Date Mailed: August 17, 2022
MOAHR Docket No.: 22-002928
Agency No.: [REDACTED]
Petitioner: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Aaron McClintic

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200, *et seq.*, and upon the Petitioner's request for a hearing.

After due notice, a telephone hearing was held on August 11, 2022. Petitioner's Authorized Representative and Daughter, [REDACTED] appeared and testified on behalf of the Petitioner. Florence Scott-Emuakpor, Appeals Review Officer, represented the Respondent, Michigan Department of Health and Human Services (DHHS or Department). Katrina Turner, Adult Services Worker, testified as a witness for the Department. Department Exhibit A, pp. 1-23 was received and admitted.

ISSUE

Did the Department properly deny Petitioner's request for Home Help Services (HHS)?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Petitioner is a Medicaid beneficiary who was referred for HHS through the Department on June 2, 2022. (Exhibit A, page 9).
2. On June 3, 2022, a Medical Needs form with instructions about how to complete it was sent to Petitioner with a due date of June 24, 2022.
3. Petitioner submitted the Medical Needs form on June 23, 2022, and it was received on June 29, 2022.
4. On June 29, 2022, the Department sent Petitioner written notice that her request for HHS would be denied if the Medical Needs form was not received. (Exhibit A, page 10).

5. On July 13, 2022, the Michigan Office of Administrative Hearings and Rules (MOAHR) received the Request for Hearing filed in this matter with respect to that denial. (Exhibit A, page 6).

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statutes, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

Adult Services Manual (ASM) 101 (4-1-2018) and ASM 120 (4-1-2021) address the issue of what services were included in HHS and how such services were assessed at the time of the action in this case. For example, ASM 101 provides in part:

Home help services are non-specialized personal care service activities provided under the independent living services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

Home help services are defined as those tasks which the department is paying for through Title XIX (Medicaid) funds. These services are furnished to individuals who are **not** currently residing in a hospital, nursing facility, licensed foster care home/home for the aged, intermediate care facility (ICF) for persons with developmental disabilities or institution for mental illness.

These activities **must** be certified by a Medicaid enrolled medical professional and may be provided by individuals or by private or public agencies. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services specialist.

Personal care services which are eligible for Title XIX funding are limited to:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking medication.
- Meal preparation/cleanup.
- Shopping for food and other necessities of daily living.
- Laundry.
- Light housecleaning.

An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance. Ms. Smith would be eligible to receive assistance with IADL's [sic] if the assessment determines a need at a level 3 or greater.

Note: If an individual uses adaptive equipment to assist with an ADL, and without the use of this equipment the person would require hands-on care, the individual must be ranked a level 3 or greater on the functional assessment. This individual would be eligible to receive home help services.

Example: Mr. Jones utilizes a transfer bench to get in and out of the bathtub which allows him to bathe himself without the hands-on assistance of another. The adult services specialist must rank Mr. Jones a 3 or greater under the

functional assessment. Mr. Jones would be eligible to receive home help services.

Assistive technology would include such items as walkers, wheelchairs, canes, reachers, lift chairs, bath benches, grab bars and handheld showers.

* * *

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping). A responsible relative is defined as an individual's spouse or a parent of an unmarried child under age 18.
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).
- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.
- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

ASM 101, pages 1-3, 4-5

Moreover, ASM 120 states in part:

Functional Tab

The *Functional* Tab under *Assessment* module in MiAIMS is the basis for service planning and for Home Help services payment. Document the client's abilities and needs in the functional abilities tab to determine the client's ability to perform the following activities:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking Medication.
- Meal Preparation and Cleanup.
- Shopping.
- Laundry.
- Light Housework.

Functional Scale

ADLs and IADLs are assessed according to the following five-point scale:

1. Independent

Performs the activity safely with no human assistance.

2. Verbal Assistance

Performs the activity with verbal assistance such as reminding, guiding or encouraging.

3. Some Human Assistance

Performs the activity with some direct physical assistance and/or assistive technology.

4. Much Human Assistance

Performs the activity with a great deal of human assistance and/or assistive technology.

5. Dependent

Does not perform the activity even with human assistance and/or assistive technology.

Home Help payments may only be authorized for needs assessed at the 3 level or greater.

An individual must be assessed with at least one activity of daily living ranked 3 or higher or a complex care need to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services if assessed at a level 3 or greater.

Example: Ms. Smith is assessed at a level 4 for bathing however she refuses to receive assistance, or her daughter agrees to assist her at no charge. Ms. Smith would be eligible to receive assistance with IADL's [sic] if the assessment determines a need at a level 3 or greater.

Note: If an individual uses adaptive equipment to assist with an ADL, and without the use of this equipment the person would require hands-on care, the individual must be ranked a level 3 or greater on the functional tab under assessment. This individual would be eligible to receive home help services.

