the information available at the time the decision was made.

Given the record and applicable policies in this case, Petitioner has failed to meet his burden of proof and the Department's decision must therefore be affirmed. The above policy expressly provides that complete or partial dentures are not authorized when a previous denture has been provided in the same arch within five years, and it is undisputed in this case that Petitioner had dentures for both arches that were paid for by the Department within the five years preceding his current request. Moreover, while Petitioner testified that he never received those dentures, his testimony is unsupported; it is undisputed that the Department paid for them; and the Department provided Petitioner with a telephone number to call if he wanted his former dentist investigated.

The parties also discussed Petitioner submitting a new prior authorization request in March of 2022 and he is free to do so. With respect to the decision at issue in this case however, the Department's decision must be affirmed given the available information and applicable policies.

**DECISION AND ORDER**

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, decides that the Department properly denied Petitioner's prior authorization request.

**IT IS, THEREFORE, ORDERED** that:

The Department's decision is **AFFIRMED**.

A rectangular box containing a handwritten signature in cursive script that reads "Steven Kibit".
