MOAHR Docket No.: 23-006144
Agency No.: [REDACTED]
Petitioner: [REDACTED]

ADMINISTRATIVE LAW JUDGE: Robert J. Meade

DECISION AND ORDER

This matter is before the undersigned Administrative Law Judge pursuant to MCL 400.9 and 42 CFR 431.200 *et seq.*, upon Petitioner's request for a hearing.

After due notice, a hearing was held on November 1, 2023. [REDACTED] Petitioner's mother, appeared and testified on Petitioner's behalf. Allison Pool, Appeals Review Officer, appeared on behalf of Respondent, Michigan Department of Health and Human Services (MDHHS or Department). Gina Kirn, Adult Services Worker (ASW) and Julia Willis, Adult Services Supervisor, appeared as witnesses for the Department.

ISSUE

Did the Department properly deny Petitioner's Home Help Services (HHS) application?

FINDINGS OF FACT

The Administrative Law Judge, based upon the competent, material and substantial evidence on the whole record, finds as material fact:

1. Petitioner is a Medicaid beneficiary, who applied for HHS on [REDACTED] [REDACTED] (Exhibit A, p 12; Testimony)
2. The doctor who completed the 54A Medical Needs form received with Petitioner's application did not check the Yes box in Box I to certify that Petitioner had a medical need for assistance with any of the personal care activities listed. (Exhibit A, p 14; Testimony)
3. On September 13, 2023, based on the lack of necessary information in the 54A Medical Needs form referenced above, the ASW denied Petitioner's application for failure to meet policy requirements and sent Petitioner a notice of the denial. (Exhibit A, p 13; Testimony)
4. On October 2, 2023, Petitioner's hearing request was received by the Michigan Office of Administrative Hearings and Rules. (Exhibit A, pp 5-11)

CONCLUSIONS OF LAW

The Medical Assistance Program is established pursuant to Title XIX of the Social Security Act and is implemented by Title 42 of the Code of Federal Regulations (CFR). It is administered in accordance with state statute, the Social Welfare Act, the Administrative Code, and the State Plan under Title XIX of the Social Security Act Medical Assistance Program.

Home Help Services (HHS) are provided to enable functionally limited individuals to live independently and receive care in the least restrictive, preferred settings. These activities must be certified by a physician and may be provided by individuals or by private or public agencies.

The Adult Services Manual (ASM) address issues of what services are included in Home Help Services and how such services are assessed:

ASM 101 AVAILABLE SERVICES

Payment Services Home Help

Home help services are non-specialized personal care service activities provided under the home help services program to persons who meet eligibility requirements.

Home help services are provided to enable individuals with functional limitation(s), resulting from a medical or physical disability or cognitive impairment to live independently and receive care in the least restrictive, preferred settings.

Home help services are defined as those tasks which the department is paying for through Title XIX (Medicaid) funds. These services are furnished to individuals who are **not** currently residing in a hospital, nursing facility, licensed foster care home/home for the aged, intermediate care facility (ICF) for persons with developmental disabilities or institution for mental illness.

These activities **must** be certified by a Medicaid enrolled medical professional and may be provided by individuals or by private or public agencies. **The medical professional does not prescribe or authorize personal care services.** Needed services are determined by the comprehensive assessment conducted by the adult services worker.

Home help services which are eligible for Title XIX funding are limited to:

Activities of Daily Living (ADL)

- Eating.
- Toileting.
- Bathing.
- Grooming.
- Dressing.
- Transferring.
- Mobility.

Instrumental Activities of Daily Living (IADL)

- Taking medication.
- Meal preparation/cleanup.
- Shopping for food and other necessities of daily living.
- Laundry.
- Light housecleaning.

An individual must be assessed with at least one activity of daily living (ADL) ranked 3 or higher or complex care need in order to be eligible to receive home help services.

Note: If the assessment determines a need for an ADL at a level 3 or greater but these services are not paid for by the department, the individual would be eligible to receive IADL services if assessed at a level 3 or greater.

Services not Covered by Home Help

Home help services must **not** be approved for the following:

- Supervising, monitoring, reminding, guiding, teaching or encouraging (functional assessment rank 2).
- Services provided for the benefit of others.
- Services for which a responsible relative is **able** and **available** to provide (such as house cleaning, laundry or shopping). A responsible relative is defined as an individual's spouse or a parent of an unmarried child under age 18.
- Services provided by another resource at the same time (for example, hospitalization, MI-Choice Waiver).