Example: Mr. Jones utilizes a transfer bench to get in and out of the bathtub, which allows him to bathe himself without the hands-on assistance of another. The adult services worker (ASW) must rank Mr. Jones a 3 or greater under the functional abilities tab. Mr. Jones would be eligible to receive home help services.

Assistive technology includes such items as walkers, wheelchairs, canes, reachers, lift chairs, bath benches, grab bars and hand-held showers.

See ASM 121, Functional Assessment Definitions and Ranks for a description of the rankings for activities of daily living and instrumental activities of daily living.

Complex Care Needs

Complex care refers to conditions requiring intervention with special techniques and/or knowledge. These complex care tasks are performed on client's whose diagnoses or conditions require more management. The conditions may also require special treatment and equipment for which specific instructions by a health professional or client may be required in order to perform.

- Eating and feeding.
- Catheters or legs bags.
- Colostomy care.
- Bowel program.
- Suctioning.
- Specialized skin care.
- Range of motion exercises.
- Peritoneal dialysis.
- Wound care.
- Respiratory treatment.
- Ventilators.
- Injections.

When assessing a client with complex care needs, refer to the MDHHS-5535, Complex Care Assessment, from MiAIMS forms for assistance with activity ranking, frequency, and length of time needed...

ASM 120, pages 2-5

DHS-54A, MEDICAL NEEDS FORM

The DHS-54A, Medical Needs form must be signed and dated by a medical professional certifying a medical need for personal care services based on the existing medical condition, physical disability, or cognitive disability of the client. The medical professional must be an approved Medicaid provider, enrolled in CHAMPS, and hold one of the following professional licenses:

- Physician (M.D. or D.O.).
- Physician assistant.
- Nurse practitioner.
- Occupational therapist.

- Physical therapist.

The DHS-54A, Medical Needs form is only required for Home Help clients at the initial opening of a case, unless one of the following exists:

- The ASW assesses a decline in the client's health which significantly increases their need for services, and clarification is needed from the medical provider.
- The ASW assesses an improvement in the client's ability for self-care, resulting in a decrease or elimination of services and the client states their care needs have not changed.
- The current DHS-54A has a specified time frame for needed services and that time frame has elapsed.

The client is responsible for obtaining the medical certification of need, but the DHS-54A must be completed by the medical professional and **not** the client. The National Provider Identifier (NPI) number must be entered on the form, and the medical professional must indicate whether they are a Medicaid enrolled provider.

The medical professional certifies that the client's need for service is related to an existing medical condition, physical disability, or cognitive disability. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services worker.

The date that the valid medical provider signs the DHS-54A is the medical certification date entered into MiAIMS.

If the case is closed and reopened within 90 days with no changes in the client's condition, a new DHS-54A is not necessary.

If the case is denied and a new referral is made within 90 days of the original certification date on the DHS-54A, there is no need to obtain a new medical needs form unless there are changes in the condition of the client.

IMPORTANT DATES

When a signed DHS-390, Adult Services Application, serves as the initial request for services, the referral date must be the date the application was received in the local office.

The date that a valid client or guardian signature is received in the local office is the application date.

The DHS-54A, Medical Needs form does not serve as the application for services. If the signature date on the DHS-54A is **before** the DHS-390 received date, payment for Home Help services must begin on the application date.

Do not authorize Home Help services prior to the date of the medical professional's signature on the DHS-54A.

The case opening date for a Home Help case is the latter of the DHS-390 received date and the DHS-54A medical provider signature date.

ASM 115, pages 1-3

As described in the above policy, an individual is only eligible to receive HHS in general, or with any IADLs, if he or she has a need for assistance with at least one ADL at a level 3 or greater on the functional scale.

In this case, the Department decided to deny Petitioner's request for HHS on June 29, 2022, on the basis that Petitioner did not return the Medical Needs form prior to the deadline. The Medical Needs form was sent on June 3, 2022, with a June 24, 2022, due date. (Exhibit 1, page 11)

In response, Petitioner testified that she submitted the form on June 23, 2022, prior to the original deadline and pointed out that it was received by the Department prior to the end of the day on June 29, 2022, the same day the denial was sent out. The Department does not deny requests on the due date due to lags in postal delivery and allows a grace period.

It was improper and incorrect to deny Petitioner's HHS request prior to the end of the day on June 29, 2022, because Petitioner was not given a full opportunity to comply. Petitioner's request should not have been denied until June 30, 2022. The Department acknowledged at the hearing that the Medical Needs form was received on June 29, 2022, and no other information was needed to process Petitioner's request.

The Administrative Law Judge, based on the above Findings of Fact and Conclusions of Law, decides that the denial of HHS for failing to return the Medical Needs form prior to the deadline was improper and incorrect.

IT IS, THEREFORE, ORDERED that:

The Department's decision is **REVERSED**.

Petitioner's HHS request for HHS should be reinstated and reprocessed going back to the original referral date.
