

DEPARTMENT OF ENVIRONMENTAL QUALITY

AIR QUALITY DIVISION

ANNUAL REPORTING

(By authority conferred on the department of natural resources by sections 5 and 14a of Act No. 348 of the Public Acts of 1965, as amended, and Executive Reorganization Order Nos. 1973-2, 1973-2a, and 1976-1, being SS336.15, 336.24a, and 299.11 of the Michigan Compiled Laws)

R 336.201 Definitions.

Rule 1. As used in these rules:

(a) "Commercial location" means a publicly or privately owned place where persons are engaged in the exchange or sale of goods or services. "Commercial location" also means multiple housing units which have a single owner and which are designed for 3 or more families. "Commercial location" does not include elementary and secondary schools and facilities owned and operated by the state government. A separate building or group of buildings used for the exchange or sale of goods or services which has a single owner and manager constitutes a separate commercial location.

(b) "Department" means the department of natural resources.

(c) "Geographical site" means contiguous land ownership by 1 landowner. A public right-of-way, such as a road, railroad, and watercourse through part of the site, is not considered to break the continuity. If transmission and fuel delivery rights-of-way or a strip of land that serves no other principal purpose than as a transportation or materials handling link connects 2 or more otherwise separate geographical sites, such connected sites shall be considered separate geographical sites.

(d) "Manufacturing location" means a place where a person is engaged in the making of goods or wares, including the generation of electricity, in the processing of material, or primarily in the disposing or treating of solid or liquid waste. For the purpose of assessing a surveillance fee, manufacturing location includes all such places, whether publicly or privately owned and contained within 1 geographical site, except for places owned and operated by the state government. A power plant, as defined in table 42 of R 336.1401 of the Michigan Administrative Code, constitutes a separate manufacturing location when used to supply steam or energy to more than 1 other manufacturing or commercial location. However, a power plant with a capacity of more than 500,000 pounds of steam per hour is considered a separate manufacturing location. For a large industrial complex or other unusual cases, the department may determine that the complex constitutes more than 1 manufacturing location, based on such factors as separate corporate operating division units or sections.

History: 1980 AACs.

R 336.202 Annual reports.

Rule 2. The department shall require an annual report from a commercial, industrial, or governmental source of emission of an air contaminant if, in the judgment of the department, information on the quantity and composition of an air contaminant emitted from the source is considered by the department as necessary for the proper management of the air resources. The information shall be specified by the department and shall be submitted on forms available from the department. The information shall include factors deemed necessary by the department to reasonably estimate quantities of air contaminant discharges and their significance. The report shall be submitted to the department not later than March 15 of each year following notification by the department that the report is required. The notification shall be in writing and shall be mailed to the owner or operator of the source of emission not less than 45 days before the deadline for submitting the report.

History: 1980 AACs; 1986 AACs.

R 336.203 Rescinded.

History: 1980 AACCS; 1987 AACCS.

R 336.204 Register of materials.

Rule 4. The register of materials reads as follows:

Register of materials

Group A

Asbestos
Benzo-a-pyrene
Beryllium or its compounds
Bromine
Chlorine
Cyanides
Flourides
Flourine
Iodine
Lead or its compounds
Mercaptans
Mercury or its compounds
Pesticides
Sulfides, organic and inorganic

Group C

Sulfur dioxide

Group D

Alcohols
Ethers
Esthers
Ketones
Halogenated hydrocarbons
Non-methane hydrocarbons

Group B

Particulate (except those listed in group A)

Group E

Oxides of nitrogen
Carbon monoxide
Ammonia

History: 1980 AACCS; 1987 AACCS.

R 336.205 Rescission.

Rule 5. R 336.81 to R 336.83 of the Michigan Administrative Code, appearing on pages 7926 to 7928 of the 1975 Annual Supplement to the Code and pages 8579 and 8580 of the 1976 Annual Supplement to the Code, are rescinded.

History: 1980 AACCS.