- Transportation - See Bridges Administrative Manual (BAM) 825 for medical transportation policy and procedures.
- Money management such as power of attorney or representative payee.
- Home delivered meals.
- Adult or child day care.
- Recreational activities. (For example, accompanying and/or transporting to the movies, sporting events etc.)

Note: The above list is not all inclusive.

ASM 105 ELIGIBILITY CRITERIA

GENERAL

Requirements

Home help eligibility requirements include **all** of the following:

- Medicaid eligibility.
- Appropriate program enrollment type (PET) code.
- Certification of medical need.
- Need for service, based on a complete comprehensive assessment indicating a functional limitation of level 3 or greater for at least one activity of daily living (ADL).

Certification of Medical Need

Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional. The medical professional must hold one of the following professional licenses:

- Physician (M.D. or D.O.).
- Physician Assistant.
- Nurse practitioner.
- Occupational therapist.
- Physical therapist.

The DHS-54A or veterans administration medical form 10-10M are acceptable for individuals treated by a VA physician; see ASM 115, Adult Services Requirements.

Need For Service

The adult services worker (ASW) is responsible for determining the necessity and level of need for home help services based on all of the following:

- Client choice.
- A completed MDHHS-5534, Adult Services Comprehensive Assessment. An individual must be assessed with at least one activity of daily living (ADL) in order to be eligible to receive Home Help services.

ASM 115 ADULT SERVICES REQUIREMENTS

MDHHS-5534, ADULT SERVICES COMPREHENSIVE ASSESSMENT

The ASW must conduct a face-to-face interview with the client in their home to assess the personal care needs. During the assessment, complete the MDHHS-5534, Adult Services Comprehensive Assessment, generated from MiAIMS; see ASM 120, Adult Services Comprehensive Assessment.

CLIENT AND PROVIDER CONTACTS

Within the Contacts module of MiAIMS, the following contact types are available:

- Face-to-face.
- Telephone.
- Miscellaneous.
- Email.
- Text.
- Case conference with supervisor.
- Narrative entry only.

The ASW must document all contacts between the ASW, client, provider, and collateral contacts in MiAIMS. The ASW must, at a minimum, have a face-to-face interview with the client, prior to case opening, and then every six months in the client's home for the review.

*Adult Services Manual 115
September 1, 2021, p 4*

The ASW testified that Petitioner was referred for HHS on September 1, 2023, but the doctor who completed the 54A Medical Needs form received with Petitioner's application did not check the Yes box in Box I to certify that Petitioner had a medical need for assistance with any of the personal care activities listed below. The ASW testified that on September 13, 2023, based on the lack of necessary information in the 54A Medical Needs form referenced above, she denied Petitioner's application for failure to meet policy requirements and sent him a denial notice.

Petitioner's mother and Authorized Hearing Representative (AHR) testified that Petitioner is diagnosed with schizophrenia and currently lives with her as he is delusional and unable to be around others. Petitioner mother indicated that she does everything for Petitioner, including getting his medication and giving his insulin. Petitioner's mother indicated that she is trying to find a new psychiatrist for Petitioner to adjust his medications and she is trying to get Petitioner approved for social security disability. Petitioner's mother testified that she is also Petitioner's guardian and there is no place else for him to go right now.

Based on the evidence presented, Petitioner has failed to prove, by a preponderance of the evidence, that the Department erred in denying the HHS application. As indicated

above, policy provides that the need for HHS “. . . **must** be certified by a Medicaid enrolled medical professional . . .” And, policy provides, “Medical needs are certified utilizing the DHS-54A, Medical Needs form and must be completed by a Medicaid enrolled medical professional.” Here, Petitioner’s doctor did not certify on the 54A Medical Needs form that Petitioner had a medical need for the personal services, as required by policy. Accordingly, the denial of Petitioner’s HHS application was proper and must be upheld.

DECISION AND ORDER

The Administrative Law Judge, based on the above findings of fact and conclusions of law, finds that the Department properly denied Petitioner’s HHS application based on the available information.

IT IS THEREFORE ORDERED that:

The Department’s decision is **AFFIRMED**.
